### Audit Findings

**Audit Narrative**

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files
reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

Minnesota Correctional Facility-Willow River/Moose Lake (MCF-WRML) is operated by the Minnesota Department of Corrections (DOC). This is the facility’s second PREA audit. The current audit was attained and assigned to Robert Manville a certified DOJ Auditor by TrueCore Behavioral Solutions, of Tampa, Florida.

Prior to the on-site visit, the agency PREA coordinator and the facility PREA Compliance Manager forwarded all policy and supporting documentation to the PREA Auditor, including the completed Pre-Audit Questionnaire, administrative reports, contracts, incident reports, memorandums, policies, brochures, staff rosters, PREA audit notices, staffing plans, training information, and other reference materials for examination prior to the on-site visit. MCF–WRML was last accredited with the American Correctional Association in August 2017.

The facility population on the day of the audit was 1070 inmates at MCF-ML and 148 inmates at MCF-WR. There is a total of 432 staff that have direct contact with the inmate population. The facility has 120 volunteers and two contracting nurses.

Sexual Assault Forensic Examinations are conducted at Mercy Hospital located at Moose Lake, Minnesota. The facility also has a SART (Sexual Assault Response Team) consisting of the Administrator, PREA Manager, investigators, and PREA Support Persons (PSP), that respond as necessary. PREA Support Persons are staffs who have been trained to assist the victim through all processes, including providing assistance in obtaining outside support services. The Department of Corrections has established a victim advocate program. These staff will provide advocacy service or partner with other agencies to support the inmate victims of sexual abuse.

On the first day of the onsite audit, entrance meetings were held at the facility to discuss any concerns regarding the audit process and finalize the facility tour and interview schedules. The following persons were in attendance: PREA Coordinator, PREA Compliance Manager, Warden, Associate Warden of Operations, Correctional Program Director, Due Process Lieutenant (Lt.), Correctional Program Director (Willow River) Training and Development Specialist, Special Investigator, Captain, Lt. Industry Director, Educational Director, Finance Director, Sergeant, Human Resources, Behavioral Health Manager, and Health Services Director. Tours were conducted at Moose Lake and Willow River facilities. The tours included intake processing areas, all housing units, recreation areas, facility support areas, education and vocational area, health service area, food service area, and the visiting rooms. Persons of the opposite gender rang a door bell or announce themselves each time they enter a housing unit or dormitory. Interviews were conducted with the Administrative staff, five (5) correctional officers and nine (9) inmates at Willow River Challenge Incarceration Program. The tour of the Moose Lake correctional centers was concluded during the second day of the audit.

At the entrance of each building, and sleeping areas there is a PREA bulletin board with the following signs posted (in English and Spanish); Victim support services, Audit notice postings with the PREA auditors contact information, PREA Ways for Reporting, and Zero tolerance to sexual abuse or harassment. This same information is located in all areas of the facility that inmates were present during the facility tour. During the tour additional areas were identified for placing posters that would enhance
the PREA education program. A review of the facility confirmed that additional posters were added per recommendations. Inmates and visitors pass these boards multiple times during a 24-hour period moving from the dorms to work, meals, education, vocation, visitation and recreation.

Both medical and mental health staff are available at the facility or are available as requested. Correctional officers and support staff were noted interacting with inmates in all areas that inmates were located.

On the second and third day several areas of the facility were revisited, and general conversations were conducted with inmates, correctional officers and Lieutenants. All inmates and correctional staff were willing to discuss and provided positive information on the facility’s compliance with PREA. Inmates were supportive of the willingness to talk to the facility’s Lt. staff to address any problems and would receive appropriate responses.

Following the tours of the facility, interviews were conducted with specialized staff. The interviewed included the PREA compliance manager, warden, assistant warden for operations, one (1) clinical psychologists, investigator, two (2) staff assigned as PREA support persons, retaliation manager, nursing supervisor, volunteer coordinator, education director, personnel director, officers in charge (OIC) for first and second shift, volunteer and two (2) medical contractors, PREA compliance manager, PREA Coordinator, two (2) Lieutenants, a Captain, DOC contracting supervisor and industry supervisor. A facility staff roster was provided by the PREA Compliance Manager and the Auditor randomly chose available staff from the roster to be interviewed.

On day two and three of the onsite audit, the Auditor reviewed ten (20) personnel staff files, fifteen (15) inmate records, fifteen (15) employee training records, fifteen (15) computerized screening instrument, three (3) investigative files and investigative review team findings.

A total of twenty-one (21) correctional staff and a total of fifty (50) inmates were interviewed. Included in this inmate population were three (3) inmates identified by mental health staff as having cognitive deficiencies, two (2) inmates that were English proficient, one (1) inmates who have made allegations of abuse or harassment two (2) inmates that were identified during screening as being subject to victimization, three (3) inmates that identified as gay, and two (2) inmate that had contacted the auditor prior to audit. There were no other targeted populations interviewed to require interviewing.

