March 2025

The total cost of salaries, printing, and supplies incurred in the development and preparation of this report was approximately \$540 (reported as required by Minn. Stat. §3.197).

This report can be provided in another format upon request.

2024 LEGISLATIVE REPORT ON JAIL COMMUNICATIONS

I. Background

Minnesota Statutes, section [241.253](#), requires the Department of Corrections (DOC) to compile county and regional jail communications data into a single report and submit the report to the legislative committees with jurisdiction over criminal justice policy by March 21 of each year.

The statute also instructs each county and regional correctional facility in the state, including a jail, juvenile detention center, workhouse, or lockup, to report to the commissioner of corrections on their communications contracts for incarcerated people by February 28 of each year. The report must include:

- (1) the total number of phone calls, phone call minutes, video visits, and e-messages initiated or received by incarcerated people in such facilities during the preceding calendar year;
- (2) the total amount of revenue generated by vendors at each facility in the preceding calendar year;
- (3) the total amount of commissions earned by each county and regional correctional facility, including a jail, juvenile detention center, workhouse, or lockup, during the preceding calendar year; and
- (4) how the commissions were spent.

Subd. “b” defines “commission” as any form of:

- (1) monetary payment,
- (2) in-kind payment requirement,
- (3) gift,
- (4) exchange of services or goods,
- (5) fee, or
- (6) technology allowance.

II. Method

The DOC issued and distributed a form to each county and regional correctional facility within the state via email, which included jails, juvenile detention centers, workhouses, and lockups. Facilities were instructed to complete the form by providing the statutorily required information, ensuring compliance with the relevant laws and regulations. To ensure timely submission, the DOC also sent a reminder email to all facilities, highlighting the impending due date for form completion.

III. Licensed County Jail Facilities

78 county and regional correctional facilities reported their 2024 jail communication data to the DOC by March 1, 2025.

Data for county and regional correctional facilities in the state have been compiled by the DOC Inspection and Enforcement Unit and is attached to this report as Appendix A.

The DOC also requested facilities to submit their communications contracts, which the agency has retained and can provide to the legislature upon request.

Appendix A.

County	Facility	# of calls initiated or received by IP	# of call minutes initiated or received by IP	# of video calls initiated or received by IP	# of e-messages sent or received by IP	Total amount of revenue by vendors - phone	Total amount of revenue by vendors - video	Total amount of revenue by vendors - e-messages	Total amount of commission earned - phone	Total amount of commission earned - video	Total amount of commission earned - e-messages	How was commission spent?
