

Mastery School has been in Distance Learning for the whole 20/21 School Year so far. Report is reflective of no suspensions and virtual PBIS.

Introduction

The Mastery School Charter School has made significant steps to address the significantly high number of suspensions and expulsions that have happened at The Mastery School over the past five years. On November 2, 2017, the MN Department of Human Rights in collaboration with The Mastery School staff met to review suspension and expulsion data and create a plan for how the district would address this need. This report is to address the stated objectives and tasks that are outlined in the Suspension Reduction Plan, that was attached to the agreement between the MN Department of Human Rights and The Mastery School that was signed, on March 27 by The Mastery School and March 28 by Commissioner Lindsey of the MN Department of Human Rights. As outlined in the report, this semi-annual summary will include, but not be limited to:

- a. The Intended outcomes;
- b. Specific steps the Charter School took to implement the strategy;
- c. Metrics the Charter School developed to measure the effectiveness of the strategy; and
- d. Any changes implemented by the Charter School in light of results in the reporting period.

Philosophy Statement

The Mastery School has the following objectives as outlined in its Suspension Reduction Plan.

Objectives

- Maintain authorizer standards for overall school attendance.
- Decrease the number of suspensions by 30%.
- To increase positive student behavioral choices and reduce negative behavior.
- To provide a positive academic environment which is safe, orderly, and conducive to learning.

1. **Maintain authorizer standards for overall school attendance.**

The school maintains 95% attendance, which is in line with their authorizer goals.

2. Decrease the number of office referrals for negative behavior by 10%.

Because of COVID-19, there were no office referrals between February and September.

3. Decrease the number of suspensions by 30%

Because of COVID-19, there were no office referrals between February and September.

4. Increase positive student behavior choices and reduce negative behavior.

This became more challenging for Mastery to do so in real time, in a virtual world.

Mastery had virtual circles and used restorative practices through Zoom and Google Meets.

5. Provide a positive academic environment which is safe, orderly and conducive to learning.

This also was impacted due to COVID-19. Mastery produced a safe learning environment virtually for families and scholars.

Policy and Professional Development for Staff

The Mastery School has worked to ensure that staff had professional development in de-escalation skills, positive interventions, assertions, problem-solving, cultural competency, conflict resolution and responses to behavior that are age appropriate. The school has engaged with both the Washburn Center for Children and the Northside Achievement Zone to ensure that training and policies aligned with the needs of our families.

Policy and Language Alignment

Before the end of the 2017-2018 school year, the Principal and all relevant personnel shall ensure that there is consistency concerning:

- The language, terms, and definitions used by school personnel to determine when students engage in identified removal behavior;
- When school personnel may remove a student from class;
- When a student may be suspended or expelled for engaging in identified removal behavior; and
- The length of time a student may be suspended or expelled for engaging in identified removal behavior;
- School Bullying Policy and the Parent & Scholar Code of Conduct.

Professional Development

Staff will engage in mandatory professional development opportunities focused on student discipline. These will occur both before the school year and throughout the school year.

- Professional development activities will present information on de-escalation skills, positive intervention, assertion, problem solving, implicit bias, cultural competency, conflict resolution, and age-appropriate responses to behavior,
- Mastery School staff will continue to receive training from the Wilder Center on Trauma Informed Education as well as the Washburn Children's Center.
- Professional development activities will also include high quality classroom management, organization, and instructional strategies to be used

Mastery School will also track trainings completed by staff and measure the effectiveness of all training identified above consistent with identified metrics.