During the audit period, there were a total of three (3) allegations of sexual abuse or sexual harassment filed by inmates. The investigative files contained forms provided to inmates on retaliation monitoring and notification of outcome of investigation. None of the cases required forensic evidence collection by a SANE service provider in the community.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

MCF-MC is the former Moose Lake Regional Treatment Center. Conversion to a correctional facility began in 1988. The last renovations were completed in 1994.

Staff and visitors enter through a front entrance on the north side of the facility and are subject to mandatory metal detection, frisk of person and property, and identification verification. There is a central control room that provides a sally port area for persons to enter the secure area of the facility. This area is also one of several areas that monitor cameras that are located throughout the facility.

Moose Lake is a level three medium security facility that houses up to 1,065 adult male offenders who have 10 years or less remaining on their sentence. The average length of sentence is 69 months. The rated capacity is 1075 for ML and 163 at WR. The facility’s average daily population is 1066. The age range at the facility is between 18 and 70 years of age.

MCF–Moose Lake operates on three eight-hour shifts for the security staff. There are 44 officers on the 1st shift (midnights), 94 on the 2nd shift (days), and 64 assigned to the 3rd shift (evenings).

A case manager assesses each inmate to ensure that the proper programming, services and release planning are provided. The case manager acts as a liaison between these processes and the offenders. The Transition from Prison to Communities (TPC) program guides the case managers with each offender’s progression of goals for successful transitions. MCF–WRML also utilizes a Restorative Justice committee which the offenders organize and participate in under the supervision of staff.

A satellite facility nearby (eight miles away) and under the same administration as MCF –Moose Lake is Willow River, which houses the Challenge Incarceration Program, a minimum-security boot camp that allows non-violent offenders who qualify to earn early release. This information is utilized to review the facility staffing plan for the upcoming fiscal year.

The facility’s staffing plan takes into consideration any judicial findings of inadequacy in calculating adequate staffing levels and determining the need for video monitoring and Policy requires that the facility’s staffing plan takes into consideration any findings of inadequacy from Federal investigative agencies in calculating adequate staffing levels and determining the need for video monitoring. The facility’s staffing plan takes into consideration any findings of inadequacy from internal or external oversight bodies in calculating adequate staffing levels and determining the need for video monitoring, and that the facility’s staffing plan takes into consideration all components of the facility’s physical plant (including “blind-spots” or areas where staff or inmates may be isolated) in calculating adequate staffing levels and determining the need for video monitoring. The Policy provides that the facility’s staffing plan takes into consideration the composition of the inmate population in calculating adequate staffing levels and determining the need for video monitoring.

The facility’s staffing plan takes into consideration the programs occurring on a particular shift in calculating adequate staffing levels and determining the need for video monitoring and the following: any applicable State or local laws, regulations, or standards in calculating adequate staffing levels; prevalence of substantiated and unsubstantiated incidents of sexual abuse; staffing levels and, any other relevant factors in calculating adequate staffing levels. The facility provided a staffing analysis for 2018 which included all areas of the aforementioned Policy requirements. There have been no findings of inadequacy relevant to this standard.

All essential posts are filled each shift and no essential posts are kept open for salary savings. When programs are offered, staffing is increased to provide additional supervision. The review of the facility’s PREA rounds logs confirmed intermediate-level or higher-level supervisors, including shift supervisors, (and department heads at a minimum) conduct and document such visits throughout the facility also at night and on the weekends. When programs are offered, staffing is increased to provide additional supervision.
Minnesota Department of Corrections Policy: 301.055 Security Rounds requires that facility heads and facility assistants conduct unannounced rounds on each shift. It also prohibits staff from alerting other staff members that these rounds are occurring unless such announcement is related to the legitimate operational function of the facility. A review of the log books, interviews with staff and supervisor provided documentation that the shift supervisor, assistant director and facility acting superintendent make unannounced rounds in the living units on a routine basis including nights and weekends. Center provided a daily narrative log which includes PREA daily unannounced rounds of all living units. Compliance was determined by review of monthly staff meetings, review of policy, review of daily logbooks and PREA logs, and interviews with staff.

Auditor Overall Compliance Determination

□ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

□ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Minnesota Department of Corrections Policy: 301.010 Searches provides governance of searches at the facility. The policy establishes procedures that requires all pat searches be conducted by staff of the same gender accept in exigent circumstances and then with the approval of the OIC. Males will pat search only males and female staff may pat search males with prior approval with the OIC. Gender specific staff will conduct all strip searches with the exception of exigent and documented exigent circumstances and with the approval of the OIC. There have been no strip searches conducted by non-gender specific staff at MCF WFML during the last several years. The facility does not house female inmates.

A tour of the facility included the facility shower and toilet areas. The facility has shower partition off from view of staff. The partition allows for staff to observe the head and feet levels of each inmate while block view of the mid-section.

