FOREWORD

The following compilation of major **Federal** statutes under which national programs of vocational rehabilitation are conducted has been prepared by the Subcommittee on the Handicapped of the Committee on Labor and Human Resources. The compilation includes the Rehabilitation Act of 1973 (Public Law 93-112), as amended by the Rehabilitation Act Amendments of 1974 (Public Law 93-516), Developmental Disabilities Services and Facilities construction Act (Public Law 88-164), as amended by the Developmentally Disabled Assistance and Bill of Rights Act of 1975 (Public Law 94-103), and the Rehabilitation, Comprehensive Services and Developmental Disabilities Amendments of 1978 (Public Law 95-602).

This compilation of vocational rehabilitation legislation is expected to be a tool for the legislative review of both the Rehabilitation Act and the Developmental Disabilities Act. In view of the new **programmatic** thrusts which have been authorized by the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 (Public Law 95-602), I believe it is timely and helpful to make this compilation available in a **concise** form to all persons who are interested in the delivery of services to handicapped individuals.

*Chairman, Committee on
Labor and Human Resources.*

LETTER OF TRANSMITTAL

U.S. SENATE,
COMMITTEE ON LABOR AND HUMAN RESOURCES,
Washington, D.C., March 21, 1979.

HON. HARRISON A. WILLIAMS, JR.,
*Chairman, Senate Committee on Labor and Human Resources,
Dirksen Senate Office Building, Washington, D.C.*

DEAR MR. CHAIRMAN: It is a privilege to transmit a compilation of two laws: the Rehabilitation Act of 1973 (Public Law 93-112), as amended by Public Law 93-516 (the Rehabilitation Act Amendments of 1974), Public Law 94-230 (the Rehabilitation Act Extension of 1976), Public Law 94-288, and Public Law 95-602 (the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978; and the Mental Retardation Facilities and Community Health Centers Construction Act of 1963, as amended by Public Law 90-170 (the Mental Retardation Amendments of 1967) Public Law 91-517 (the Developmental Disabilities Services and Facilities Construction Amendments of 1970), Public Law 94-103 (Developmentally Disabled Assistance and Bill of Rights Act) and Public Law 95-602 (the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978).

It is my belief that the publication of this document should be helpful to Members of Congress, their staffs, and persons and organizations interested in services to handicapped individuals.

With its mandate on oversight responsibility, it is incumbent on the Congress to monitor carefully the implementation of the new program thrusts initiated by Public Law 95-602. This compilation can be a valuable reference and will be most useful to those who are charged with the implementation of the Rehabilitation, Comprehensive Services and Developmental Disabilities Amendments of 1978. It is my sincere hope that these two laws be published in a committee print.

With warm personal regards, I am

Truly,

JENNINGS RANDOLPH,
Chairman, Subcommittee on the Handicapped.

HISTORICAL NOTE

The first **nonmilitary** vocational rehabilitation legislation, the National Civilian Vocational Rehabilitation Act (Public Law 66-236, 41 Stat. 735), also known as the Smith-Fess Act, became law on June 2, 1920. Minor amendments were enacted in 1924 (43 Stat. 431); 1930 (46 Stat. 524); and 1932 (47 Stat. 488).

Major revisions were adopted in 1943 (Public Law 78-113, 57 Stat. 374), and in 1954 (Public Law 83-565, 68 Stat. 652), when the Act became **known** as the Vocational Rehabilitation Act. Further amendments were adopted in 1956 (Public Law 84-937, 70 Stat. 956); in 1957 (Public Law 85-198, 71 Stat. 473, and Public Law 85-213, 71 Stat. 488); in 1959 (Public Law 86-70, 73 Stat. 147); in 1960 (Public Law 86-624, 74 Stat. 416); in 1965 (Public Law 89-333, 79 Stat. 1282); in 1967 (Public Law 90-99, 81 Stat. 250); in 1968 (Public Law 90-391, 82 Stat. 298); and in 1970 (Public Law 91-610, 84 Stat. 1817).

The Rehabilitation Act of 1973 (Public Law 93-112, 87 Stat. 355) became law on September 26, 1973. It comprised a total legislative revamping of the Federal-State rehabilitation **program**.

On December 7, 1974, the Act was amended by the Rehabilitation Act Amendments of 1974 (Public Law 93-516, 88 Stat. 1617).

