[Kerry.YorkMyles@state.mn.us](mailto:Kerry.YorkMyles@state.mn.us)

**Avery Prine, Analyst**

[Avery.Prine@state.mn.us](mailto:Avery.Prine@state.mn.us)

## Our Focus Areas

1. Monitor the federal landscape
2. Build & coordinate federal funding strategy
3. Monitor and evaluate federal funds deployment
4. Curate, develop & share federal funding technical assistance

# Purpose of this call

**While we can't provide clarity right now, we can:**

- Share information to facilitate risk analyses
  - Tracking reimbursement blockages
  - Tracking cancellations
  - Tracking NOFOs
  - Tracking guidance and EOs
- Provide a space for others to share information and strategies
- Build a support network of people working through similar problems

# New Executive Orders

- Directing agencies to conduct a 90-day review of [workforce development](#) strategies and apprenticeship programs to support reindustrialization policies.
- Federal [hiring freeze](#) extended to July 15, 2025.
- [\*Updating Permitting Technology for the 21<sup>st</sup> Century\*](#) suggests a variety of measures to speed up and streamline the NEPA review process.

# Other new developments

- Grants.gov is now reportedly being managed by DOGE, a shift from HHS's longstanding management of the site. Reporting indicates that under the new management structure, at least some federal agencies are no longer able to post NOFOs directly to Grants.gov, which may result in slower and/or fewer postings.
- A district [court ruled](#) that Greenhouse Gas Reduction Fund awardees must have access to some of the frozen dollars. A [circuit court](#) promptly issued a stay on the order.
- A court issued a [preliminary injunction](#) that requires federal agencies to “turn the [IIJA and IRA] funding spigots back on” while the case is pending. The case applies to non-profit funding from certain federal agencies.

# Federal Funding Disruptions Tracking

Two tracking documents available on the [MMB website](#):

- Temporary Disruptions and Permanent Cancellations, updated every weekday ~4pm CT

Note: our definition of “Permanent Cancellations” has evolved over the last few weeks given recent TROs that have reversed “cancellations”

## Data and Reporting

### Federal Funding Disruptions

The Federal Funds Implementation Team is monitoring changes in the federal landscape that impact funding in Minnesota. The tracking documents below contain information on temporarily disrupted and permanently cancelled federal grants at Minnesota state agencies. The disruptions and cancellations are funds that flow through state government entities and do not reflect the totality of disrupted funds across Minnesota. The tracking documents are updated **every weekday** and are intended for informational use.

#### Temporary Disruptions

**Total Funds At Risk: \$55,989,150**

This tracking document contains a list of active federal funding disruptions reported by state agencies.

#### Permanent Cancellations

# Supplemental Info

# AI screening for words and themes

- Analysis has shown that words associated with themes in issued executive orders and federal agency guidance are being removed or replaced on federal websites.
- Federal agencies may be conducting AI screening for these or similar words in federal grant applications and reporting.
- Applications and reports that omit these words or themes may not trigger additional review.

# A Note on Recent Guidance

**Example Guidance: Department of Labor.** *“Starting on March 17, 2025, grant recipients are required to submit a justification with each payment request submitted to PMS.”*

# Reminders/Best Practices

- Grants with signed agreements appear to be somewhat stable for the time being
- Some grants may be terminated for convenience—check terms and conditions
  - **The standard terms and conditions are being amended by EPA to make grants easier to cancel for convenience**
  - Stay consistent with terms and conditions
- Get any directives in writing
- Know that calls may be recorded
  - **Folks from the federal government – and potentially DOGE in particular – are joining meetings.**
- Reporting and funding applications: anticipate use of AI screening for key words.
- Court cases continue: **Covid and FEMA fund cancellations were blocked; reductions in force blocked, then unblocked.**
