RULE COMPLIANCE DETAILS

Chapter 2960 - Mandatory Rules In Compliance With Concerns**Total: 1**

1. 2960.0080 FACILITY OPERATIONAL SERVICES, POLICIES, AND PRACTICES. Subpart 11.D.5.b.. Health and hygiene services.

The license holder must meet the conditions in items A to F. D. The license holder, in consultation with a medically licensed person, must have a plan for the safe storage and delivery of medicine. The license holder must meet the requirements in subitems (1) to (5). A medically licensed person must provide consultation and review of the license holder's administration of medications at least monthly.

Inspection Findings:

The facility contracts with an agency to review medication administration monthly. Over the past year there have been occasions in which the service has completed two months together, outside of the 30 day requirement of this rule part. Additionally the process by which they review and report medication errors is cumbersome and does not appear to be tracked well enough to ensure quality control.

Corrective Actions:

The facility will be required to review the process with their contract agency to ensure quality control and adherence to this rule part.
