AUDITOR PRINCIPAL, SUPERVISOR

KIND OF WORK

Supervisory, fourth-level professional auditing work.

NATURE AND PURPOSE

Under administrative direction, supervises and performs the most difficult and/or sensitive internal and/or external financial, compliance, operations management performance, information systems or investigative audits or reviews of the activities, controls, records and business systems of governmental agencies/programs, health care facilities, companies and/or other entities and supervises, guides & reviews the work of other advanced-level auditors to ensure: financial records & reports conform to generally-accepted accounting principles (GAAP); audits conform to generally-accepted auditing standards (GAAS) and government audit standards (GAS); proper controls and reporting procedures are in effect; and compliance with state and federal laws and rules. Performs related work as required.

Audit activities may include traditional financial/compliance audits, management/performance audits, internal control assessments, consulting services, and investigative/special reviews. This position is also responsible for reporting the results of audit activities to management on a periodic basis. Positions provide independent, objective assurance and advice to management on issues and operations that present material risk to financial operations within divisions and entity-wide operations.

Positions plan, organize, schedule, assign, direct and review the work of auditors, train and evaluate staff and have the authority to undertake or effectively recommend a majority of the 10 PELRA supervisory functions defined in MS 179A.03 Subd. 17. In addition to supervisory responsibility, the scope of responsibilities and complexity of the audit programs and issues encountered are important allocation considerations to this class.

Positions provide advice & consultation services to senior management and Chief Financial Officers and are expected to effectively recommend & implement corrective actions as directed by the Audit Director, Audit Manager or senior executive staff. Job holders possess deep technical expertise.

This class represents the second-highest supervisory class in the Auditor-series. This class differs from Auditor Senior, Supervisor in that the work involves the most difficult financial, operations and compliance audits and positions have increased responsibility to plan, develop, and execute audit programs and resolve complex and sensitive audit issues. Positions may direct/supervise the work of Senior and Principal advanced-level audit staff, to include supervisory staff. This class differs from Audit Director in that Directors oversee audits/reviews of larger/more complex programs, direct a large number of advanced-level audit staff, and have greater involvement with agency senior & executive-level management in determining audit/review topics & scope and evaluating recommendations and representing the agency to external entities.
Positions typically report to an Audit Director, Agency Internal Audit Manager or to agency executive-level staff charged with oversight of the CFO and senior-level management.

The level of a particular position in a classification series is based on a combination of factors not always present in class specifications. Among these factors are the position’s responsibilities within the overall program/operation and its relationship to others in a unit, department and/or state service as a whole.

EXAMPLES OF WORK
(A position may not include all the work examples given, nor does the list include all that may be assigned.)

Plans, organizes, assigns, directs & evaluates the work of audit staff, to include writing & revising position descriptions; hiring & training staff; monitoring the quality, quantity & timeliness of their work and evaluating their performance; providing problem-solving assistance and advice/guidance regarding interpretation and application of professional standards.

Assesses the training & development needs of staff; coaches & trains staff; arranges for and participates in training seminars and monitors employee completion of continuing professional education requirements.

Plans and schedules audits and reviews to ensure audits are conducted in an effective, efficient and professional manner by developing an understanding of the business areas under review; reviewing changes in applicable regulations; determining or effectively recommending the objective(s), scope and approach to be used; developing new or modified procedures to meet special audit or review needs; meeting with the auditee to discuss concerns/anticipated difficulties and ways to enhance the audit’s efficiency; and developing a detailed work plan, budget and timetable.

Performs, directs or oversees the execution of audits & reviews to ensure they meet objectives, are completed efficiently and within budget and on time by monitoring the progress of audits/reviews and adjusting the work plan, timetable and staffing level as needed; leading entrance & exit conferences; employing computer-assisted audit techniques wherever feasible & appropriate to improve the effectiveness & efficiency of audits; providing guidance & oversight to audit staff and assessing, directing and evaluating their work; providing problem-solving assistance as needed; and documenting audit work performed.

Prepares, edits or reviews & approves final drafts of audit/review reports to ensure audit/review objectives, scope & approach are clearly stated; audit evidence is complete, organized and supports findings; opinions & recommendation are appropriate; and reports are well-written and meet agency and professional standards by reviewing and editing draft reports as necessary and presenting audit/review findings and recommendations to agency and audited entity management. Performs follow-up reviews to determine progress or status of corrective actions.

interprets audit results to administrators of the audited program during exit conferences to inform them of the audit analysis of the financial statement, effectiveness of administrative controls, and additional training needed by scheduling a conference, advising and making
recommendations on financial and management practices, and supplying data needed to comply with federal and state laws.

Reviews and evaluates permanent audit files during and upon completion of the audit/review to ensure that they provide accurate & useful data and include internal control information by developing new files, and reviewing files developed/updated by audit staff members.

Testifies in litigation to ensure factual data is accurately compiled and presented by researching and analyzing financial data, cost reports, related cases, applicable rule provisions, and writing reports to be used by the Attorney General's Office in litigation.

Evaluates and recommends modifications to computer systems to ensure that adequate controls are included by selecting databases to audit and analyzing systems reports for accuracy and errors.

Composes press releases for review and approval by management; assists with legislative presentations and/or requests for information.

Coordinates investigations resulting from allegations, complaints and/or special reviews. Has unrestricted access to all agency activities, records, systems, property, and personnel. Develops communication channels to encourage and facilitate reporting from internal or external sources. Conducts investigations, documents evidence and reports results to executive management.
