Meeting Notes

The Minnesota Department of Corrections' Community Supervision Working Group was introduced, outlining its purpose, membership, and legislative mandate to create clear, consistent statutory guidance for counties transitioning between supervision delivery systems. It provides background on Minnesota's three existing systems (CCA, CPO, DOC), explains recent funding reforms that have accelerated transitions, and highlights key considerations not explicitly governed in statute, such as roles, costs, employee compensation, and continuity of services. The group agreed to a structured, scenario-based approach to developing recommendations, clarified required consultations, and laid out a timeline and work plan leading to a final report due December 15, 2026.