All staff members are trained on gender specific guidelines. This training includes that all inmates are allowed to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Minnesota Department of Corrections Policy: 301.055 Security Rounds addresses requirement that staff of the opposite gender announce their presence when entering an inmate housing unit. There are posters located in the day room, officers’ stations and other areas throughout the facility that state staff must announce their presence in entering an area of the facility that houses the gender different from the staff member.
Part of the Training for initial and then yearly training also confirmed that staff are trained on the mandate that all staff of the opposite gender must announce their presence when entering a housing unit. Minnesota Department of Corrections has issued a statement that is located in all the officers’ stations and on bulletin boards that includes all areas of requirements for cross gender viewing and searches by facilities. Prior to taking over, the oncoming shift announce a female is working the building and then female staff announces their presence again when they enter the living area.

Verification of the requirements was documented in the training logs, during interviews with staff and inmates and during tours throughout the facility. Minnesota Department of Corrections Policy: 301.010 Searches mandates staff will receive training and will comply with policy and that staff do not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. Interviews with inmates confirmed that they had been pat-searched by officers properly and professionally. Staff training records and staff interviews verified that they had received training which includes who may be searched and the professional manner to complete searches. Interviews with staff/inmates, personal observations and an examination of policy and supporting documentation confirm compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Minnesota Department of Corrections Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response, 203.250 Modifications for Offenders/Residents with Disabilities addresses all requirements of the standard. Through policy and practice, the facility ensures that inmates with all disabilities listed in §115.16 (a) have an equal opportunity to participate in and benefit from all aspects of the agency’s efforts to prevent, detect and respond to sexual abuse and sexual harassment.

Policy 202.040, “Offender Intake Screening and Processing, and Minnesota Department of Corrections policy 202.050 Offender/Resident Orientation address the requirements that all inmates will receive orientation and screening regardless of disabilities. The agency’s training curriculum address implementation of Agency Mandates. All PREA related information, including postings, brochures and handouts are available in English and Spanish languages. Staff also may read information to inmates when necessary. Translation services are available through a contracted language service for inmates who are not English proficient for any language.

Communication services are available for inmates who use sign language. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistants in the performance of first responder duties or during the investigation of an inmate’s allegations. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Three inmates with cognitive limitations and two inmates that were English proficient were interviewed including utilizing mental health staff and language line services to conduct interviews. Interviews with these inmates, staff and an examination of policy and supporting documentation confirmed compliance with this standard.

The agency provided a number of documents that validate policy for all areas of this standard. These include New Hiring Prohibitions, Promotion Prohibitions, New Employee Hiring Policy, Hiring Process Manual, and External Web Employee. Minnesota Department of Corrections Policy: 103.014 Background Checks for Applicants and Current Employees and Policy: 300.045 Contractor Relationship to Department codifies the requirements for this standard. Each of these documents require Pre-employment background checks, a minimum of background checks within five (5) years of initial employment and background checks for all promotions prior to being offered a promotion.

Minnesota Department of Corrections central personnel office completes all background checks. Ten (10) local personnel files were examined by the Auditor to ensure compliance with all aspects of this standard. Two of the staff with many years of experience did not have updated background checks. However, the background checks had been completed and information was forwarded to the facility. Ten additional files with staff with over five years of service were reviewed. All backgrounds had been conducted. All employees who have contact with inmates have had a full field background. Two employees that have been promoted in last twelve months also had documented background checks completed prior to being approved for promotion.

Contractors and volunteers who have regular contact with inmates also have criminal background checks completed prior to having contact with inmates. Volunteer and contractor background checks are repeated yearly. A review of the visitors file provided update background checks. The facility does not hire or promote anyone who may have contact with inmates and does not enlist the services of any contractor who may have contact with inmates who has engaged in any type of sexual abuse or sexual
harassment (no exceptions). Employees have a duty to disclose such misconduct and material omissions regarding such misconduct may be grounds for termination.

Submission of false information by any applicant is grounds for not hiring the applicant. The Human Resource Manager was interviewed and confirmed that the agency attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. The Human Resource Manager also confirmed the agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee, upon receiving a request from an institutional employer for whom such employee has applied to work. Policy provides that the facility notifies appropriate licensing/certifying agencies when professional staff members are terminated for substantiated allegations of sexual abuse or sexual harassment. A review of personnel and volunteer files and relevant supporting documentation, including interview with personnel manager and volunteer coordinator confirm compliance with this standard.

MDC Policy 107.007 Criminal Investigation states that the Office of Special Investigations (OSI) investigates allegations of felony level criminal activity by offenders and assists law enforcement agencies with conducting criminal investigations involving employees, volunteers, contractors, and visitors within the department. Completed investigations are forwarded to the appropriate assistant or deputy commissioner for referral to the appropriate county attorney’s office for criminal prosecution. Any investigative data revealing criminal activity outside of the department is referred to the appropriate law enforcement agency. DOC has a Memorandum of Agreement with Moose Lake Police department to conduct law enforcement investigations. This was confirmed in an interview with the assigned facility investigator. Criminal Investigation policy mandates that persons conducting investigations must be aware of PREA standards and follow appropriate Sex Abuse investigations protocol.

Policy 500.100 Offender co pay for health services clearly states that no co-payment is required for health services provided subsequent to allegations of sexual assault, abuse, or harassment. No forensic exams were conducted during the prior 12 months.

