Prong type	Category	Type of setting
Prong 3 Effects of isolating characteristics	Effect of isolating characteristic	Is one of multiple homes located on the same street or adjoining property that shares programming activities

Note: The term people/person (resident for residential settings) refers to people who receive Medicaid HCBS waiver service(s).

General summary

The setting is located in the city of Bemidji in northwest Minnesota, at the intersection of U.S. highways 71 and 2. The Census Bureau estimated the total population of Bemidji as of 2016 to be 14,664.

The Sprucewoods building is located in a residential neighborhood, surrounded by other buildings and single family homes. It is located near shopping, parks and public transportation.

The Sprucewoods is a adult foster care (AFC) home, which includes long- or short-term services provided in a residential setting to people who need 24-hour supervision. The Sprucewoods Intensive is collocated with the Sprucewoods West and Sprucewoods East in a three-unit multiplex, which includes common office and gathering spaces. The Intensive apartment is located on the first floor, near the offices.

Two people on waivers receive services at Sprucewoods Intensive.

Foster Care/Supported Living service provider standards/qualifications

Licensure requirements and other state regulations for foster care services clearly distinguish these services/settings from institutional licensure or regulations.

- Child and Adult Foster Care (BI, CAC, CADI waivers) and Supported Living Service providers (DD waiver) must be licensed under [Minnesota Statutes 245D](https://www.revisor.mn.gov/statutes/cite/245D) (<https://www.revisor.mn.gov/statutes/cite/245D>).
- Adult Foster Care (Elderly Waiver and Alternative Care program) provider must meet the licensure requirements found in [Minnesota Rules, parts 9555.5050– 9555.6265](https://www.revisor.mn.gov/rules/9555/) (<https://www.revisor.mn.gov/rules/9555/>) and [Minnesota Statutes, section 245A](https://www.revisor.mn.gov/statutes/cite/245A) (<https://www.revisor.mn.gov/statutes/cite/245A>).

Foster care and supported living service definitions that support the setting requirements

Adult and child foster care for people on BI, CAC and CADI waivers:

Adult foster care is ongoing residential care and supportive services. It includes personal care assistant services, homemaker, chore, behavioral aide services, companion services and medication oversight (to the extent permitted under state law) provided in a licensed home. Minnesota's Community-Based Services Manual (CBSM) provides requirements for [Adult or child foster care](http://www.dhs.state.mn.us/main/id_001786) (http://www.dhs.state.mn.us/main/id_001786)

Supported living services for people on the DD Waiver:

Supported living services are "residential habilitation services" provided to people who live in a supported living environment. Residential habilitation services consist of assistance with acquisition, retention or improvement in skills related to activities of daily living, such as personal grooming and cleanliness, bed making and household chores, eating and the preparation of food and the social and adaptive skills necessary to enable people to live in a non-institutional setting. Minnesota's CBSM provides requirements for [Supported living services](http://www.dhs.state.mn.us/main/id_048987) (http://www.dhs.state.mn.us/main/id_048987)

Adult foster care for people on the Elderly Waiver/Alternative Care program:

Minnesota's CBSM provides requirements for [Adult foster care](http://www.dhs.state.mn.us/main/id_056766#foster) (http://www.dhs.state.mn.us/main/id_056766#foster) for people on the Elderly Waiver/Alternative Care program.

Prong 3 settings

Meaningful distinction between colocated settings

States must submit strong evidence that the setting presumed institutional has the characteristics of a HCBS setting and not an institutional setting.

Determination	Summary
<input type="checkbox"/> Met <input type="checkbox"/> Unmet <input type="checkbox"/> Not applicable	<p>Describe the extent to which any shared programming (meals, transportation, social/recreational activities) occurs between different homes/buildings:</p> <p>The three programs share two vans. Staff report that transportation is occasionally shared, but not all of the time. Residents have the option to participate in weekly group outings; however, each program has its own activity calendar, targeted at the interests and preferences of its individual residents. No meals are shared.</p>
<input checked="" type="checkbox"/> Met <input type="checkbox"/> Unmet <input type="checkbox"/> Not applicable	<p>Describe the extent to which staff are scheduled to work with people at the other colocated setting(s) on the same shift:</p> <p>Sprucewood East, Sprucewoods West and Sprucewoods Intensive are separately staffed, with a “floater” staff designated to support all three programs.</p> <p>When asked, staff indicated that on rare occasions there have been brief periods of time when a staff member has had to leave (illness, etc.) and the float staff has been unavailable due to transporting residents, etc. and a staff has covered multiple apartments/programs. However, they did note that this was uncommon.</p>
<input checked="" type="checkbox"/> Met <input type="checkbox"/> Unmet <input type="checkbox"/> Not applicable	<p>Participants in the setting in question do not have to rely primarily on transportation or other services provided by the other co-located setting(s), to the exclusion of other options;</p> <p>The three settings share two vans and sometimes share transportation if going to a common location. However, people living at the Sprucewoods have multiple transportation options available to them. Buses run until 5 p.m. and cab cards are used after that time. Staff help get people cab cards and plan for times they need rides. Also, staff has arranged for Greyhound bus services when residents want to travel farther distances.</p>

Community engagement opportunities and experiences

Community activities are planned through conversations between staff and residents regarding preferences and activities being offered in the community. People have the choice of whether or not to participate in any activity and whether to take part in any group events. Residents are also noted to frequently take part in their own activities in the community, especially visiting family, shopping, and going for walks.

Some community activities people participate in include:

- Hope House Community Center
- State parks
- Movies
- Bowling
- Rutgers Resort for swimming
- Walks
- Shopping

It was evident in observation and interviews with people, staff and the administrator that person-centered practices are at the forefront of service delivery by:

- Respecting and honoring the things each person thinks are important and encouraging informed choice and creativity
- Supporting activities are flexible and work around the person's preferred schedule (people are not following a "set schedule")
- Encouraging people to share ideas and make choices about setting activities based on their own personal preferences and interests
- Ensuring people have opportunities and supports they need to be fully included in their community, individually and in groups, as desired
- Assisting people with developing meaningful relationships with other members of the community
