Minnesota Comparison of Budget and Actual Revenues, Expenditures and Changes in Fund Balances

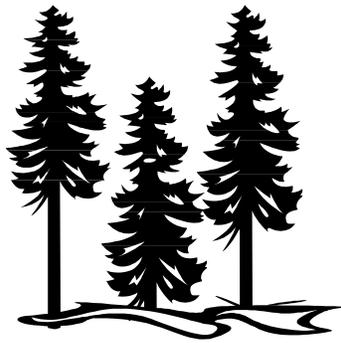

**Supplement to the
Comprehensive Annual Financial Report**

**Legal Level of Budgetary Control
All Budgeted Funds**

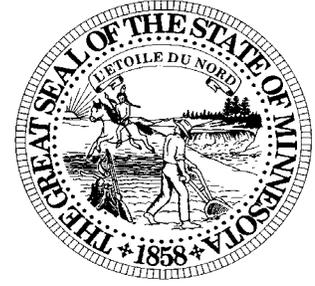

For the Year Ended June 30, 2002

L'Etoile du Nord

Minnesota

INTRODUCTION

This report is prepared as a supplement to the State of Minnesota Comprehensive Annual Financial Report (CAFR) prepared by the Department of Finance. The Department of Finance is responsible for the accuracy and completeness of the CAFR, as well as this report.

Generally accepted accounting principles require budgetary reporting at the legal level of control. As a supplement to the CAFR, this report provides the required level of detail in budgetary reporting.

The schedules included provide a more detailed version of the budget and actual statements included in the state's CAFR. The purpose is to demonstrate that spending by state agencies was within the authorized limits and in compliance with appropriation laws.

The detail provided is at the legal level of budgetary control, which is the level beyond which agency heads have no authority to further modify the budget. In many cases agencies have authority to modify budgets by spending dedicated receipts, moving amounts between fiscal years or moving budgeted amounts from one program to another. Where an agency has the authority to transfer budgeted amounts between programs, the legal level of control is defined to be the aggregate of the budgets for those programs.

SCOPE

The scope of this report covers only those funds for which annual spending limits are established in law. The following funds are included:

General Fund

Special Revenue Funds:

State Government

Trunk Highway

Highway User Tax Distribution

State Airports

Health Care Access

Special Compensation

Minnesota Resources

Natural Resources

Game and Fish

Environmental

Solid Waste

The State Government Fund is not reported as a separate fund in the CAFR but is split and reported as a part of funds where other similar activity is reported.

BASIS

This report is prepared on the budgetary basis of accounting. The budgetary basis is essentially a cash basis of accounting except that encumbrances at year-end are recognized as expenditures of the year appropriated. However, encumbrances associated with ongoing appropriations are not recognized as expenditures.

The summary of reporting policies preceding the statements explains the basis for the budget amounts, budget adjustments, and actual amounts in the statements. Other information common to all funds and necessary to an understanding of the reported statements is also presented in the summary. The notes presented with each fund provide additional information unique to that fund.

This report follows closely other budget reports prepared by the Department of Finance. However, because of its different purpose, timing, and level of detail, there are necessarily some differences between the General Fund statement and the June 2002 Fund Balance Analysis Report prepared by the Department of Finance. These differences are explained in the notes to the General Fund statement.

AUDIT

This report is prepared as a part of the state's Comprehensive Annual Financial Report and as such is included in the scope of the audit of that report by the Office of the Legislative Auditor. Their opinion on this report is included.

Independent Auditor's Report

Members of the Legislature

The Honorable Jesse Ventura, Governor

Ms. Anne Barry, Acting Commissioner, Department of Finance

We have audited the basic financial statements of the State of Minnesota as of and for the year ended June 30, 2002, and have issued our report thereon dated December 6, 2002. These basic financial statements are the responsibility of the state's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary Schedules of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual-Budgetary Basis (and notes), as listed in the Table of Contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The information in these schedules had been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

James R. Nobles
Legislative Auditor

Claudia J. Gudvangen, CPA
Deputy Legislative Auditor

December 6, 2002

SUMMARY OF REPORTING POLICIES

General policies followed in preparing this report are discussed below.

BUDGET

Revenues

Original and Adjusted budget amounts:

Revenues and transfers-in budget amounts are the latest resource estimates used in determining allowable spending. In some cases, primarily the General Fund, these amounts were used in determining the amount available for appropriation by the 2002 Legislature. For the General Fund, these amounts are, primarily, from the June 15, 2002 Fund Balance Analysis Report prepared by the Department of Finance. For other funds, the amount is the relevant agency's estimate of resources, made at the same point that expenditures were last estimated prior to year-end.

Revenue categories included are those used in the Consolidated Fund Statement budgetary basis report. The categories used are not consistent across funds because revenues are not estimated at the same level of detail for all revenue categories in all funds. For example, revenues for the General Fund do not include specific estimates for federal revenues or license fees even though such revenues are received. The special revenue funds do include revenue budgets for these revenue categories, as they are more significant to those funds.

