## **2025 Comparison of Budget and Actual Revenues, Expenditures, and Changes in Fund Balances**

### **Introduction**

---

This report is a supplement to the State of Minnesota Annual Comprehensive Financial Report (ACFR), prepared by Minnesota Management and Budget (MMB). MMB is responsible for the accuracy and completeness of the ACFR, as well as this report.

Generally accepted accounting principles (GAAP) require budgetary reporting at the legal level of control. As a supplement to the ACFR, this report provides details at the level for legal budgetary reporting.

The purpose of this report is to demonstrate that spending by state agencies was within the authorized limits and in compliance with appropriation laws. These schedules provide a more detailed version of the budget and actual statements included in the state's ACFR.

The legal level of budgetary control is the level beyond which agency heads have no authority to further modify the budget. In many cases, agencies have authority to modify their budgets by spending dedicated receipts, moving amounts between fiscal years, or moving budgeted amounts from one program to another. Some budgets are further restricted to the program level while others are restricted to budget activity and cannot be transferred beyond that level.

The ACFR, which presents the state's GAAP-based financial statements and related disclosures, is a separate report available from Minnesota Management and Budget (<https://mn.gov/mmb/accounting/reports/>).

### **Scope**

The scope of this report covers only those funds for which annual spending limits are established in law. The following funds are included:

#### **General Fund**

#### **Special Revenue Funds:**

Health Care Access	Remediation
State Government	Outdoor Heritage
Trunk Highway	Arts and Cultural Heritage
Highway User Tax Distribution	Clean Water
State Airports	Parks and Trails
Petroleum Tank Cleanup	Special Compensation
Natural Resources	Workforce Development
Game and Fish	Renewable Development
Environmental	Opiate Epidemic Response

The Health Care Access and State Government funds are not reported as separate funds in the ACFR but are included in the General Fund.

The Environmental and Remediation funds are not reported as separate funds in the ACFR but are reported together in the Environmental and Remediation Fund.

The Outdoor Heritage, Arts and Cultural Heritage, Clean Water, and Parks and Trails funds are not reported as separate funds in the ACFR but are reported together in the Heritage Fund.

The Renewable Development and Opiate Epidemic Response funds are not reported as separate funds in the ACFR but are reported together in the Miscellaneous Special Revenue Fund.

## **Basis of Reporting**

This report is prepared on the budgetary basis of accounting. The budgetary basis is essentially a cash basis of accounting except that encumbrances are recognized as expenditures of the year appropriated.

The summary of reporting policies preceding the schedules explains the basis for the budget amounts, budget adjustments, and actual amounts in the schedules. Other information common to all funds and necessary to understand the reported schedules are also presented in the summary. The notes presented with each fund provide additional information unique to the fund.

This report closely follows other budget reports<sup>1</sup> prepared by MMB. However, because of its different purpose, timing, and level of detail, some differences between the schedules in this report and other MMB budgetary reports are necessary. These differences are explained in the notes to the schedules.

## **Audit**

This report is prepared as a supplement to the state's ACFR. All funds rolling into the ACFR General Fund are included in the scope of the audit conducted by Office of the Legislative Auditor.

<sup>1</sup> Other budget reports prepared by Minnesota Management and Budget include:  
Consolidated Fund Statement, Budgetary Basis, dated June 14, 2024.  
Consolidated Fund Statement, Budgetary Basis, dated August 5, 2025.

## **Independent Auditor's Report**

Members of the Minnesota State Legislature

The Honorable Tim Walz, Governor

Erin Campbell, Commissioner, Minnesota Management and Budget

### **Report on the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – Budgetary Basis**

We have audited the basic financial statements of the State of Minnesota as of and for the year ended June 30, 2025, and have issued our independent auditor's report thereon dated December 18, 2025, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole.

The accompanying supplementary Schedules of Revenues, Expenditures, and Changes in Fund Balance– Budget and Actual – Budgetary Basis (and Summary of Reporting Policy), as listed in the Table of Contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

Only the information in the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – Budgetary Basis has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The remaining information on pages 49 to 86, marked unaudited, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Lori Leysen, CPA  
Deputy Legislative Auditor

Zach Yzermans, CPA  
Audit Director

## 2025 Comparison of Budget and Actual Revenues, Expenditures, and Changes in Fund Balances

### Summary of Reporting Policies

---

The following notes provide general policies relevant to preparing this report.

