AT A GLANCE

- The Public Employees Retirement Association (PERA) was established in 1931.
- PERA is governed by an 11-member board of trustees.
- In accordance with Minnesota Statute, PERA administers:
 - Three cost-sharing multiple-employer defined benefit retirement plans;
 - One agent multiple-employer defined benefit plan;
 - One defined contribution plan; and,
 - One agency fund to account for a limited number of local governments' Other Post Employment Benefit (OPEB) contributions.
- During fiscal year 2023, PERA:
 - Collected approximately \$1.5 Billion in member and employer contributions;
 - o Earned approximately \$3.3 Billion on its investments;
 - Paid almost \$2.6 Billion in benefit payments;
 - o Returned more than \$74 million in lump-sum refund payments to terminated members; and
 - Made defined contribution payments of over \$7.6 million.
 - PERA has over 2,000 total participating employers including townships, cities, counties, schools, and other miscellaneous local governments as defined in Minnesota Statute.
- PERA had 169,682 defined benefit fund members, 168,402 inactive members, and 133,524 annuitants receiving benefits at the end of fiscal year 2023.

PURPOSE

The Public Employee Retirement Association's (PERA) mission is to administer and promote sustainable retirement plans and provide services our member's value. PERA does this by providing secure retirement benefits members can count on at affordable rates for public employers, with member-focused service delivery.

BUDGET

Notes: (1) The Statewide Volunteer Firefighter Plan and the Defined Contribution Plan spending represents less than one percent of the total spending. (2) Spending includes retirement benefits, refunds of contributions, and administrative expenses.

Source: PERA 2023 Comprehensive Annual Financial Report

Historical Spending

Notes: (1) Although indiscernible on the bar chart, General Fund appropriations finance some retirement benefits for the General Employees and Police & Fire Employees Plans. (2) Other Funds includes PERA's pension trust funds.

Source: PERA 2023 Comprehensive Annual Financial Report

PERA administers three defined benefit plans: General Employees (GE), Correctional, and Police & Fire (P&F) Plans. All of these plans are funded primarily with investment earnings which compromise approximately 66 percent of revenues over the last 10 years. Plan member and employer contributions comprised about 15 percent and 19 percent, respectively, of revenues in the same period.

PERA receives annual General Fund appropriations. In fiscal year 2023, PERA received General Fund appropriations totaling \$34 million as listed below:

- Under Minnesota Statute 353.505, the State of Minnesota will contribute \$16 million annually until September 2031, to help pay off the unfunded liability that existed when Minneapolis Employees Retirement Fund (MERF) was consolidated into PERA in 2010.
- Under M.S. 353.65, PERA also received \$9 million of "direct state aid" for the Police and Fire Plan in fiscal year 2023. This aid continues through the earlier of fiscal year 2048 or when the plan reaches a 100% funded ratio based on the actuarially determined value of the plan's assets.
- Finally, under M.S. 423A.022, PERA receives \$9 million per year in "supplemental aid" for the Police and Fire Plan. This aid terminates at the earlier of July 1, 2048 or December 1 of the year after the fiscal yearend in which the values of *both* the State Patrol retirement plan and the PERA Police and Fire Plan actuarial value of assets equals or exceeds 90% of actuarially determined liabilities.

PERA's expenditures consist primarily of retirement benefit payments and refunds of contributions. PERA's administrative expense for these funds continue to be less than 0.1% of plan net assets.

STRATEGIES

PERA's core functions include collecting, recording, and maintaining the accounting of retirement contributions; collecting and managing member information; issuing benefit and refund payments; and delivering education and training through counseling, workshops and publications.

RESULTS

The legislature reduced the statutorily-established investment rate of return assumption from 7.5% to 7.0% effective July 1, 2023. PERA's actuaries determined that the statutorily established investment return assumption of 7.0% is within the reasonable range from the guidance set forth in the Actuarial Standards of Practice. Three measures of a defined benefit plan's financial health are:

- **Funded Ratio** This ratio is the percent of a retirement fund's net assets, calculated for actuarial purposes, that is available to pay the present value of benefits that employees already earned. The higher the ratio, the better positioned the retirement plan is to pay future benefits when they become due.
- Contribution Sufficiency/(Deficiency) Rate This rate is the difference between the actuary's computation of required employer and employee contributions rates and the statutory contribution rates, expressed as a percent of payroll. A sufficiency indicates that the plan is on target to reach a 100% funded ratio before its full funding date; conversely, a deficiency means the retirement system is not collecting enough contributions to reach its full funding target date.
- Unfunded Actuarial Accrued Liability (UAAL) This is the difference between the actuary's valuation of assets and the present value of member's future benefits.