Adjustments to revenue budgets:

In the Highway User Tax Distribution Fund, what is received as revenue determines the spending limit. In this instance, the original revenue estimates do not reflect final authority to spend or transfer out. Authorized adjustments to initial revenue budgets were made for purposes of this report to reflect the adequacy of final revenue over authorized spending and therefore a planned-for balanced budget.

Expenditures

Original budget amounts:

The original expenditure budget amounts, except for open appropriations, are made up of the amount specified in appropriation laws, including actual appropriation amounts automatically carried over from previous years, subsequent appropriations for the same purpose and any other legally authorized legislative or executive changes before the *beginning* of the fiscal year. For open appropriations, amounts actually spent are used because the law authorizes spending whatever is necessary to fulfill the obligation.

Adjusted budget amounts:

The adjusted expenditure budget amounts, except for open appropriations, are made up of the amount specified in appropriation laws, including subsequent appropriations for the same purpose and any other legally authorized or executive changes made *during* the fiscal year. For open appropriations, amounts actually spent are used because the law authorizes spending whatever is necessary to fulfill the obligation.

Adjustments to expenditure budgets:

The adjusted budget is adjusted to reflect changes to the appropriated amounts as permitted (or required) in statute or appropriation laws. Budget adjustment amounts are primarily for the following:

Appropriation amounts for current year authorized to be carried forward to fiscal year 2003, or appropriations for fiscal year 2001 that were available for, and used in, fiscal year 2002.

Transfers between programs, as authorized.

Actual dedicated receipts available to fund expenditures, encumbrances and transfers.

ACTUAL

Actual revenues and transfers-in are those attributable to fiscal year 2002. This primarily represents the amount received during the fiscal year, net of refunds. In some instances, usually for dedicated revenues, amounts received after year-end may be included if they relate to fiscal year 2002.

Actual expenditures include disbursements and encumbrances for fiscal year 2002. The only instance where encumbrances are not included in expenditure amounts is in the Trunk Highway Fund in ongoing appropriation accounts (appropriation type 2). These encumbrances were not included since they may not be liquidated for several years.

Actual transfers-out are transfers to other funds or to component units for 2002, including any made after June 30, 2002. These transfer-out amounts are included as a part of expenditure amounts for each legal level of control, indicating the uses of budgeted amounts.

VARIANCES

Revenues and transfers-in variances merely represent the differences between the forecast of revenues to be received and what was actually received.

Expenditure and transfer-out variances are the primary focus of this report, especially negative variances. Such variances would represent spending in excess of that allowed in law and would be explained in fund notes if significant. Spending did not exceed authorized limits in fiscal year 2002.

NOTE

1. Total budgeted revenues and expenditures on this report differ from those on the Fund Balance Analysis (FBA), which is also prepared by the Department of Finance. This is because certain reimbursements from other funds are included on this Legal Level of Control Report that are eliminated on the FBA. The reimbursements from the other funds for statewide indirect costs are eliminated from both revenues and expenditures on the FBA but included on this report. This inclusion permits recognition of total appropriation and expenditures for those staff and other agencies whose expenditures are being reimbursed. This difference has no effect on the fund balance.
2. The General Fund budget amounts in this report differ from those on the June 2002 FBA. There are several reasons for this, primarily:
 - a. On the FBA, open appropriations are based on estimates. However, since this report measures the authority to spend after fiscal closing, we include as budget the amount actually needed for the program. This is the legal limit on spending for these programs.

STATE OF MINNESOTA

**GENERAL FUND
SCHEDULE OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL
BUDGETARY BASIS
YEAR ENDED JUNE 30, 2002
(IN THOUSANDS)**

- b. Other estimates are used in the FBA to better forecast ending fund balance. These estimates (if any) may differ from the legal authority presented in this report.
 - c. The FBA includes the same estimated amounts for both revenues and expenditures related to those revenues. On this report we have included, as authorized adjustments to expenditure budgets, the actual dedicated revenues received. This is the legal limit on spending related to these revenues.
 - d. On the FBA, appropriations are reported in the fiscal year stated in law. However, in certain cases the legislature has made annual appropriations available for either year of the biennium. In such instances, this report excludes any unused budgeted amounts for fiscal year 2002; forwarding the budget authority to fiscal year 2003.
3. The Change in Fund Structure represents the portion of the Fund Balance reported at June 30, 2001 which was attributable to the State Colleges and Universities. The State Colleges and Universities are now reported as a Business Type Activity and are no longer reported in this report.
4. In the Comprehensive Annual Financial Report (CAFR), the General Fund includes the direct appropriated portion of the State Government Fund, which is included as a separate fund in this report (see also note on page 24). The differences in budgeted and actual fund balances between the CAFR and this report are the result of this combining activity. A reconciliation of the actual undesignated fund balances is as follows (in thousands):

Legal Level of Budgetary Control Report:

General Fund	\$ 660,245
State Government Fund	<u>14,570</u>
