Create an Annual Plan Contract

The Annual Plan Contract (APK) is an agreement that pre-establishes authority to obtain professional/technical services on demand for specific purposes within an approved dollar limit. A T-Number tracks this agreement and it is the memo agreement that is entered into SWIFT. APKs are processed outside SWIFT under this Agreement. Funds are encumbered using an Annual Plan Contract (APK) purchase order within a single fiscal year. This guide reviews the basic steps to create an APK in SWIFT. This process is commonly called creating a “contract shell” in SWIFT. It refers to Supplier Contract record in SWIFT.

- You can create and process an Annual Plan Agreement document electronically through SWIFT.
- Or, you can use the Office of State Procurement forms for creating an agency’s Annual Plan Agreement. Make sure that you have the most recent version of it.
  
  http://www.mmd.admin.state.mn.us/mn05002.htm

This reference guide provides the steps to create an APK contract shell in the Supplier Contracts module. It also provides separate steps on how to add a supplier to the Supplier List on the APK.

Steps to Enter an Annual Plan Contract in SWIFT.

Steps to complete

- Step 1: Navigate to the Contract Entry page
- Step 2: Enter header information to the Contract Entry page
- Step 3: Enter information in the Purchase Order BU Default section
- Step 4: Enter information in the contract lines section
- Step 5: Enter information in the Details for Line page (as needed)
- Step 6: Enter information on the Add/Create Document section

**Step 1: Navigate to the Contract Entry page**

<table>
<thead>
<tr>
<th>Navigation Options</th>
<th>Navigation Path</th>
</tr>
</thead>
<tbody>
<tr>
<td>Navigation Collection</td>
<td>Procurement, Supplier Contract, Create Contracts and Documents, Contract Entry page defaults.</td>
</tr>
</tbody>
</table>

On the *Contract Entry page*, select the *Add a New Value* tab and press the *Add* button.

- SWIFT automatically populates the *SetID* with “SHARE”.
- Leave the *Contract ID* with the default of “NEXT.” Do not change this field. SWIFT will assign the next available number.
- On the *Contract Process Options*, ALWAYS select “Purchase Order” from the drop-down menu.
NOTE: The State of Minnesota does not use the other Contract Process Options because of State Statute 16.A.15. [www.revisor.leg.state.mn.us/statutes/?id=16a.15](http://www.revisor.leg.state.mn.us/statutes/?id=16a.15)

Step 2: Add header information to the Contract Entry page

The header is required for all contracts. It contains information that applies to the entire contract.

1. As needed, enter information in the following fields. Also, enter other fields that are needed for your specific contract or agency requirements.

Fields on the header of the Contract Entry page. Required fields are marked with an “*”.

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Field Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Status</td>
<td>This field defaults to “Open” when you first enter a new contract.</td>
</tr>
<tr>
<td>* Administrator/Buyer</td>
<td>Add the Administrator/Buyer using the drop-down menu. You can search by Buyer ID or by Name. Typically, the person entering the contract shell is the Administrator/Buyer.</td>
</tr>
<tr>
<td>* Supplier ID</td>
<td>A ten-digit identification number assigned to a supplier. You can use “Placeholdr” for APKs. Add the individual Supplier IDs on the Add/Edit Supplier link.</td>
</tr>
<tr>
<td>* Begin Date</td>
<td>Defaults to the current date. Depending upon the type of contract, you can update this field.</td>
</tr>
<tr>
<td>* Expire Date</td>
<td>The date when the contract will expire. This field is required for APKs.</td>
</tr>
<tr>
<td>Supplier Contract Ref</td>
<td>Reference to identify a supplier contract number or some other identifier by which the supplier identifies this contract. The value can be used in searching for contracts.</td>
</tr>
<tr>
<td>* Description</td>
<td>Description of the contract. This field is available on reports. Most agencies create a standard use of these fields (e.g., Fiscal Year, Project/Grant and Purpose of Contract).</td>
</tr>
<tr>
<td>* OSP Contract Release Nbr/T-Nbr</td>
<td>The OSP Contract Release Nbr/T-Nbr represents one or more contracts in related groups. It is required for APKs. You will find this number on the letter from the Office of State Procurement that approves your annual plan.</td>
</tr>
</tbody>
</table>
**Field Name** | **Field Description**
--- | ---
* Maximum Amount | Total amount that this contract should not exceed. The total released amount of all lines and the total amount for all category lines plus the amount released for open items must not exceed this amount and must be equal to this amount.
Corporate Contract | Do not check this box for an Annual Plan. It is set up for agencies to open up contracts to other agencies.

