Confirm your dentist is in network for 2021

Dental is not open during this Open Enrollment and you cannot change your dental plan carrier.

However, dental networks change throughout the year and it is important to verify your dentist will remain in-network for 2021. Access the provider directory for dental carriers at mn.gov/mmb/segip and select the “2021 Open Enrollment” tab. You can also call your carrier’s customer service phone number for the most up-to-date information throughout the year.