MCF-MR/ML has memoranda of understanding (MOUs) with community service providers to provide inmates with confidential emotional support services related to sexual abuse but was not successful. The agency’s director of victim services, Lydia Newlin, M.A., provides victim assistance and advocacy for victims of sexual assault. Ms. Newlin has extensive experience and training in victim advocacy. Her contact information is posted in all housing units. Most of the offenders interviewed confirmed they knew how to contact her, while several others showed no interest in that resource.
Minnesota Department of Corrections Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response Inmate Sexual Abuse and Sexual Harassment establishes the requirements for first responders, investigators and medical staff to secure the crime scene including the areas of the offense, the victim, and alleged abuser for the preservation of usable evidence. The Policy mandates that persons responsible for investigating allegations of sexual abuse follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecution.

Investigators are trained and follow appropriate curriculum for a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecution. Minnesota Department Correction investigations utilizes Department of Justice “National Protocol for Sexual Assault Medical Forensic Examination, Adults / Adolescents for all investigations.

The facility has developed and trained staff on a Coordinated Response Plan. The facility also has trained all PREA Support Person roles and responsibilities to assist in coordinated responses of sexual abuse. The facility uses the services at Mercy Medical Hospital that always maintains a Sexual Assault Nurse Examiner on call.

Compliance was confirmed by review of policies, documents including investigative files, interviews with investigator, PREA compliance manager, PREA Coordinator, Mercy Hospital staff, and review of an interview with Victim advocate.

The agency has ten (10) investigators that have completed investigator training offered by Minnesota Department of Corrections. One of these investigators is assigned to MCFWRMC. The facility investigators also provide any information requested by the Police Department investigators.

Minnesota Department of Corrections Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response requires a preliminary investigation when any allegation may meet the level of a PREA violation and an investigation for all PREA allegations. MDC Policy 107.007 Criminal Investigation mandate when information is received from a non-DOC agency the Office of Special Investigations will notify the non-DOC agency within 72 hours of learning of any Sexual abuse or harassment allegations. When the information is learned from other agencies or third party reporting the Office of Special
Investigations will begin an investigation within 24 hours. The information will be entered into PREA database relying on the information that is provided and through the Office of Special Investigations. Compliance was determined through review of https://mn.gov/doc website and interview with Sexual Abuse investigator assigned to MCF WRMC.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Then Minnesota Department of Corrections Policy 202.057 states that offenders, staff, contractors, volunteers, and others deemed necessary by administration must receive training on sexual abuse/harassment/staff sexual misconduct prevention, detection, and the DOC’s response plan. New employee’s policy 103.420 Pre-Service and Orientation Training requires new staff to receive forty (40) hours of training. This training curriculum includes all elements of PREA training noted above. Related education is provided annually during refresher training. The review of lesson plans, training logs and PREA power point presentations confirmed that the provided training also addresses all elements identified in the standard.

Employees have PREA information noted on posters available to them and located throughout the facility. They are provided a PREA Brochure developed by the PREA office and all carry a PREA reference card. Staff annual training files were reviewed and contained documentation supporting compliance with this standard. All staff interviewed indicated they received the required PREA training initially and annually.

The agency maintains a Learning Management System for employees and it maintains all staff records. In order to show completion of the training, staff must first receive the training and pass a test. Staff members are required to use their personal information to enter the course and indicate they have received and meet the minimum test requirements. The extensive training provided and staff knowledge of PREA requirements confirmed that the facility is compliant with this standard. All staff members interviewed were aware of all aspects of the training and each interviewed indicated they had received training in the previous year. Compliance was confirmed by reviewing policies, fifteen (15) training records and interviews with facility staff.

The facility has a person assigned to provide the management of volunteers. Volunteers are managed in accordance with agency policy 300.040 Volunteer Services Program. Part of this policy and new volunteer program orientation includes training on PREA. All volunteers participate in yearly PREA training and document this information on their Volunteer files.

The medical administrator and contracting officer for medical services coordinate for all medical contractor staff. Policy 300.045 Contractor Relationship to Department requires contracting staff must attend facility orientation and training for ten-day at the training academy at central office, prior to working independently in any assignment involving direct and on-going contact with offenders/residents.

Two medical staff were interviewed. Each received PREA training and undergoes a yearly background check prior to being allowed into the facility or supervises inmates. One volunteer was interviewed. He had received Volunteer training and could explain zero tolerance and reporting duties.

A review of the PREA training rosters signed by contract staff, a review of the volunteer and training files confirmed all information required to document training. All background checks are maintained in the administrative offices and were reviewed and found up to date. All volunteer or contract staff receives
copies of a PREA updates. These updates were noted in the file and were verified through an interview with volunteer coordinator and medical administrator.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
Policy 202.050 Offender/Resident Orientation require that newly committed offenders receive orientation regarding sexual abuse/harassment and reporting. Prior to being assigned to this facility each inmate goes through a diagnostic program or processing center. Offenders receive written and verbal information in a language easily understood by the offender, regarding:

a) The DOC zero-tolerance policy on sexual abuse/harassment;

b) How to avoid sexual contact in prison;

c) The risks and potential consequences of engaging in any type of sexual activity while incarcerated, which may include criminal sanctions and/or offender discipline;

d) How to identify and report an incident of sexual abuse/harassment or staff sexual misconduct;

e) What defines a false accusation and the consequences for making a false accusation; and

f) How to obtain counseling services and/or medical assistance if victimized.