The Rehabilitation Act Extension of 1976, Public Law 94-230, extended the act for 1 year, with a contingency extension of an additional year. On May 21, 1976, the act was again amended by Public Law 94-288, which provided that the center for deaf-blind youths and adults should be named the Helen Keller National Center for Deaf-Blind Youths and Adults.

On November 6, 1978, the act was amended by Public Law 95-602, the Rehabilitation, Comprehensive services and Developmental Disabilities Amendments of 1978, which established major new **program** thrusts in **pilot employment** projects, comprehensive services for independent living, special service programs for deaf individuals, blind individuals, and handicapped American Indians. In addition, Public Law 95-602 established the National Institute of Handicapped Research and the National Council on the Handicapped as well as strengthening the protections afforded handicapped individuals under title V of the act.

The Mental Retardation Facilities and Community Mental Health Center Construction Act of 1963, Public Law 88-164, was enacted on October 31, 1963. Public Law 90-170, the Mental Retardation Amendments, enacted on December 4, 1967, extended the progress established by Public Law 88-164. Major revisions were made in Public Law 91-517, the Developmental Disabilities Services and Facilities construction Amendments of 1970, which replaced the old authority with a broad, new Federal-State grant-in-aid program. On October 4, 1975, this legislation was amended by Public Law 94-103, the Developmentally Disabled Assistance and Bill of Rights Act.

VIII

Public Law 95-602 made significant changes to Public Law 88-164, as amended, in the definition of developmental disability by changing the eligibility criteria from categorical to functional criteria and by requiring States to target resources in specified service areas.

DECLARATION OF PURPOSE

SEC. 2. The purpose of this Act is to develop and implement, through research, training, services, and the guarantee of equal opportunity, comprehensive and coordinated programs of vocational rehabilitation and independent living.

REHABILITATION SERVICES ADMINISTRATION

SEC. 3. (a) There is established in the Office of the Secretary a Rehabilitation Services Administration which shall be headed by a Commissioner (hereinafter in this Act referred to as the "Commissioner") appointed by the President by and with the advice and consent of the Senate. Except for titles IV and V and Part A of title VI and as otherwise specifically provided in this Act, such Administration shall be the principal agency, and the Commissioner shall be the principal officer, of such Department for carrying out this Act. In the performance of his functions, the Commissioner shall be directly responsible to the Secretary or to the Under Secretary or an appropriate Assistant Secretary of such Department, as designated by the Secretary. The functions of the Commissioner shall not be delegated to any officer not directly responsible, both with respect to program operation and administration, to the Commissioner. Any reference in this Act to duties to be carried out by the Commissioner shall be considered to be a reference to duties to be carried out by the Secretary acting through the Commissioner. In carrying out any of his functions under this Act, the Commissioner shall be guided by general policies of the National Council on the Handicapped established under Title IV of this Act.

(b) The Secretary shall take whatever action is necessary to insure that funds appropriated pursuant to this Act, as well as unexpended appropriations for carrying out the Vocational Rehabilitation Act (29 U.S.C. 31-42), are expended only for the programs, personnel, and administration of programs carried out under this Act.

ADVANCE FUNDING

SEC. 4. (a) For the purpose of affording adequate notice of funding available under this Act, appropriations under this Act are authorized to be included in the appropriation Act for the fiscal year preceding the fiscal year for which they are available for obligation.

(b) In order to effect a transition to the advance funding method of timing appropriation action, the authority provided by subsection (a) of this section shall apply notwithstanding that its initial application will result in the enactment in the same year (whether in the same appropriation Act or otherwise) of two separate appropriations, one for the then current fiscal year and one for the succeeding fiscal year.

JOINT FUNDING

SEC. 5. Pursuant to regulations prescribed by the President, and to the extent consistent with the other provisions of this Act, where funds are provided for a single project, by more than one Federal agency to an agency or organization assisted under this Act, the Federal agency principally involved may be designated to act for all in administering the funds provided, and, in such cases, a single non-Federal share requirement may be established according to the proportion of funds advanced by each agency. When the principal agency involved is the Rehabilitation Services Administration, it may waive any grant or contract requirement (as defined by such regulations) under or pursuant to any law other than this Act, which requirement is inconsistent with the similar requirements of the administering agency under or pursuant to this Act.

