## PURPOSE

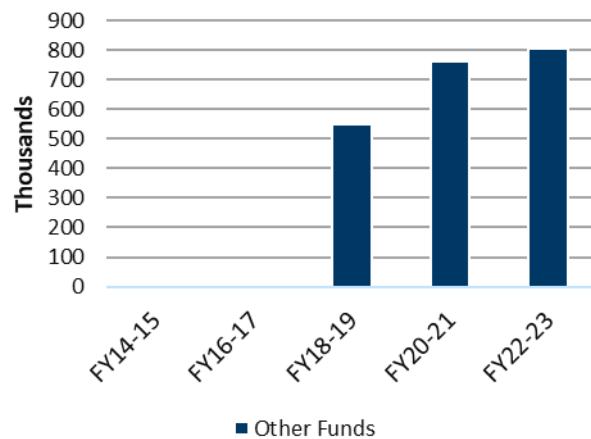

The Minnesota Board of Occupational Therapy Practice exists to protect the public. The Board enforces statute related to ensuring competent, ethical occupational therapy services. Regulation of occupational therapy practitioners began in 1996 under the Minnesota Department of Health and moved to the Board in 2018. The Board carries out its mission by granting qualified applicants the privilege to practice in Minnesota and by investigating complaints related to the statutory obligation of licensed individuals to provide competent, safe, ethical care. The Board has a strong focus on customer service ensuring licensee, applicant, and public inquiries are responded to in a timely manner.

The Board is funded by licensure fees and receives no general fund dollars. Minnesota Statutes section 214.06, subdivision 1(a) compels the Board to collect fees in an amount sufficient to cover direct and indirect expenditures. Funds are deposited as non-dedicated revenue into the state government special revenue fund. From this fund, the Board receives a direct appropriation to pay for agency expenses. It also pays statewide indirect costs through an open appropriation.

In addition to Board operations, licensure fees fund activities that support the health regulatory boards collaborative. These include: The Administrative Services Unit (inter-board), Small Agency Resource Team (SmART), Health Professionals Services Program (inter-board), Office of the Attorney General for legal services, and the Criminal Background Check Program (inter-board).

## STRATEGIES

The Board of Occupational Therapy Practice promotes and protects the health and safety of the citizens of Minnesota, accomplishes its public protection mission, and contributes to statewide outcomes by:

- Only issuing licenses to fully qualified individuals.
- Administering the license renewal process, ensuring statutory requirements are met.
- Educating stakeholders, licensees, potential licensees, educational programs, and the public.
- Responding to inquiries, complaints, and reports regarding applicants and licensees.
- Investigating and resolving complaints.
- Maintaining a comprehensive website that provides information for licensees, applicants, and other stakeholders, meeting state mandates and public interest.
- Ensuring inquiries are managed in a timely and efficient manner.
- Conducting ongoing analysis of regulatory body best practice to ensure effective decision making.
- Actively participating in the Occupational Therapy Interstate Licensure Compact development.
- Collaborating with other state and national entities on matters related to occupational licensing.

## RESULTS

The information included below was generated using the Board's licensure and regulatory database. The total number of licensees continues to increase annually.

### Occupational Therapy Licensing Overhaul

This provision modernizes and overhauls the Board of Occupational Therapy Practice's (the Board) licensing requirements, including updates related to the occupational therapy interstate licensure compact. The one-time costs associated with these changes are covered by the Board's current funding levels, so no additional funding has been appropriated. The Board's revenues are also expected to decline as a result of changes to the timing for and processes related to late fees.
