

NATIONAL PAYROLL WEEK2026

National Payroll Week is September 7-11

National Payroll Week happens the week of Labor Day each year to honor the essential work of payroll professionals. Knowing the pay they earn will be deposited reliably in their bank account, employees can focus on providing needed services to the people and communities they serve.

This week, the Statewide Payroll Services team at MMB proudly recognizes the people who keep our pay rolling.

Through their expertise and commitment, payroll teams throughout Minnesota state government ensure that approximately 60,000 state employees are paid accurately, reliably, and on schedule every two weeks. Their efforts make paydays smooth and efficient and are appreciated by everyone who receives a paycheck!