#### Original and Final Budgets

##### Revenues

###### Original Budget

The original budget amounts reported for revenues and transfers-in are the resource estimates used at the start of the fiscal year to determine allowable spending. In some cases, primarily the General Fund, these amounts were used in determining the amount available for appropriation by the 2024 Legislature and are from the *Consolidated Fund Statement, Budgetary Basis Report*<sup>1</sup>.

Revenue categories in this report closely follow the Consolidated Fund Statement, Budgetary Basis report. The categories used are not consistent across funds because revenues are not estimated at the same level of detail for all revenue categories in all funds. For example, revenues for the General Fund do not include specific estimates of federal revenues even though such revenues are received. The special revenue funds include revenue budgets for federal revenues because the amounts are significant to those funds.

###### Final Budget (Budget)

The budget amounts reported for revenues and transfers-in are the latest resource estimates used in determining allowable spending. These amounts represent the relevant agency's estimate of resources, made at the same point that expenditures were last estimated prior to fiscal year-end, and are taken from the *Consolidated Fund Statement, Budgetary Basis Report*<sup>2</sup>. However, if dedicated receipts are significant to a fund, the final spending authority is adjusted to match the revenue received.

##### Expenditures

###### Original Budget

The original budgets, with the exception of open and special appropriations, are comprised of the amounts specified in appropriation laws prior to the start of the fiscal year, actual appropriation amounts automatically carried over from previous years, transfers between programs (as authorized), and any other legally authorized legislative or executive changes before the beginning of the fiscal year. For open and special appropriations, actual amounts spent are used because the law authorizes spending at levels necessary to fulfill the obligation.

<sup>1</sup> Consolidated Fund Statement, Budgetary Basis Report, prepared by Minnesota Management and Budget, dated June 14, 2024.

<sup>2</sup> Consolidated Fund Statement, Budgetary Basis Report, prepared by Minnesota Management and Budget, dated August 5, 2025.

## **Final Budget (Budget)**

The budget, except for open and special appropriations, is comprised of the amounts specified in appropriation laws, including subsequent appropriations for the same purpose, and any other legally authorized legislative or executive changes made during the fiscal year. For open and special appropriations, actual amounts spent are used because the law authorizes spending at levels necessary to fulfill the obligation.

## **Adjustments to Budgets**

The budget is adjusted to reflect changes to the appropriated amounts as permitted (or required) in statutes or appropriation laws. Budget adjustments include, but are not limited to, transfers between programs as authorized, and actual dedicated receipts available to fund expenditures, encumbrances, and transfers-out.

## **Actual**

Actual revenues are net of refunds and include receipts related to the current budget fiscal year. Actual transfers-in are transfers from other funds related to the current budget fiscal year. Dedicated revenues and transfers received after year-end through the close of the books in August may be included if related to the current budget fiscal year.

Actual expenditures include disbursements, encumbrances, and transfers-out related to the current budget fiscal year. Actual transfers-out are transfers made to other funds. Expenditures and transfers made after year-end through the close of the books in August may be included if related to the current budget fiscal year.

Prior budget period activity is reported as an adjustment to the beginning fund balance. The majority of this activity relates to cancelled encumbrances. Any additional significant prior period activity is noted in the notes to the applicable fund.

## **Variances**

Revenue and transfer-in variances represent the difference between forecasted revenues and the amounts actually received.

Expenditure and transfer-out variances are the primary focus of this report, especially negative variances. Negative variances represent spending in excess of the amount allowed in law and are explained in fund notes, if significant. Spending did not exceed authorized limits in the current budget fiscal year.