During in-processing procedures at MCFWRML, a staff member conducts an education program regarding the PREA and each inmate is provided a pamphlet describing the agency’s PREA compliance program. The information identifies the key elements of the program and informs them of the zero-tolerance policy regarding sexual abuse and sexual harassment and multiple ways to report sexual abuse or sexual harassment. The information also informs the inmates they will be free from retaliation for reporting an incident and that both male and female staff members routinely work in and monitor the housing units. The information is available in English and Spanish languages.

Telephonic translation services are available to inmates who are not proficient in English or are otherwise unable to communicate (deaf, blind, mentally impaired etc.).

Inmate interviews confirmed that they received PREA information and they were aware of numerous reporting methods to include anonymous and third-party reporting, the zero-tolerance policy and their right to be free from retaliation. The tour of the Facility confirmed that several PREA education posters were prominently displayed in all housing units, the visiting rooms and common/program areas. Each time an Inmate receives training it is documented in his computerized institutional record, which includes an Education Program Search Screen. Two inmates that were English proficient were interviewed and verified they received the training in their preferred language. Interviews with staff and inmates; visual observations of posters/notices; examination of policy and other documentation; review of institutional files; and observation of intake procedures confirmed the facility is in compliance with this standard. The facility provided inmate orientation prior to coming to the facility, during the first several hours at the facility and then in a formal education program during the first 30 days at the facility. Inmate interviewed also said they are provided additional training during case manager meetings and almost daily by staff. Mental Health staff and case managers confirmed there is an emphasis on PREA compliance.

Auditor Overall Compliance Determination

☒ Exceeds Standard *(Substantially exceeds requirement of standards)*

☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Minnesota Department of Corrections Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response addresses all components of this standard for screening new and transferring inmates. Policy 202.040 Offender Intake Screening and Processing provides all requirements mandated in Minnesota Department of Corrections Policy 202.057. Policy requires health services staff must screen offenders for potential vulnerability to sexual assault and/or tendencies to act out with sexually aggressive behavior using the MN DOC PREA screening. a) Staff reviews daily COMS Classic for PREA subscriptions and follows up. b) The facility associate warden of operations (AWO) and facility sexual abuse response team (SART) use the Screening Tool Follow-up Matrix as a guide to identify the appropriate follow-up response and case-by-case decision making. c) PREA screenings must be completed in the Corrections Operation Management System (COMS) Obligation. All follow-up responses are documented in COMS Obligation. d) Offenders must not be disciplined for refusing to answer, or for not disclosing complete information, when screened by health services staff completing the MN DOC PREA Screening.

Policy 203.010 Case Management Process require case managers to review screening within first 30 days of arrival at facility. All diagnostic records are confidential and only available on a need to know basis. A review of the screening instrument contains all requirements identified in the standard. The system is pass word protected for need to know staff. When transferred to another facility, the inmate receives a screening review by the medical staff within the first 72 hours of the inmate’s arrival, but this activity ordinarily occurs within a few hours on the first day of arrival to the facility. This system is computerized on the statewide Minnesota DOC Prison Obligation Dashboard which automatically sends a message to the respective specialized staff whenever a positive response is given. This notification provides a time-frame for the specialized staff to take action, and changes to a red icon, if the response is not timely made, allowing management to immediately take action to ensure the offender receives proper and appropriate services. The review of screening documents by the Auditor confirmed that inmates identified as high risk for sexual victimization or at risk of sexually abusing other inmates were referred to a mental health professional and all received further assessment (10 intake files were examined by the Auditor). Staff also reviews records or other information and information from other facilities.

The staff psychologist reviews and conducts additional screening on inmates. In interviews with the Director Behavioral Health described five (5) ways that screening for victimization or abuse behavior are reviewed. An informal network with psychologist provides for a conversation with sending facility about new intakes; staff conducting initial intake will notify staff if size, age, or personality traits raise concerns during initial intake, all new arrivals are seen by a nurse within first two to four hours of arriving at the center and an initial interview can led to referral; all inmates are given a screening instruments; and case managers conduct further screening within 30 days of arriving at the facility. The facility screening instrument provides that the facility will reassess the intake screening within 30 days of the inmate arriving at the center. The inmate tracking system contains all information in computerized inmate files.
Information received during the screening process is confidential and only available to staff with a need to know and never to other inmates. Staff and inmate interviews, a review of policy/documentation (including screening documents and inmate tracking system) and observations of the intake process confirmed compliance with this standard.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)
☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Minnesota Department of Corrections Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response, and 202.040 Offender Intake Screening and Processing requires risk screening information is used to determine housing, bed, work, education, and program assignments, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. Staff members assigned to conduct intake screening have been provided additional training and resource materials. Policy 202.045 addresses the evaluation and placement of transgender and intersex offenders. In deciding whether to assign a transgender or intersex offender to a facility for male or female offenders, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the offender’s health and safety, and whether the placement would present management or security problems. The DOC does not place lesbian, bisexual, transgender, and gender variant, or intersex offenders in dedicated facilities, units, or wings solely based on such identification or status. The DOC evaluates and places offenders who claim to be undergoing transgender or transsexual-related treatment, offenders who appear to be gender-variant, or offenders having other clinical conditions in which the gender assignment is unclear in a similar manner. The offender’s own views regarding his or her own safety are considered in placements and job assignments. The agency working with Office of Health and Mental Health Services and through a multi-disciplinary review panel decides whether to assign a transgender or intersex inmate to a facility for male or female inmates. Policy mandates placement and programming assignments for each transgender or intersex inmate are reassessed at least once every six months.

