Minnesota Substance Use Disorder Community of Practice Meeting Overview

The Substance Use Disorder (SUD) Community of Practice (CoP) consists of people who are engaged in the field of SUD treatment and prevention in any capacity including, but not limited to, people with lived experience, providers, family members, researchers, recovery peers, state agency and county health and human service representatives, health plan representatives and advocates. The group will issue reports and recommendations to the legislative chairs and ranking minorities of committees in both local and regional governments.

This CoP will be focused on understanding the American Society for Addiction Medicine's (ASAM) levels of care. Subject matter experts will provide an overview and history of ASAM and present challenges of implementation, nationally and within Minnesota. Participants will also have the opportunity to provide feedback on ASAM implementation challenges and potential strategies with their peers in break-out groups and in large group discussion.
