In December 2021, the Minnesota Governor’s Office and DHS prioritized $20 million from the COVID-19 Flexible Response Account for Minnesota’s child care providers in response to rising new COVID-19 case totals in Minnesota.

These funds, called One-Time Supplemental Stabilization Grants, are part of Minnesota’s share of the American Rescue Plan Act funding.

Minnesota child care providers can apply for these grants as part of their January 2022 Child Care Stabilization Base Grant application.

These funds provide significantly more flexibility
One-time Supplemental Grant: Flexibility

• What flexibility is provided in the One-time Supplemental Grants:
  • Providers are NOT required to use 70% of funds in increasing staff compensation and benefits
  • Providers are NOT required to maintain wages and benefits of staff for the full funding period
  • Providers are allowed to furlough staff during the funding period if needed
  • Providers are not required to report and update program capacity information
• The following providers are eligible:
  • Licensed and certified child care providers in good standing throughout the funding period with the Minnesota Department of Human Services

• Grant amounts:

</tr>
</tbody>

*Exact grant amounts will depend on the level of child care provider demand, determined through the number of applications received from eligible child care providers
How to apply?

• Providers will be able to apply for the One-time Supplemental Grant in the same application as the Base Grant

• Providers can apply for either the Supplemental or Base Grants or both

• Look for your personalized email to apply on Tuesday, January 18

• The application period will end on Tuesday, January 25 @ 4 PM
At the end of June 2021, the Minnesota Legislature created Minnesota’s Child Care Stabilization Grant Program, which is funded by the federal American Rescue Plan Act.

The Stabilization Grant Program included the creation of an additional grant opportunity to help providers experiencing extreme financial hardship, called the Financial Hardship Grant Program.

$ 70 million has been set aside for the Financial Hardship Grant Program.

The duration of the program is dependent on how many providers apply and qualify.
Financial Hardship Grant: Requirements

• The requirements of the Financial Hardship Grants are the same as Base Grants with the exception of:
  • Requirement to use 70% of funds in increasing staff compensation and benefits