The facility shower areas are modified to establish privacy from staff of the other gender. Inmates are also allowed to dress and complete bodily functions without being in view of person of the other gender.

Overall compliance of the standard was verified through review of policies, interviews with PREA Compliance Manager, Case Managers, Warden, and psychologist, other correctional staff, inmates and tour of the facility.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Minnesota Department of Corrections Policy 202.057 mandates inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. Minnesota Department of Corrections Policy 301.85 Administrative Segregation requires that the use of administrative segregation reviews of placement on administrative segregation: each facility must develop an instruction for the administrative and behavioral health review of offenders on administrative segregation status. Facility instructions must meet the following minimum standards: 1. Staff must notify mental health personnel whenever an offender is placed on administrative segregation status due to medical/mental health issues; 2. The initial administrative review must occur within 24 hours of placement; 3. An administrative review occurs every seven days for the first 60 days after the initial administrative review; 4. An administrative review occurs every 30 days after 60 days placement on administrative segregation; 5. A behavioral health review must be conducted upon completion of 30 days on administrative segregation and conducted thereafter every 90 days; and 6. Behavioral health reviews must be recorded in the offender’s behavioral health record and retained accordingly. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.
Inmates placed in segregated housing for high risk of sexual victimization shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: the opportunities that have been limited, the duration of the limitation; and the reasons for such limitations.

The facility has not placed an inmate in segregation in response to an allegation of sexual abuse or sexual harassment.

Compliance was determined by review of the agency policy, interviews with PREA compliance manager, review of investigative files and interviews inmate housed in the segregation unit and with staff assigned to supervise the segregation unit.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 202.057 affords offenders multiple ways to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for making a report, and staff neglect or violation of responsibilities that may have contributed to such incidents. Policy 302.020 Mail mandates correspondence to or from those state and federal officials designated by the department mail committee. The destination or return address must clearly indicate it is to or from one of these sources in order to be treated as special mail. Special mail does not need to be logged as legal mail and is opened only in offender’s presence Staff interviews reflected a similar understanding of the means allowed, including an understanding that offenders can make reports verbally, as well as in writing, and all staff indicated that their first responsibility was to protect offenders who make such reports.

Inmates are provided training on reporting during their initial PREA orientation and are provided a form documenting they are aware of ways to report. All staff interviewed clearly understood that they can
privately report sexual abuse and sexual harassment of offenders without fear of agency disciplinary action.

Inmates have unimpeded access to telephones and can call the Minnesota PREA Hotline or any law enforcement agency of their choosing. They can also report to a third party, who can make the report for them.

The facility does not hold individuals for civil immigration purposes. Sexual abuse and sexual harassment can be reported in writing, anonymously, privately, and from a third party. Staff documents all allegations. Staff members are trained to immediately report and document any sexual abuse or sexual harassment allegation. There are posters and other documents on display throughout the facility that also explain reporting methods. The facility provides a posting explaining at least one way for inmates to report sexual abuse or sexual harassment to an entity that is not part of the agency.

Minnesota has attempted to develop a Memorandum of Understanding (MOU) with Victims Advocate. In order to establish a victim advocate program Minnesota Department of Corrections has employed staff to coordinate with victim advocate services and provide victim support when needed. There are phone numbers posted on all PREA posting areas and next to telephones for inmates to contact PREA Hotline and a Victim Advocate services. Minnesota provides staff with a brochure that provides multiple ways for staff to report allegations of sexual abuse or sexual harassment. Interviews with staff and inmates; observations of posters addressing reporting methods; and an examination of policies, documentation, and the MOU confirm compliance with this standard.

