Agency/Point of Contact: Governor's Office/Alyssa Haugen Chief Operating Officer

Title of Request: Governor's Office COVID Response

Date: 10/13/2022 Request Amount: \$ 225,000

Expenditure Time Period: 7/1/2022 to 2/15/2023 (no later than 2/15/2023)

Brief Summary of Request: (Summary must be complete on this page with supporting information attached)

COVID continues to drive cases and hospitalizations in Minnesota, and it is expected that variants will be with us for the foreseeable future. The state is monitoring each variant closely and deploying COVID management tools to help Minnesotans live their lives as normally and safely as possible. There is an ongoing need to coordinate the state's COVID management/response across state agencies to maximize resources and increase effectiveness. The Governor's office has brought in a small team to lead the coordination on COVID management/response across the enterprise, including in the areas of testing, vaccinations, COVID-19 outbreak management, public education, and health system supports. This integrated approach avoids silos and maximizes the impact of precious state resources between now and until February 15, 2023.

See attached for complete description.