**NOTE:** After you save the contract, SWIFT displays the Add/Edit Supplier link.

2. The Add Supplier List link allows you to create one contract in SWIFT where there are multiple recipients. This link appears on Contract Entry page after selecting the Contract Type on the Add a Document page and saving the contract. Updating the suppliers is covered later in this reference guide.
Step 3: Enter information in the Purchase Order BU Defaults section

1. On the right side of the header, select the *Purchase Order BU Defaults* link. SWIFT opens the *PO Defaults* page.
   - Confirm the *Business Unit* and enter the *Origin*.
   - Your agency may wish to enter other ChartField information on this section if you want to make sure that this information is carried to all purchase orders created from this contract.

2. Scroll to the bottom of the page. Press **OK** to return to the header page.

Step 4: Enter contract lines

Contract lines are required for all contracts. They contain information about the goods or services that were approved for the purchase. You will enter contract line information on these sections: *Details* tab and the *Release Amounts* tab/*Release Quantities* tab.

1. Enter information on the *Details* tab.
   - Enter the *Description*. It is the description of the good or service being purchased on this line. On APKs, some agencies determine break out the lines by agency division. Others may use functional categories (e.g., Training).
   - Enter the *UOM*. The Unit of Measure is how the good or service is measured such as “Each,” “Case,” or “Job.”
   - Enter the *Category Code*. This code is the United Nations Standard Products and Services Code (UNSPSC). It is a global classification system of goods and services that is used for procurement.
   - Enter other information as needed.
2. Release the contract.
   - Select the Release Amounts tab.
   - Enter the Fiscal Year. You can add separate lines for different fiscal years. Make sure the description is not the same for these lines.
   - Enter the Maximum Amount for each line. The total of these lines must match the Maximum Amount listed on the header.

3. Add another line as needed.
   - If you wish to create a contract with multiple lines, press the “+” button on the right side of a line tab.
   - SWIFT displays a message about the number of rows to add. Enter a number and select OK.

   SWIFT adds another line. Complete all new lines as described earlier in this guide.

**Step 5: Enter information in the Details for Line page (as needed)**

1. On the Details tab, select the Details for Line icon for each line. It brings you to the Details for Line page.

2. On the Details for Line page, expand the fields for the Pricing Information section. Check the Price Can Be Changed on Order box (if applicable). It only works at the line level. This allows the price to be changed on purchase orders created referencing this contract.

3. Press OK to return to the contract.
4. Update all the lines as needed.
5. Save the contract shell.
   • After you have entered information in all lines, scroll to the bottom of the page and select **Save**.
   • SWIFT will update your record. It will display the **Contract ID**. The **Status** remains “Open”.

**Step 6: Enter information on the Create Document section**

The **Create Document** section is required for all contracts. It specifies the contract type.

**Office of State Procurement highly recommends electronic processing of contract documents and their signatures.** You can create separate contract documents electronically through SWIFT that are part of the contract shell. These contract documents may be agency-specific, contract boilerplates, state requirements for contracts, or other documents. Depending upon the type of document you choose, the SWIFT contract configurator will walk you through the process steps to create an electronic contract that fits the transaction. You can process the entire contract document through SWIFT, including electronic signatures.

1. To access the **Create Document page**, select the **Add a Document** button on the contract header.

2. On the **Create Document page**, select the **Document Type** of “Professional/Technical Cntrcts” for APKs.
3. SWIFT opens up fields for the “Professional/Technical Cntrcts” *Document Type*.

Enter information in the following required fields. Your agency may require other fields to be entered.

