Minnesota Department of Human Services Health Care Programs (MHCP)

Rates of Use of ICF-DD Services (Intermediate Care Facilities for Developmental Disabilities) in Seven Successive Januaries

Rates are per 1,000 people in each geographic area's population.

Statewide and by County 2016 - 2022

The reciprocity rates are computed by dividing each area's count of ICF-DD residents who were recipients of care under one of the Minnesota Department of Human Services Health Care Programs (almost entirely Medical Assistance/MA) ... by the U.S. Census Bureau's population estimate for the county for the previous July, then multiplying that rate by 1,000. ICF-DD resident recipients were counted using the payments data in the Department's Data Warehouse.

ICF-DD residents were counted if MHCP paid at least one ICF-DD claim for January services within six months of service. Most claims for January care are paid in February, but we also looked for late claims for January service processed in the six months following in the same year.

A summary of the older statewide recipient rates for 1995, 2000, 2005, 2010, 2015, and 2020 follows below on this page..
