- 2911.0300 INTENDED USE AND NONCONFORMANCE WITH RULES Subpart 2. Nonconformance, unsafe, unsanitary, or illegal conditions.

When conditions do not substantially conform or where specific conditions endanger the health, welfare, or safety of inmates or staff, the facility's use is restricted pursuant to Minnesota Statutes, section 241.021, subdivision 1, or legal proceedings to condemn the facility will be initiated pursuant to Minnesota Statutes, section 641.26 or 642.10.

Inspection Findings:

Lack of good sight lines, poor lighting, aged infrastructure, lack of proper storage space, lack of recreation space, lack of program space, no intercom system, no laundry, no kitchen, an undersized booking room, security garage and visitation area as well as a need for additional cameras have made this facility labor intensive to operate and is clearly not meeting the needs of Winona County.

Corrective Actions:

A long-term plan shall be submitted to the Department of Corrections addressing the deficiencies noted in this report.

Response Needed By: 11/01/2019

2. 2911.1350 MEDICAL TRAINING FOR CUSTODY STAFF.

Recertification training shall occur as required with respect to first aid and CPR. The training shall be documented; D. methods of obtaining assistance; E. recognition of signs and symptoms of mental illness, developmental disabilities, emotional disturbance, and chemical dependency; and F. procedures for inmate transfers to appropriate medical facilities or other health care providers.

Inspection Findings:

There was no documentation of current CPR training.

Corrective Actions:

Ensure that all staff are current with CPR as soon as possible. This is a vital part of the training program requirements.

Response Needed By: 07/01/2019

3. 2911.2100 STORAGE AND PRESERVATION OF RECORDS.

Space shall be provided for the safe storage of records.

Inspection Findings:

There is no secure storage for records in the facility.

Corrective Actions:

A long-term plan will need to be developed to address the lack of secure storage for records.

Response Needed By: 11/01/2019

4. 2911.2500 SEPARATION OF INMATES. Subpart 1. General.

A combination of separate housing units inclusive of special management areas, general population, and minimum security areas and cells, dormitories, and dayroom spaces shall be provided to properly segregate inmates pursuant to Minnesota Statutes, section 641.14. The facility shall provide for the separate housing of the following categories of inmates: A. female and male inmates; B. community custody inmates such as work release or sentencing to service; C. inmates requiring disciplinary segregation; D. inmates requiring administrative segregation; E. juveniles who do not meet Minnesota statutory requirements for placement with adults; F. special management, general population, and minimum security inmates as considered appropriate to the facilities design intent and classification system; and G. inmates classified as mentally ill or special needs inmates in a manner consistent with Minnesota Statutes, section 253B.05.

Inspection Findings:

Due to the design of the facility there are no specified areas for inmates with special needs.

Corrective Actions:

The design and layout of the facility is not sufficient in order to classify and provide safe and secure housing for those inmates with special needs. This creates a safety concern for both staff and inmates. Due to the increase in this population it is imperative that the facility provide safe and secure housing for inmates with special needs. Provide a written plan to the Department of Corrections detailing how you will provide appropriate housing for this population by 11/1/2019

Response Needed By: 11/01/2019

5. 2911.2525 ADMISSIONS. Subpart 2. Privacy.

Intake procedures dealing with information protected by the Minnesota Government Data Practices Act, Minnesota Statutes, chapter 13, shall be conducted in a manner and location that assures the personal privacy of the inmate and the confidentiality of the transaction from unauthorized personnel.

Inspection Findings:

The facility is unable to protect the privacy of the inmates and the confidentiality of information given due to the layout of the intake area.

Corrective Actions:

Submit a long-term plan to the Department of Corrections addressing the current deficiencies in the intake area.

Response Needed By: 11/01/2019

Inspection Findings:

There is not a place for secure storage for an inmates property. All property is stored in an unsecured area.

Corrective Actions:

Inmate property shall be stored in a secured area, but due to the lack of space in the intake area this will need to be addressed as part of the long-term plan for Winona County.

Response Needed By: 11/01/2019

7. 2911.2600 CLASSIFICATION OF INMATES. Subpart 1. Policy and procedure.