**Fields on Create Document. Required fields are marked with an asterisk (*)**.

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Field Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Additional Approver</td>
<td>Allows you to add an additional approver using the drop-down menu that lists other contract administrators.</td>
</tr>
<tr>
<td>Additional Description</td>
<td>Allows you to add an additional description. This field allows you to add descriptions that were not part of the header description since that field is limited. Check with your agency about its use.</td>
</tr>
<tr>
<td>* Administrator</td>
<td>Defaults to the Employee ID/name of the employee entering the contract. It can be updated using the drop-down menu that lists other contract administrators.</td>
</tr>
<tr>
<td>Agency Reference Field 1</td>
<td>Optional fields for each agency to determine how to use.</td>
</tr>
<tr>
<td>Configure ID</td>
<td>Provides a unique identifier for the contract documents that were created using the Configure Selector (Wizard). This option is not available for Construction Contracts, Income Contracts or Real Estate Lease Contracts.</td>
</tr>
<tr>
<td>* Contract Type</td>
<td>Select APK for Agency Annual Plan Order.</td>
</tr>
</tbody>
</table>
| * CPV Contract Indicator | Cooperative Purchasing Venture (CPV) allows eligible government entities (members) to use State of Minnesota contracts. There are three CPV Contract Indicators.  
  - AGY: Opens up this contract to others in your agency. Typically, you will choose this option for APKs.  
  - CPV: Opens up this contract to all CPV members.  
  - STW: Opens up this contract for all State agencies. |
<p>| Financial Department ID  | The Fin Dept ID represents an organizational function to which expenditures and other activities are identified. The Department ChartField classifies transactions according to a defined organizational structure. Combined with other ChartField values, Department IDs form the basis for department budgets that track revenues and expenditures. |</p>
<table>
<thead>
<tr>
<th>Field Name</th>
<th>Field Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Last Signature Date</td>
<td>Used for agencies that do not use SWIFT’s electronic signatures. It allows you to set the last date for signatures. This is important because suppliers are not allowed to start work until the date the last signature is obtained.</td>
</tr>
<tr>
<td>References MPK Contract</td>
<td>Only on the Professional/Technical Contracts and Master Work Order Document Type.</td>
</tr>
<tr>
<td>Renewals Authorized</td>
<td>Allows you to list the number of months that renewals can be authorized.</td>
</tr>
<tr>
<td>Renewals Available</td>
<td>Allows you to list the number of months that renewals are available.</td>
</tr>
<tr>
<td>Retention Not to Exceed Amount</td>
<td>Retention is holding back full payment until the contract deliverables are completely fulfilled. Retention is required for some P/T contracts.</td>
</tr>
<tr>
<td>* Sourcing Method</td>
<td>Select “Other” for APKs.</td>
</tr>
<tr>
<td>Contract Manager</td>
<td>Agency person responsible for signing the contract. Important for e-Signatures.</td>
</tr>
<tr>
<td>Sponsor</td>
<td>Project or contract sponsor. Can be a name, position, division, agency or other sponsor.</td>
</tr>
</tbody>
</table>

4. Typically, you will add the Administrator, CPV Indicator, Contract Type, Sourcing Method, and Contract Manager.

5. Add the Statement of Purpose. Select the Statement of Purpose link.

IMPORTANT: This field is open to the public on the Transparency MN website. Write a clear, concise, and easy to understand Statement of Purpose of the contract.
6. Select **OK** to go back to **Add a Document** page.

7. Press **Save** at the bottom of the page.

8. After you have entered the document, press the **Return to Contract Entry** link at the top of the page.

The **Add Supplier List** link now appears on the page. The Add Supplier List link allows you to create one contract in SWIFT where there are multiple recipients. This link appears on Contract Entry page after selecting the Contract Type on the Add a Document page and saving the contract.

9. On the header, update the Status from “Open” to “Approved.”

An “Approved” status allows the contract to be used for releases (e.g., purchase orders). Do not set a contract status to “Approved” until it is fully executed.

You have successfully entered an Annual Plan contract shell into SWIFT.
Steps to Update the Supplier List on an Annual Plan Contract

Steps to Complete

- Step 1: Navigate to the existing Annual Plan Contract (APK) shell
- Step 2: Update the Supplier List on the APK

Step 1: Navigate to the existing Annual Plan Contract shell

<table>
<thead>
<tr>
<th>Navigation Options</th>
<th>Navigation Path</th>
</tr>
</thead>
<tbody>
<tr>
<td>Navigation Collection</td>
<td>Procurement, Supplier Contract, Create Contracts and Documents, Contract Entry page defaults.</td>
</tr>
</tbody>
</table>

- In the Contract ID, enter the ID of the APK.
- Press Search.
- In the Search Results, press the Contract ID of the APK from the list.

Step 2: Update the Supplier List on the Annual Plan Contract shell

- On the header, select the Add Supplier List link. **NOTE:** SWIFT will change the link title Edit Supplier List after you have entered some suppliers to it.

- For each supplier you wish to reference on this contract, enter the Supplier ID and Supplier Location. If your agency requires, you can also add the Maximum Amount and Agency Reference. Select OK.
To add new suppliers, select the Add a New Row (e.g., plus sign) icon. SWIFT displays a new row. Enter the Supplier ID on the new row. Enter the Supplier Location and select OK.

You can click the View All link to verify that a supplier is on this APK. The next step is to create a purchase order using the suppliers from the Supplier List.

You have successfully updated the Supplier List on the Annual Plan Contract.
