SWIFT Procurement Document Types

This table lists document types for creating Requisitions, Purchase Orders, Contracts and Professional/ Technical Contracts. They are managed by the Office of State Procurement (OSP) and may be subject to Authority for Local Purchasing (ALP) limits.

Requisition Document Types		
All requisitions pre-encumber funds. This is done through the Budget Checking process. Requisitions are not dispatched. They are entered in SWIFT's EProcurement (EPro) module.		
Doc Type	Title	Description
OMR	Open Market Requisition	Normally used for items costing over \$10,000.00 and need to be bid out via a Strategic Sourcing event. Goes through the SWIFT solicitation process, resulting in a Purchase Order (POR). OMRs will be entered in EPro and will be further processed through Strategic Sourcing by OSP or the agency depending on their ALP) limits.
CEO	Contract Encumbering Order	Pre-encumbers funds; does not print. Can be used to set up an estimated amount of money for Building Construction (BCC), Other Construction (OCC) or Roadway Construction (RWC) contracts. Upon award of the contract the CEO requisition is sourced, a CEO purchase order encumbrance is created, and the CEO requisition is relieved.
CTR	Catalog Punchout Requisition	Used to create item requests for specified contracts where suppliers have punchout capabilities. Pre-encumbers funds and is sourced to a purchase order (CTP). The CTR cannot be copied.
INV	Inventory Requisition	Used to request items from inventory for those agencies using the Inventory module in SWIFT.
Purchase Order Document Types		
They are entered in SWIFT's Purchase Order module.		
There are three types of purchase orders:		
<ol style="list-style-type: none"> 1. Non-Blanket Purchase Orders are the standard purchasing documents for procuring within your ALP limits and purchasing from established state contracts. These purchase orders must name the supplier along with the specific commodities and quantities involved. These documents are dispatched to the supplier unless otherwise stated. You may exceed the original order amount at time of payment within statewide matching tolerances, which are 10% or \$50.00. 		

2. **Blanket Purchase Orders** also encumber (not pre-encumber) money. Blanket purchase orders are used for annual recurring purchases. They require specific commodities involved and the total dollar amount being set aside for that purpose. Blanket purchase orders default to “Amount Only” and a Quantity of “1” allowing for payments less than the unit price and a total quantity received of greater than “1.” Multiple payments are expected, with varying voucher amounts. If exceeding the original blanket purchase order amount, you must enter a change order.

3. **Encumbering Purchase Orders** are used only to encumber money against professional/technical, grant and construction type contracts. The purchase order must reference a contract and contract line. These purchase orders default to dispatch type of ‘Phone.’
