## About DOC Rulemaking

The Minnesota Legislature delegates authority to state agencies to make administrative rules necessary to carry out the purpose of statutorily assigned duties. This process is known as rulemaking. Rulemaking is an important government function that allows state agencies to adopt, amend, or repeal rules. Both a rule and a statute have the force and effect of law. We all must follow both.

Minnesota rulemaking requires agencies to follow procedures under the Minnesota Administrative Procedure Act. Agencies must follow the act's many procedural requirements while accomplishing two main goals: accountability and transparency.

## Rulemaking Areas

DOC manages nine rule chapters, which are overseen by three different units: **(1)** Inspection and Enforcement, **(2)** Hearings and Release, and **(3)** Community Corrections.
