

## 2025 FEWD Monthly Plan Rates

As a former employee with a disability, you pay the full cost of health coverage for yourself and your eligible family members. Because you are covered by one of the state's group contracts, you receive the benefit of lower group rates for high-quality plans with low out-of-pocket maximums. This makes your health coverage more affordable than if you were to purchase similar coverage on your own.

If you decide to enroll with a different plan administrator or change from individual to family coverage, you will receive a new bill for January.
