MENTAL HEALTH IS HEALTH

Minneapolis needs a RANGE OF MENTAL HEALTH SERVICES to meet a range of INDIVIDUAL NEEDS...

People need to receive the most appropriate care, be served in their own community and not be referred to more intensive—and more costly—care than required. More information

...YET GAPS REMAIN ACROSS THE STATE

While much progress has been made in the past few years, most areas of the state still do not have the range of services needed. As a result, people often travel long distances or receive an inappropriate level of care. More information

At DHS, we work to integrate mental, chemical and physical health care, promote successful treatments and serve people close to their families and communities.