### Notes

- Total budgeted revenues and expenditures on this report differ from those reported in the General Fund - Fund Balance Analysis (FBA), also prepared by Minnesota Management and Budget. These differences are explained below:
  - On the FBA, open appropriations are based on estimates. However, as this report measures the authority to spend up to fiscal closing, the amount actually needed for the program are included in the budget. This represents the legal limit on spending for these programs.
  - Estimates are used in the FBA to better forecast ending fund balance. These estimates (if any) may differ from the legal authority presented in this report.
  - The FBA includes the same estimated amounts for both revenues and expenditures related to dedicated revenues. On this report, expenditure budgets are adjusted by actual dedicated revenues received. This represents the legal limit on spending related to dedicated revenues.
- In the Annual Comprehensive Financial Report (ACFR), the General Fund includes the direct appropriated portion of two other funds, which are included as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity. In addition, the ACFR General Fund includes funds that are not appropriated, and do not have a legally adopted budget. These funds are considered a perspective difference in the budget to Generally Accepted Accounting Principles (GAAP) reconciliation.
  - A reconciliation of the actual unassigned fund balances is as follows (in thousands):

#### Legal Level of Budgetary Control Report:

General Fund	\$ 4,878,098
Health Care Access Fund	566,006
State Government Fund	90,025
<b>General Fund in ACFR</b>	<b>\$ 5,534,129</b>

## STATE OF MINNESOTA

### GENERAL FUND SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL BUDGETARY BASIS YEAR ENDED JUNE 30, 2025 (IN THOUSANDS)

3. This report includes both expenditures and transfers-out together by function. However, the ACFR reports transfers-out separately on a single line. The following represents transfers-out for the original budget, final budget, and actuals by function. In addition, this report reduces total expenditures by indirect cost reimbursed by other funds on a separate line. However, the ACFR nets these indirect cost reimbursements against expenditures by function.

#### General Fund transfers-out by function

	Original Budget, Budget, and Actual Transfers-out	Original Budget Indirect Cost Reimbursement	Budget Indirect Cost Reimbursement	Actual Indirect Cost Reimbursement

### Notes

1. In the Annual Comprehensive Financial Report (ACFR), the Health Care Access and State Government funds are included in the General Fund. However, these funds are reported as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity.
2. The total budgeted revenues and expenditures on this report differ from those reported in the Consolidated Fund Statement (CFS). The State Government Fund includes two accounts within the CFS; State Government Special Revenue and Health Related Boards.
3. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for original budget, final budget and actuals by function.

#### State Government Fund transfers-out by function

### Notes

1. Federal Revenues include Federal Aid Agreement amounts that will be collected in the future upon completion of the agreement terms. The revenue is included to match encumbrance reserves established in accordance with the agreements.
2. The fund is supported by revenues from the Highway User Tax Distribution Fund and federal grants to plan, design, construct, and maintain the state trunk highway system. Transfers received from the Highway User Tax Distribution Fund are directly recorded as revenue in the Annual Comprehensive Financial Report (ACFR) for this fund.
3. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

#### Trunk Highway Fund transfers-out by function

Transportation	\$ 252,929

### Notes

1. The fund receives revenue from taxes on motor vehicles and motor fuels for transfer to various transportation-related funds.
2. Transfers-out and corresponding revenues are eliminated in the Annual Comprehensive Financial Report (ACFR) for this fund. The corresponding transfers are recorded directly as revenue in the ACFR for the funds they are allocated to (Trunk Highway, Municipal State Aid Street, County State Aid Highway, and Natural Resources funds) in compliance with Generally Accepted Accounting Principles (GAAP).
3. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

## STATE OF MINNESOTA

### ENVIRONMENTAL FUND SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL BUDGETARY BASIS YEAR ENDED JUNE 30, 2025 (IN THOUSANDS)

UNAUDITED

#### Notes

1. In the Annual Comprehensive Financial Report (ACFR), the Environmental and Remediation funds are combined. However, these funds are reported as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity.

