

MINNESOTA GAMBLING CONTROL BOARD

REQUEST FOR PROPOSAL FOR TESTING GAMBLING EQUIPMENT

Minnesota's Commitment to Diversity and Inclusion

The State of Minnesota is committed to diversity and inclusion in its public procurement process. The goal is to ensure that those providing goods and services to the State are representative of our Minnesota communities and include businesses owned by minorities, women, veterans, and those with substantial physical disabilities. Creating broader opportunities for historically under-represented groups provides for additional options and greater competition in the marketplace, creates stronger relationships and engagement within our communities, and fosters economic development and equality.

To further this commitment, the Department of Administration operates a program for Minnesota-based small businesses owned by minorities, women, veterans, and those with substantial physical disabilities. For additional information on this program, or to determine eligibility, please call 651-296-2600 or go to www.mn.gov/admin/oep.

Minnesota Gambling Control Board

Project Overview

The Minnesota Gambling Control Board is updating a certified list of vendors for the purpose of testing various gambling-related products and equipment. The term of this contract is anticipated to run from January 1, 2017 to December 31, 2019, with the option to extend an additional three years in increments determined by the state.

Goal

The certified list of vendors will be made available to licensed manufacturers for the purpose of independent testing and certification of gambling equipment meeting specifications of Gambling Control Board rules.

Sample Tasks

Test prototypes of gambling equipment identified by the Minnesota Gambling Control Board including but not limited to electronic pull-tab systems, electronic pull-tab devices, electronic bingo games, electronic bingo devices, electronic bingo systems, pull-tab dispensing devices, electronic paddlewheels, electronic raffle selection systems, and software applications used in the production and play of electronic games to insure minimum technical standards set forth in Minnesota law and Gambling Control Board rule are met. Minnesota Statutes 349.163, Subd. 6, states “The board may require samples of gambling equipment to be tested by an independent testing laboratory prior to submission to the board for approval. All costs of the testing by an independent testing laboratory must be borne by the manufacturer.”

A report of testing results must be provided to the Gambling Control Board within 30 days after receiving equipment for testing from the manufacturer.

In cases where test results indicate a possible violation of administrative rule governing pull-tab dispensing devices or Minnesota Statutes, Chapter 349, the testing entity will be expected to provide the Minnesota Gambling Control Board with a complete copy of test data and documentation to support its findings. Such information must be available within 24 hours of notification of test results.

Payment for testing, including shipping will be paid by the manufacturer. The vendor will work closely with the licensed manufacturer to ensure all specifications in rule are addressed and identified in the final report. The list of certified vendors will be established by the Minnesota Gambling Control Board on an annual basis. Vendors that were previously certified by the Minnesota Gambling Control Board simply need to indicate in writing to the Director of the Gambling Control Board their intent to remain on the list.

This request for proposal does not obligate the Minnesota Gambling Control Board to award a contract or establish a list of certified vendors, and the Minnesota Gambling Control Board reserves the right to cancel the solicitation if it is considered to be in its best interest.

Reimbursements will not be made for travel and subsistence expenses incurred outside Minnesota unless it has received the State's prior written approval for out of state travel. Minnesota will be considered the home state for determining whether travel is out of state.

Organizational Conflicts of Interest

The responder warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances which could give rise to organizational conflicts of interest. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons, a vendor is unable or potentially unable to render impartial assistance or advice to the State, or the vendor's objectivity in performing the contract work is or might be otherwise impaired, or the vendor has an unfair competitive advantage. The responder agrees that, if after award, an organizational conflict of interest is discovered, an immediate and full disclosure in writing must be made to the Assistant Director of the Department of Administration's Materials Management Division ("MMD") which must include a description of the action which the contractor has taken or proposes to take to avoid or mitigate such conflicts. If an

organization conflict of interest is determined to exist, the State may, at its discretion, cancel the contract. In the event the responder was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to MMD, the State may terminate the contract for default. The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime contractor, and the terms “contract,” “contractor,” and “contracting officer” modified appropriately to preserve the State’s rights.
