Increase Working Family Credit

This item makes changes to increase the working family credit by eliminating the current two-tier structure, increasing the percentage of income used to calculate the credit, modifying the phase-out rates, and updating the inflation adjustment. The changes to the working family credit will align it with income level phase-outs of the federal earned income credit for tax year 2013 and beyond. [Ch. 150]

Income Tax and PTR Interactions From Aid and Credit Changes

This change shows the income tax and property tax refund impact of the local aid changes made by the 2014 legislature. When a change is made to the aid the state pays to a local unit of government it is assumed that a portion of that change will impact the property tax amount a local unit of government chooses to levy, which in turn will impact the property tax liability, income tax deduction and state paid property tax refund for individual taxpayers. Board of School Administrators Operating Increase

This item provides an ongoing funding increase to the Board of School Administrators (BOSA), which is facing a budget shortfall in FY 2015. BOSA has eliminated two staff positions in order to address the shortfall, but is experiencing increased costs associated with its responsibilities related to licensure of school administrators, approving professional preparation and development programs, and ethics investigations. This funding will allow BOSA to regain the staff positions (1.1 FTE) and continue to fulfill its statutory duties. [Ch 312]

Health Care Payment Modernization

This enacted provision instructs the Department of Human Services to upgrade its payment system for Medical Assistance inpatient hospital services, in preparation for a federally-required change in diagnosis and procedure coding scheduled to take effect in October 2015. This upgrade will involve updating the rates paid for services to reflect developments that have occurred since the last update in 2007, including changes in treatment patterns, use of technology, and patient case mixes. Background Study Enhancements

This item allows the agency to replace their current electronic background study system and associated processes with a new, NETStudy 2.0 system no later than September 1st, 2015. The new electronic background study system will be used to enhance the screening process for individuals who have contact with children and vulnerable adults. These changes are budget neutral to the state in the current biennium due to the federal funding for the project, but will require a re-evaluation of fees charged in future years. [Ch. 250]

Correctional Employee Retirement Plan Changes

This item makes changes related to Correctional Employee Retirement Plan (CERP) in DHS. The bill allows employees currently working at DHS's Cambridge facility to remain in the Correctional Employee Retirement Plan (CERP) after that facility converts to community-based homes. A clarification that "State Operating Forensics Services Program" includes all buildings on the St. Peter campus is also included, as well as an addition of a new job class available for use at Minnesota Security Hospital and Minnesota Sex Offender Program. These changes are not anticipated to have an immediate fiscal impact on DHS programs, but will allow DHS to use existing resources in new ways. [Ch. 296]

Community Addiction Recovery Enterprise Deficiency Funding Request

This item provides bridge funding for a state operated program serving individuals with chemical dependencies, given an ongoing structural deficit in its enterprise fund. The Community Addiction Recovery Enterprise (C.A.R.E.) program provides inpatient and outpatient chemical dependency and substance abuse services in facilities located throughout the state. \$2 million of General Fund resources are appropriated to cover the program's projected FY2014-15 shortfall. DHS will augment these resources by repurposing \$8 million in current resources from chemical dependency administrative funds. DHS is also charged with developing a plan to stabilize future funding for the program. [Ch. 312]

Medical Cannabis

This item provides funding for the Minnesota Department of Health to establish and operate a medical cannabis registry program, and to prepare an impact assessment of medical cannabis therapeutic research and report the results to the legislature. A patient enrollment fee of \$200 (\$50 for low income patients) and a \$20,000 cannabis manufacturer fee are established. The legislation also authorizes MDH to collect an annual fee from manufacturers equal to the costs incurred by the agency to regulate these entities. Cannabis manufactures may also charge patients reasonable fees associated with their operations. [Ch. 311]

Snow and Ice Removal

This is a one-time appropriation to offset the unusually high costs of snow and ice removal this past winter. High snow and ice removal costs in the winter results in less money for routine maintenance in the summer. This appropriation will allow DOT to address the higher than average maintenance costs resulting from the severe winter weather.

Motorized Bicycle Operator Permit

This item will streamline the permit process for motorized bicycle operators permits by eliminating the current permit fee (\$6.75), the duplicate fee (\$3.75), and the annual renewal fee (\$9.75), and replace it with a single permit fee of \$9.75, which would be valid until the operator is 21. This would eliminate the need for renewals, and simplify the process for license agents. Since most permit holders don't renew now (once they have their drivers license they can legally operate a motorized bicycle), a small amount of revenue will be realized from the \$3 difference between the old permit fee (\$6.75) and the new permit fee (\$9.75). DPS estimates this revenue will amount to about \$450 per year.
