## Executive Summary

On June 25, 2020, Governor Tim Walz and Lieutenant Governor Peggy Flanagan announced a plan, which was largely based on a previous legislative proposal, to distribute \$841 million of Minnesota's federal Coronavirus Relief Fund (CRF) allotment to local governments to support COVID-19 relief efforts. The Minnesota Department of Revenue received and approved local government certification forms for 85 counties and 1,530 cities and townships. Because they have more than 500,000 residents, Hennepin and Ramsey counties received their CRF distributions directly from the federal government. Twelve cities and 261 towns did not request distributions. Allotted funds were distributed on an ongoing basis starting within two weeks of the plan announcement.

The State of Minnesota distributed \$837,728,966, or 99.5%, of the original allotment to local governments between July 6 and October 16, 2020. The remaining 0.5%, or \$3,735,034, was not requested by local governments and was re-purposed to aid the state's COVID-19 relief efforts.

According to [federal guidance](#), CRF funds may only be used to cover costs that:

1. Are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19)
2. Were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government
3. Occur during the covered period

Any CRF distribution remaining unexpended on November 15, 2020, by an eligible city or town whose home county is an eligible county, was required to be sent to the city or town's home county by November 20, 2020. Cities and towns within Hennepin or Ramsey counties were required to grant unspent funds to a hospital in their respective county. Any amount remaining unexpended by an eligible county on December 1, 2020, was required to be returned to the State by December 10, 2020. Any unspent funds received by counties on or after December 10, 2020 was also required to be returned to the State. All returned funds must be used by the State to offset general fund costs of the COVID-19 response as required by 5th Special Session Law Chapter 3, Article 9, Section 12.

### Status of distributed funds

- As of April 30, 2021, local governments have reported spending a total of \$833,981,951, or 99.6%, of the allocated funds. As of April 30, 2021, 32 local governments have not submitted an accepted final spending report.
- As of April 30, 2021, cities and towns have reported returning \$10,709,252 to counties and \$317,553 to hospitals in Hennepin and Ramsey counties. Local governments have returned \$1,546,237 in unspent funds to the state.
- The three largest expenditure categories for local governments are: Payroll for Public Health and Safety Employees, Small Business Assistance, and Budgeted Personnel and Services Diverted to a Substantially

Different Use. The total amount spent on these three categories is \$556,984,616, or 67%, of the total spent through the end of the covered period.

## Reporting requirements

- Local governments that received CRF assistance through the State of Minnesota signed a certification form agreeing to report their expenses and repay any funds used in a manner contrary to federal or state guidance. Local governments were required to submit monthly reports to MMB that included the local government's identifying information as well as descriptions of expenses, which were assigned by the local government to one of the 18 categories provided by the U.S. Treasury.
- The MMB COVID-19 Response Accountability Office conducted intensive outreach and training to guide local governments through the spending and reporting processes. The office provided ten trainings for local governments on the reporting process, answered questions related to eligibility, and continues to provide ongoing outreach and assistance in complying with the reporting requirements. Reports with missing information or errors are returned to the submitting local government for correction and resubmission.
- As of April 30, 2021, 98% of the 1,615 local governments that received funds had submitted an accepted final spending report to MMB. Appendix B lists the 32 local governments that had not complied with reporting requirements as of April 30, 2020.
- The COVID-19 Response Accountability Office targeted direct outreach to those units of local government that have not submitted an approved final spending report. On December 17, 2020, there were 202 reports missing; on April 30, there were 32. The COVID-19 Response Accountability Office will continue the work to obtain reports from all local governments that received CRF assistance from the State of Minnesota.
- Per federal law, any local government that spends \$750,000 or more of federal money within its fiscal year is required to obtain a federal single audit. In Minnesota, these audits are done by the Office of the State Auditor or a CPA firm. The audits are due no later than nine months after the end of the entity's fiscal year. All local governments are subject to a review or audit by the U.S. Treasury Office of the Inspector General. The COVID-19 Response Accountability Office is targeting outreach to all affected local governments to ensure they are aware of and comply with this requirement.

## Local Government Spending

The following is aggregate spending data for the 1,583 counties, cities, and towns that submitted an accepted final spending report as of April 30, 2021, as well as three local government that have only submitted an interim report. Questions about a specific local government’s expenditures should be directed to that local government.

## Unspent Funds Returned to State

Per the certification form that each government signed prior to receiving funds, any aid amount remaining unexpended by an eligible city or town on November 15, 2020, was required to be sent to the home county in which the city or town is located. Cities located in Hennepin County were required to return unspent funds to Hennepin County Medical Center or another hospital in the county's boundaries, while cities and towns located in Ramsey County were required to return unspent funds to Regions Hospital or another hospital in the county's boundaries. These transfers were required to be made no later than November 20, 2020. Any amount of aid remaining unexpended by an eligible county as of December 1, 2020, was required to be returned to Minnesota Management and Budget by December 10, 2020.

Any unspent funds received by counties on or after December 10, 2020, were required to be returned to the state immediately. In March of 2021, MMB began directing cities and towns to return any remaining unspent funds directly to the state, so as to minimize the administrative burden placed on the counties. Table 4 shows CRF funds returned directly to the state. Local governments have returned a total of \$1,546,237 directly to the state as of April 30, 2021.

## Appendix A: Local Governments with an Accepted Final Spending Report as of April 30, 2021

The following shows reported spending for each local government. Cities and towns were required to transfer any funds remaining unexpended as of November 15, 2020, to their home county, which the county could then use for eligible expenses. As a result, the Total Expenses Reported by some counties is greater than the amount of CRF funds they originally received. Counties were required to return to the state any funds remaining unexpended as of December 1, 2020, as well as any unspent funds received from cities and towns on or after December 10, 2020.

Please note: Total Expenses Reported does not include funds transferred from counties to cities and towns with fewer than 200 residents, or unspent funds transferred from cities and towns to their home counties.
