

The Minnesota State Employees' Combined Charities Campaign is a charitable giving campaign planned and implemented by State of Minnesota employees. The Campaign is established by statute and is available only to state employees. Our annual Campaign funding drive each October raises about \$1,000,000 for health, education, environmental, arts, and social service programs. As a new state employee, you can join with thousands of your co-workers to support local and statewide charities. Funds raised from the campaign help support worthwhile efforts in your hometown and elsewhere throughout the state.

- Your tax deductible contribution can be made to any of our approved charitable organizations as a one-time contribution or through payroll deduction.
- State employees can choose from over 1,400 charities representing a wide variety of health, education, environmental, arts, and social service programs from across Minnesota.
- Combined Charities Campaign has raised more than \$20,000,000 for Minnesota charities.
- Your support can impact individuals in need as well as positively impacting our community and state.
- Payroll deduction is the most convenient way of giving, and it reduces the administrative costs for the charities.

Visit the Campaign's website at <https://mn.gov/mmb/combined-charities/> for more information about the Minnesota State Employees' Combined Charities Campaign and the participating charitable federations.