**Legal Level of Budgetary Control Report:**

Environmental Fund	\$ 31,747
Remediation Fund	20,625
<b>Environmental and Remediation Fund in ACFR</b>	<u><u>\$ 52,372</u></u>

2. In the "Nonmajor Appropriated Special Revenue Funds Combining Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual" report (included in the ACFR), a \$24,000 transfer from the Environmental Fund to the Remediation Fund was eliminated. This is a result of the combining activity discussed above.
3. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

**Environmental Fund transfers-out by function**

Agricultural, Environmental and Energy Resources	\$ 24,018
Elimination (see note 2)	(24,000)
<b>Total Transfers-Out</b>	<u><u>\$ 18</u></u>

### Notes

- In the Annual Comprehensive Financial Report (ACFR), the Heritage Funds (Outdoor Heritage, Arts and Cultural Heritage, Clean Water, and Parks and Trails funds) are combined. However, these funds are reported as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity.

#### Legal Level of Budgetary Control Report:

Outdoor Heritage Fund	\$ 26,531
Arts and Cultural Heritage Fund	(440)
Clean Water Fund	360
Parks and Trails Fund	(1,425)
<b>Heritage Fund in ACFR</b>	<b>\$ 25,026</b>

- The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

#### Outdoor Heritage Fund transfers-out by function

Agricultural, Environmental and Energy Resources	\$ 819
<b>Total Transfers-Out</b>	<b>\$ 819</b>

### Notes

1. In the Annual Comprehensive Financial Report (ACFR), the Heritage Funds (Outdoor Heritage, Arts and Cultural Heritage, Clean Water, and Parks and Trails funds) are combined. However, these funds are reported as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity.
2. The February 2025 Budget and Economic Forecast projected this fund would close with a negative balance after accounting for appropriation carryforward. Minnesota Management and Budget directed agencies to hold spending of certain appropriations until the next budget period to ensure the fund would maintain a positive cash balance.
3. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

#### Arts and Cultural Heritage Fund transfers-out by function

### Notes

1. In the Annual Comprehensive Financial Report (ACFR), the Heritage Funds (Outdoor Heritage, Arts and Cultural Heritage, Clean Water, and Parks and Trails funds) are combined. However, these funds are reported as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity.
2. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

#### Clean Water Fund transfers-out by function

Agricultural, Environmental and Energy Resources	\$ 8,138
<b>Total Transfers-Out</b>	<b>\$ 8,138</b>

### Notes

1. In the Annual Comprehensive Financial Report (ACFR), the Heritage Funds (Outdoor Heritage, Arts and Cultural Heritage, Clean Water, and Parks and Trails funds) are combined. However, these funds are reported as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity.
2. The February 2025 Budget and Economic Forecast projected this fund would close with a negative balance after accounting for appropriation carryforward. Minnesota Management and Budget directed agencies to hold spending of certain appropriations until the next budget period to ensure the fund would maintain a positive cash balance.

Unassigned Fund Balance, Ending.....	\$ 24,256	\$ (434)	\$ (24,690)

### Notes

1. In the Annual Comprehensive Financial Report (ACFR), the Miscellaneous Special Revenue Fund includes the direct appropriated portion of the Renewable Development and Opiate Epidemic Response funds, which are included as separate funds in this report. The differences in the budgeted and actual fund balances between the ACFR and this report are the result of this combining activity. In addition, the ACFR Miscellaneous Special Revenue Fund includes funds that are not appropriated, and do not have a legally adopted budget. These funds are considered a perspective difference in the budget to Generally Accepted Accounting Principles (GAAP) reconciliation.

- a. A reconciliation of the actual unassigned fund balances is as follows (in thousands):

#### Legal Level of Budgetary Control Report:

Renewable Development Fund	\$ (434)
Opiate Epidemic Response Fund	40,855
Miscellaneous Special Revenue Fund in ACFR	\$ 40,421

2. A prior period adjustment was recorded in budget year 2025 to correct the allocation of investment income in prior years for the Renewable Development Fund. The adjustment reduces fund balance on this report and ensures that all applicable appropriations are properly reflected. Spending authority will be managed to eliminate this deficit in the next fiscal year.
3. The LLBC reports expenditures and transfers-out together by function. However, transfers-out are reported separately in the ACFR as one line. The following represents the transfers-out for both budget and actuals by function.

#### Renewable Development Fund transfers-out by function

Agricultural, Environmental and Energy Resources	\$ 20,395
Total Transfers-Out	\$ 20,395
