

# POSIT Scoring Sheet

CLIENT \_\_\_\_\_ AGE \_\_\_\_\_ SEX \_\_\_\_\_ DATE POSIT ADMINISTERED \_\_\_\_/\_\_\_\_/\_\_\_\_ POSIT SCORED BY \_\_\_\_\_

## Scoring the POSIT

**Template:** Circles on the template indicate “at-risk” responses; the capital letters indicate the corresponding functional areas. (A-Substance Use/Abuse, B-Physical Health, C-Mental Health, D-Family Relationships, E-Educational Status, F-Aggressive Behavior/Delinquency)

**Scoring Responses:** Each risk response counts as one point for the corresponding functional area. Score all pages of the POSIT. The six rows of the scoring sheet correspond to the six functional areas. Starting with one, tally the number of points in each functional area. If an item is blank, score it as one point and make note of it in the

comment’s section.

**Risk Level:** Calculate the total points for each functional area. Functional areas scored as Low Risk, indicate no assessment is needed. When only one functional area scores as Middle Risk, further assessment **may** be indicated. When two or more functional areas score as Middle Risk or **any** functional area scores in High Risk, it suggests a problem and further assessment **is** indicated.

Low Risk					Middle Risk					High Risk															
<b>A. Substance Use/Abuse (17 Items)</b>																									
					1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17				
<b>B. Physical Health (10 Items)</b>																									
1					2					3					4	5	6	7	8	9	10				
<b>C. Mental Health (22 Items)</b>																									
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22				
<b>D. Family Relationships (11 Items)</b>																									
1					2					3					4	5	6	7	8	9	10	11			
<b>E. Educational Status (26 Items)</b>																									
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26
<b>F. Aggressive Behavior/Delinquency (16 Items)</b>																									
1				2				3	4	5	6	7	8	9	10	11	12	13	14	15	16