Minnesota Department of Corrections policy 107.007 Criminal Investigations requires if the investigation is of an alleged sexual assault, the special investigator must offer the victim the right to have a victim advocate present during any stage of the investigation. The PREA coordinator provided a memo detailing attempts to secure the services of rape crisis centers. The agency has established a victim advocacy office to provide victim services including private reporting. This information is on Posters located next to telephones and on bulletin boards throughout the facility. The advocacy office will reach out to community based rape crisis centers or provide sexual assault advocacy services when requested. The advocacy staff or trained in conducting advocacy services and would accompany inmates during forensic testing if requested. The service provider has provided two referral forms that provide information to inmates on victim services and reporting requirements. Inmates interviewed were aware of the program and how to get in contact with advocacy programs by confidential phone calls. Compliance was confirmed by review of department personnel action establishing position including a job description and minimum qualifications of staff assigned to these duties and review of interviews with staff providing this service.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response mandates that all staff, contractors, and volunteers are required to immediately report any information regarding sexual abuse or sexual harassment or any staff neglect, action or violation that may contribute to an incident or an act of retaliation. The reporting is ordinarily made to the OIC but could also be made privately or to a third-party.
Policy requires the information concerning the identity of the alleged inmate victim and the specific facts of the case to be shared with staff who need-to-know because of their involvement with the victim’s welfare and/or the investigation of the incident. Medical and Mental Health staff were aware of their responsibilities to report allegation of sexual abuse or sexual harassment. Interviews with staff, and volunteers confirmed they were aware of their reporting duties. The facility has a check list for staff and supervisors to utilize to be certain that all information is private when an allegation of abuse or harassment is received by an inmate. Additional compliance with all aspects of the standard was verified through document and policy review. Most inmates that were interviewed indicated they felt comfortable reporting information to the shift supervisor. The facility does not house inmates under the age of 18.

Policies 202.057 clearly state that if the DOC learns that an offender is subject to a substantial risk of imminent sexual abuse, it must take immediate action to protect the offender. This understanding was strongly stated and supported by all staff who were interviewed. Most stated that the protection of offenders was their highest priority. Most of the offenders interviewed that they had a great deal of trust in the staff to keep them safe. Staff interviewed stated their duties and responsibilities if they were aware of an inmate being subject to substantial risk. Staff stated they would act immediately to protect the inmate, including separating the inmates and alerting other staff of the situation. Additionally, staff provided steps they would take if they thought an inmate had been sexually abused such as separate inmates, secure the scene, protect possible evidence, not allow inmates to destroy possible evidence and contact their supervisor and medical staff.
In the previous 12 months there were three (3) reported incidents of an inmate being subject to substantial risk of imminent sexual abuse. On each occasion the predator was moved to another living area. Compliance with this standard was verified through review of Policy, and interview with staff and PREA Compliance Manager. There has been no inmate found to be at a substantial risk within the last 12 months.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility operates under the MFC WRML policy 202.057, “Sexual Abuse/Harassment Prevention, Reporting, and Response.” The Policy outlines duties, procedures and actions for first responders to an allegation of sexual abuse. The agency has developed a checklist to be utilized by staff to document first responder’s duties. The PREA training lesson plan outlines the duties and responsibilities for first responders and medical staff in the event an inmate is sexually abused. Inmates may report acts of sexual assault abuse, or harassment to any employee, contract employee, or volunteer.

Upon learning of an allegation that an inmate was sexually abused, if the responder is a correctional officer or other staff (1) Separate the alleged perpetrator and victim so that neither one can hear or see the other. (2) Remain with the victim to provide safety and support, and to ensure that the victim does not wash, shower, change clothes, or otherwise compromise physical evidence on his/her body prior to examination. (3) With the exception of health services staff and the watch commander, the staff receiving the report must initiate the First Responder Sexual Abuse Response Checklist. (4) Inform the watch commander/designee of the alleged sexual abuse. (5) Secure the crime scene. Take photographs as needed. (6) Complete a confidential incident report. (7) Forward the First Responder Sexual Abuse Response Checklist and confidential incident report to the watch commander.

During the last 12 months there have been three (3) allegations of sexual abuse reported to correctional staff. Only one (1) report was made within a time frame for the staff to respond as first responders. In this case staff completed all requirements of this standard. Compliance was verified through review of policy, training plan, investigative files, first responder checklist and interviews with correctional (including first responder) and non-correctional staff.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Minnesota Department of Corrections Policy 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response addresses the requirements of this standard. The policy specifically prohibits any type of retaliation to any inmate or staff member who has reported sexual abuse, sexual harassment or has cooperated with such investigations. Minnesota Department of Corrections has developed a computerized tracking system to provide documentation of staff being assigned to monitor for retaliation. The Shift Supervisor interviews all inmates involved in sexual abuse, harassment or reporting to determine their safety and provides documentation of interview. The facility has designated PREA Retaliation monitor that monitors the conduct or treatment of inmates who have reported sexual abuse to ensure any type of retaliation does not occur.

When interviewed, the Retaliation monitor stated they would document and follow up on all potential cases to ensure policy is being enforced. They will conduct periodic status checks on the frequency of incident reports, housing reassignments, program changes, any negative consequences for reporting abuse and negative performance reviews/staff job reassignments (all steps required of 115.67c). If there was a concern that there was the potential for possible retaliation, the PSP stated they would monitor the
situation indefinitely. The monitoring of any type of retaliation will be done for at least 90 days or as long as needed to make sure the inmate is safe from retaliation or the inmate is transferred.

