The overview included a high level presentation of the statewide requirements for agency risk assessment, a side-by-side review of existing and updated language (same requirements with increased support in the Risk Assessment Toolbox!), and a step-by-step tutorial on how to use the Agency Risk Assessment Worksheet. Initial 2018 Annual Internal Control System Certification deadlines were announced for executive branch agencies required to submit risk assessment plans to MMB. The following written documents were provided to meeting attendees:

- MMB Statewide Operating Procedure, 0102-01.2, Agency Risk Assessment - Updated
- Agency Risk Assessment Worksheet: Risk Factors - Handout
- Agency Risk Assessment Procedure Comparison - Handout
- 2018 Annual Internal Control System certification preliminary timeline

The ICA Unit continues to appreciate the feedback provided by agencies and has made specific changes to the 2018 Risk Assessment submission timeline and the Agency Risk Assessment Worksheet to break the procedure into manageable steps and to simplify the Worksheet. Additional training (in various formats) and individual agency assistance to support agency risk assessment is planned.

Mike walked through the 2018 Annual Internal Control System certification preliminary timeline of events and deadlines.
Open Forum Topics:

- Members posed questions and initiated discussion about the 2018 Annual Internal Control System certification and the Risk Assessment Toolbox. Please contact ICA Director (651-201-8119 or Angelina.M.Barnes@state.mn.us), if you have questions, feedback or wish to discuss agency specific circumstances. The ICA Unit looks forward to hearing how we can help your agency strengthen its system of internal control.