Inspection Findings:

Due to the style of the jail the facility and lack of space the jail is unable to classify and separate inmates as required. Inmates with special needs are not able to be housed appropriately and those that classify as maximum are being housed out of the facility.

Corrective Actions:

A long-term plan is needed to address the classification deficiencies at the jail due to lack of space and design of the facility. Submit plan to the Department of Correction by 11/1/2019.

Response Needed By: 11/01/2019

Inspection Findings:

Delivery inspections are completed whenever items are delivered to the jail however everything is then left and stored in the garage where contraband can be introduced into the facility at anytime as there is traffic through this area 24/7.

Corrective Actions:

There is no corrective action to complete at this time as it would take a major remodel to correct this deficiency however submit a plan to the Department of Corrections that outlines how the jail will maintain the integrity of searches in this area which may include limited access of others into this area. Inmates shall not be permitted access to medication storage. Only health-trained staff or health care personnel shall have access to keys for the medication storage area.

Inspection Findings:

Due to the layout of the medical unit and lack of space in the facility, the medical area is not secure. The exam table, medication storage, record storage and staff work stations are all one area. This creates an unsafe environment for both staff and inmates.

Corrective Actions:

The medication area will need to be addressed in the long-term plan for the facility.

Inspection Findings:

There is no designated area for this population of inmates.

Corrective Actions:

Because of the design of building there are limited options for separate and secure housing for those inmates with special needs. Until such time as a plan is in place for addressing this population inside the facility, inmates on any type of segregation status must be boarded out of county.

Response Needed By:

Chapter 2911 - Mandatory Rules In Compliance With Concerns

Total: 2

1. 2911.0900 STAFFING REQUIREMENTS. Subpart 1. Staffing plan and staffing analysis.

The facility administrator shall prepare and retain a staffing plan. The staffing plan shall identify: A. jail personnel assignments for: (1) facility administration and supervisors; (2) facility programs including exercise and recreation; (3) inmate admission, booking, supervision, and custody; (4) support services including medical, food services, maintenance, and clerical; and (5) other jail-relevant functions such as escort and transportation of inmates; B. the days of the week that the assignments are filled; C. the hours of the day that the assignments are covered; and D. any deviations from the plan with respect to weekends, holidays, or other atypical situations must be considered. The facility administrator or designee shall review the facility's staffing plan at least once each year. The review shall be documented in written form sufficient to indicate that staffing plans have been reviewed and revised as appropriate to the facility's needs or referred to the facility' governing body for funding consideration. A facility with a design capacity of more than 60 beds must have a staffing analysis and staffing plan approved by the commissioner of corrections. This staffing analysis shall include all posts, functions, net annual work hours appropriate to each post, and total number of employees to fill the identified posts and functions.

Inspection Findings:

The jail has assigned a Sergeant to handle both trainings and programs and is also acting in the role as the Assistant Jail Administrator. This Sergeant is also covering shifts when the facility is short staffed.

Corrective Actions:

The jail will need to readdress this position as it is not feasible given the population of the jail for one staff member to fill all of those roles. A plan must be submitted to the Department of Corrections by 11/1/19.

Response Needed By:**2. 2911.1900 POLICY AND PROCEDURE MANUALS.**

A facility shall have a written policy and procedure manual that is electronically available to staff and relevant regulatory authorities and defines the philosophy and method for operating and maintaining the facility. This manual shall be made available to all employees, reviewed annually, updated as needed, and staff trained accordingly. The manual shall include, at a minimum, the following chapters: A. correctional standards required under this chapter; B. administration and organization; C. fiscal management; D. personnel; E. training; F. inmate records; G. safety and emergency; H. security and control; I. sanitation and hygiene; J. food service; K. medical and health care services; L. inmate rules and discipline; M. communication, mail, and visiting; N. admissions, orientation, classification, property control, and release; O. inmate activities, programs, and services; and P. a written suicide prevention and intervention plan. The facility administrator or designee shall review policy and procedure manuals at least once each year. The review shall be documented in written form sufficient to indicate that policies and procedures have been reviewed and amended as appropriate to facility changes.

Inspection Findings:

The policy and procedure manual is in need of additional updating to be in compliance with the revised Chapter 2911 rules and facility practice. In addition, medical policies do not reflect current practice through Advanced Correctional Health Care.

