

August 7, 2015 – UPDATE: Pull-tab Dispensing Device Break-Ins/Thefts

An unsuccessful attempt to break into a pull-tab dispensing device has recently been reported in the New Prague area. The pull-tab dispensing device was targeted in this occurrence as no other items from the establishment were found taken.

7/28/15 - Pull-Tab Dispensing Device Break-Ins/Thefts

There have been several break-ins of/thefts from pull-tab dispensing devices in the past week. Known locations are Elko/New Market, Pine Island, and Sauk Rapids.

Some suggestions:

- Be sure your dispensing devices are secured. Contact your distributor about locking bars to secure the cash compartment.
- Reduce your cash exposure by removing funds from machines more frequently.
- Look out for persons who are “casing” or “hovering around” the machines, but don’t play.
- Direct cameras onto dispensing machines.

If you have any information about the thefts, notify local police as soon as possible.
