General summary

Margaret’s House at Parmly on the Lake is a customized living setting located in Chisago City, in Chisago County, 40 miles north of Minneapolis. Chisago City had a population of 4,967 in 2010.

At the time of the provider attestation, Margaret’s House provided customized living services to nine people. The setting served one person supported by a home and community-based waiver program.

The customized living setting is a part of a continuum-of-care campus that includes short- and long-stay skilled nursing, in- and outpatient therapy services, a fitness center and three customized living settings. Margaret’s House and Isabelle’s House provide customized living services to people with Alzheimer’s disease or other dementias. The third setting, Vindauga View, provides customized living services to a broader population. Separate evidentiary packages will report on Isabelle’s House and Vindauga View. Margaret’s House and the continuum-of-care campus are operated by Monarch Healthcare Management.

Customized living provider standards/qualifications

Licensure requirements and other state regulations for customized living services clearly distinguish these services/settings from institutional licensure or regulations.

Customized living services are provided in housing-with-services establishments with the service provider directly licensed as a comprehensive home care provider by the Minnesota Department of Health. Customized living services provide an individualized package of regularly scheduled health-related and supportive services provided to a person who resides in a qualified, registered housing-with-services establishment.

Customized living service definitions that support the setting requirements

Customized living (CL) and 24-hour CL services include component services designed to meet the person's assessed needs and goals. Individualized CL services may include supervision, home care aide tasks (e.g., assistance with activities of daily living), home health aide task (e.g., delegated nursing tasks), home management tasks, meal preparation and service, socialization, assisting enrollees with arranging meetings and appointments, assisting with money management, assisting participants with scheduling medical and social services and arranging for or providing transportation. If socialization is provided, it must be part of the service plan, related to established goals and outcomes and not diversional or recreational in nature.

For more details about the component services, including what is covered and distinctions between each, see [Customized Living Component Service Definitions, DHS-6790H \(PDF\)](#).

(<https://edocs.dhs.state.mn.us/lfserver/Public/DHS-6790H-ENG>)

Minnesota's Community-Based Services Manual (CBSM) provides the following requirements for customized living services:

Meaningful distinction between the facility and HCBS setting

States must submit strong evidence that the setting presumed institutional has the characteristics of a HCBS setting and not an institutional setting.	
Determination	Summary
<input checked="" type="checkbox"/> Met <input type="checkbox"/> Unmet <input type="checkbox"/> Not applicable	<p>Interconnectedness between the facility and the setting in question, including administrative or financial interconnectedness, does not exist or is minimal.</p> <p>Margaret’s House, the customized living setting, has separate managers who oversee housing and nursing services in the setting. The managers report to the administrator of the care campus. The setting is financially connected to the entire campus, but it manages decisions about financial matters at the setting level as well.</p>
<input checked="" type="checkbox"/> Met <input type="checkbox"/> Unmet <input type="checkbox"/> Not applicable	<p>To the extent any facility staff are assigned occasionally or on a limited basis to support or back up the HCBS staff, the facility staff are cross-trained to meet the same qualifications as the HCBS staff; (staff training materials that speak of the need to support individuals’ chosen activities), (person centered planning) (the staff is trained specifically for home and community-based support in a manner consistent with the HCBS settings regulations.)</p> <p>All staff that work in the customized living setting receive HCBS settings rule training and other relevant training and orientation for the setting. The direct care staff working in the nursing facility do not work in customized living setting.</p>
<input checked="" type="checkbox"/> Met <input type="checkbox"/> Unmet <input type="checkbox"/> Not applicable	<p>Participants in the setting in question do not have to rely primarily on transportation or other services provided by the facility setting, to the exclusion of other options; (Describe the proximity to avenues of available public transportation or an explanation of how transportation is provided where public transportation is limited.)</p> <p>People living in this customized living setting have several options for transportation to support community engagement and inclusion, including the setting’s own van; Heartland Express, the public transit provider; rides from family and friends; and local taxi services.</p>

The setting provides HCBS services in a space that is distinct from the space in which institutional services are provided.

The customized living setting is separate from the nursing facility. The customized living setting has its own signage and entrance. The setting is connected to the nursing facility by a hallway and doorway. People served in the setting and visitors may come and go from a separate entrance from the nursing facility's main entrance. In the image below the setting is outlined in gold. The rest of the care campus is shown below the setting.

Community engagement opportunities and experiences

Margaret's House is a customized living setting focused on caring for people with Alzheimer's disease and other dementias. It offers engagement opportunities that are specifically planned for the setting and the people who live there. People living in the setting may also access programming planned for the rest of the care campus, as they desire.

Community engagement is overseen by the setting's managers and by activity staff who plan activities tailored to the interests of the people living in the setting. People served in the setting and their family members provide input through interest assessment forms and direct communication with staff. People learn about activities offered in the setting through direct reminders from the staff.

The setting supports regular activities in the community with the support of their program van, volunteers and family and friends of those living in the setting. Activities offered include the following:

- Errands and medical appointments
- Community events and festivals
- Restaurants and social outings
- Fishing trips and sightseeing drives

The on-site, programmed activities are robust at this setting. The offerings include regularly scheduled exercise sessions, music and art-making, baking, games and visits from area clergy and church staff.

Minnesota's recommendation

Date of recommendation: 7/1/2019

Minnesota supports that this setting overcomes the institutional presumption and meets the requirements of a home and community-based setting. Provider is required to maintain on-going compliance with all HCBS requirements.