Corrective Actions:

Finish updating policy manual and submit to facility inspector for review. This was noted in the last inspection. Submit to the Department of Corrections by 1/1/2020

Response Needed By:**Chapter 2911 - Essential Rules In Compliance With Concerns****Total: 2****1. 2911.0900 STAFFING REQUIREMENTS. Subpart 7. Assistant jail administrator.**

Where the custodial responsibility of inmates exceeds 60, an assistant jail administrator shall be required. Assistant jail administrators shall not be classified as custody personnel whose primary duties are supervision of inmates.

Inspection Findings:

The county has a assistant jail administrator however this individual is also working as training and compliance and doing programs. This individual is also filling in on the floor as needed when short staffed.

Corrective Actions:

In the future the jail will need to readdress this position as it is not feasible for one staff member to fill all of these roles. The County will need to address this as part of it's long-term staffing plan.

Response Needed By:

2. 2911.3100 INMATE ACTIVITIES AND PROGRAMS. Subpart 4. Education.

A facility shall have a written policy and procedure that provides for inmate access to educational programs, vocational counseling, and when available, vocational training. When possible, a facility shall arrange to have these educational programs delivered in classroom specifically designed and equipped for educational or vocational programming. Class I facilities are exempt from this requirement with the exception of those approved by the commissioner to house inmates serving alternative sentences. Text books necessary to complete a course of study, to the extent that local resources permit, shall be made available to inmates. The facility shall not be responsible for the purchase of text books to complete a course of study.

Inspection Findings:

There are currently no educational programs offered in the facility with the change in the GED requirements.

Corrective Actions:

It is recommended that the facility research alternative educational programs utilizing resources from the community.

Response Needed By:**INSPECTION COMMENTS**

Due to the age of the facility many of the reoccurring Chapter 2911 deficiencies are directly related to the physical plant conditions and limitations. These have been noted in previous inspections.

Additionally, there are several operational concerns as well which have been outlined in this report. Plans to address these concerns shall be submitted to the Department of Corrections by the due dates required.

The Winona County Jail will no longer have the authority to house any inmates that are classified as needing separation, including special management and special needs inmates.

A letter with a Sunset date of September 30, 2021 was submitted to Winona County on September 7, 2018. Although the Department of Corrections understands the County is in the middle of discussions to determine the future of the jail, the county must operate a constitutionally sound facility.

The Winona County Jail will remain on annual inspections.

JJDPA Compliance

On May 8, 2019, a Juvenile Justice and Delinquency Prevention Act audit was conducted. The Winona County Jail has received a "Rural Exception" to the Juvenile Justice and Delinquency Prevention Act (JJDP). This allows the facility to hold a delinquent juvenile up to 24 hours, excluding weekends and holiday. There are three core requirements that are looked at during our facility review. Those core requirements are Deinstitutionalization of Status Offenders (DSO), Removal of Juveniles for Adult Jail and Adult Lockups (Jail Removal), and Sight and Sound separation.

According to facility records, the Winona County Jail held or processed one juvenile from the fiscal time allowed for review. I reviewed 100 percent of the available data. The findings are as follows:

DSO: I did not find any violations.

Jail Removal: Files and Statewide Supervision System data indicate that any juveniles brought into the jail are removed well within the 24 hour time frame allowed per the "Rural Exception."

Sight and Sound Separation: The facility design and policies does not always allow for proper sight and sound separation. During peak times when all holding cells are full, the interview room is the only other option. This room is used frequently so its availability is sometimes in question. The route taken to Court holding is time phased so as not to mix adults and juveniles. Policies and the court schedule also indicate proper sight and sound separation are maintained.

The facility does not participate in any "Scared Straight" programs for any youth that are under public authority.

Based on the documentation that I reviewed, I found no violations of the JJDP act during the Winona County jail inspection. However, there is a concern with sight and sound separation due to the physical layout of the facility and how busy different areas can be during peak times.

Due to the physical plant concerns, and the inability to properly sight and sound separate juveniles from adults, the authorization for the facility to hold juveniles within the Winona County jail is being removed. Upon receipt of this report, the Winona County Jail will have no approval to hold juveniles for any period of time.