Policy outlines the protection measures available and requires the prompt remediation of any type of retaliation. Minnesota Department of Corrections has developed a designated form to be used when retaliation is being monitored. This document maintains all the requirements established in the standard for agency protection against retaliation. A review of the PSP files and interview with the inmate and PSP confirmed substantiated compliance with this standard.

Policy 202.057, “Sexual Abuse/Harassment Prevention, Reporting, and Response and Minnesota Department of Corrections 107.005 Office of Special Investigations mandates that all PREA incidents are promptly, thoroughly and objectively investigated. The Office of Special Investigations (OSI) investigates allegations of felony level criminal activity by offenders and assists law enforcement agencies with conducting criminal investigations involving employees, volunteers, contractors, and visitors within the department. When the facility conducts investigations, the agency uses investigators who have received specialized training in conducting sexual abuse investigations in a confinement setting.

Administrative investigations address staff actions, credibility and a review of fact and findings of the criminal investigation (if applicable). All interviews are conducted as approved by the Office of Special Investigations and Compliance. Both criminal and administrative investigations are well documented and maintained in the files. Files reviewed included a copy of the law enforcement report, if they conducted a criminal investigation, statements of victim, alleged abuser (if identified) and witnesses, and statements by the PSP and Investigator as to the steps they took during the investigation.

Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data. Investigators interview alleged victims, suspected perpetrators, and any other possible witnesses. Investigators review prior reports and complaints of sexual abuse involving the suspected perpetrator. The agency only conducts compelled interviews after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

Substantiated allegations of conduct that appear to be criminal are referred for prosecution. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person’s status as inmate or staff. The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation.
All administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. Administrative investigations are documented in written reports that include a description of the physical evidence and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal investigations are documented in a written report that contains a thorough description of the physical, testimonial, and documentary evidence. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual assault or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

The agency does ensure that the departure of an alleged abuser or victim from the employment or control of the agency does not provide a basis for terminating an investigation. When an outside entity investigates sexual abuse, the facility cooperates with outside investigators and endeavors to remain informed about the progress of the investigation. Utilizing the working paper documents for conducting reviews of investigative files, three (3) files of inmates alleging sexual abuse or sexual harassment were reviewed. The findings were that cases were managed appropriately, completed promptly, thoroughly and in compliance with policy. Compliance with this standard was determined by a review of policy/documentation, investigations and interviews with investigator. The facility identified one (1) case that rose to the level of criminal action that was transferred to Moose Creek Police Department for prosecution.

Minnesota Department of Corrections 202.057 Sexual Abuse/Harassment Prevention, Reporting, and Response address offender disciplinary. Minnesota Department of Corrections published an Inmate Disciplinary Procedures that address the standard for compliance with PREA disciplinary sanctions for offenders. Information on inmate disciplinary sanctions is provided as part of the orientation process upon entry into the facility. Disciplinary handbook states that No offender shall request, solicit, or engage in consensual sexual behavior or consensual sexual contact, or be in a situation that gives evidence of such action. Sexual behavior includes, but is not limited to, kissing, embracing, hand holding, touching the intimate parts of another person, exposing one’s intimate parts to another, and inappropriate masturbation. “Intimate part” means breast, penis, anus, buttocks, scrotum, or vaginal area, whether clothed or unclothed. No offender shall have nonconsensual sexual contact with another offender. This rule prohibits sexual contact if the victim does not consent, is coerced into such act by overt or implied threatening behavior, or is unable to consent or refuse. Inmates may be disciplined for sexual contact with staff only upon a finding that the staff member did not consent to such contact. The facility does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. Interviews with investigators, psychologist and review of policy confirmed compliance with this standard.

Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 202.057 states that if through the screening process or a subsequent disclosure, staff learns information that indicates that an offender has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff must ensure that the offender is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. Once OSI is contacted, OSI meets with the victim within 72 hours and explains the investigation options.

The policy also states that any information related to prior sexual victimization or abuse that occurred in an institutional setting must be limited to medical and mental health practitioners, OSI, and other staff, as necessary, to inform treatment plans, security, and management decisions, including such examples as housing, bed, work, education, and program assignments. The evaluation and treatment of a victim of prior sexual abuse/harassment or sexual misconduct includes follow-up services, a treatment plan, and referral for continued care following transfer to/placement in another facility. Referrals may also be provided when the offender is released from custody. When appropriate, staff refers the offender to appropriate community services such as a crisis center, support groups, mental health treatment, victim advocate services, and area law enforcement.

Minnesota Department of Corrections Behavioral Health Services has developed computerized screening, rescreening and an informed consent which requires inmate signing that they are aware of informed consent, unless the offender is under the age of 18.

Interviews with Mental Health and Medical administrator provided a seamless system for the treatment of inmates with history of victimization. Both medical and mental health information is shared from the time inmates enter the Minnesota Department of Corrections, during screening upon arrival at WF/WC, after any referral from staff or OSI. The Mental Health staff provide follow-up meeting and develop a treatment plan as needed.

Compliance was confirmed through review of Mental Health referral documents, interviews with mental health and medical staff and facility staff.