CONSOLIDATED REHABILITATION PLAN

SEC. 6. (a) In order to secure increased flexibility to respond to the varying needs and local conditions within the State, and in order to permit more effective and interrelated planning and operation of its rehabilitation programs, the State may submit a consolidated rehabilitation plan which includes the State's plan under section 101(a) of this Act and its program for persons with developmental disabilities under the Development Disabilities Services and Facilities Construction Amendments of 1970: Provided, That the agency administering such State's program under such Act concurs in the submission of such a consolidated rehabilitation plan.

(b) Such a consolidated rehabilitation plan must comply with, and be administered in accordance with, all the requirements of this Act and the Developmental Disabilities Services and Facilities Construction Amendments of 1970. If the Secretary finds that all such requirements are satisfied, he may approve the plan to serve in all respects as the substitute for the separate plans which would otherwise be re-

quired with **respect to** each of the programs included therein, or **he** may advise the State to submit separate **plans for** such programs.

(c) Findings of noncompliance in the administration of an approved consolidated rehabilitation plan, and any reduction, suspensions, or terminations of assistance as a result thereof, shall be carried out in accordance with the procedures set **forth** in subsection (c) and (d) of section 101 of this Act.

to provide services to handicapped individuals, and may waive compliance with respect to vocational rehabilitation services furnished under such programs with the requirement of clause (4) of this subsection that the plan be in effect in all political subdivisions of that State;

(B) provide that the State agency so designated to administer or supervise the administration of the State plan, or (if there are two State agencies designated under subclause (A) of this clause) to supervise or administer the part of the State plan that does not relate to services for the blind, shall be (i) a State agency primarily concerned with vocational rehabilitation, or vocational and other rehabilitation, of handicapped individuals, (ii) the State agency administering or supervising the administration of education or vocational education in the State, or (iii) a State agency which includes at least two other major organizational units each of which administers one or more of the major public education, public health, public welfare, or labor programs of the State;

(3) provide for financial participation by the State, or if the State so elects, by the State and local agencies to meet the amount of the non-Federal share;

(4) provide that the plan shall be in effect in all political subdivisions, except that in the case of any activity which, in the judgment of the Commissioner, is likely to assist in promoting the vocational rehabilitation of substantially larger numbers of handicapped individuals or groups of handicapped individuals the Commissioner may waive compliance with the requirement herein that the plan be in effect in all

political subdivisions of the State to the extent and for such period as may be provided in accordance with regulations prescribed by him, but only if the non-Federal share of the cost of such vocational rehabilitation services is met from funds made available by a local agency (including, to the extent permitted by such regulations, funds contributed to such agency by a private agency, organization, or individual);

(5) (A) contain the plans, policies, and methods to be followed in carrying out the State plan and in its administration and supervision, including a description of the method to be used to expand and improve services to handicapped individuals with the most severe handicaps and a description of the method to be used to utilize existing rehabilitation facilities to the maximum extent feasible; and, in the event that vocational rehabilitation services cannot be provided to all eligible handicapped individuals who apply for such services, show (i) the order to be followed in selecting individuals to whom vocational rehabilitation services will be provided and (ii) the outcomes and service goals and the time within which they may be achieved, for the rehabilitation of such individuals, which order of selection for the provision of vocational rehabilitation services shall be determined on the basis of serving first those individuals with the most severe handicaps and shall be consistent with priorities in such order of selection so determined, and outcome and service goals for serving handicapped individuals, established in regulations prescribed by the Commissioner; and

(B) provide satisfactory assurances to the Commissioner that the State has studied and considered a broad variety of means for providing services to individuals with the most severe handicaps;

(8) provide, at a minimum, for the provision of the vocational rehabilitation services specified in clauses (1) through (3) of subsection (a) of section 103, and the remainder of such services specified in such section after full consideration of eligibility for similar benefits under any other program, except that, in the case of the vocational rehabilitation services specified in clauses (4) and (5) of subsection (a) of such section, such consideration shall not be required where it would delay the provision of such services to any individual;

(9) provide that (A) an individualized written rehabilitation program meeting the requirements of section 102 will be developed for each handicapped individual eligible for vocational rehabilitation services under this Act, (B) such services will be provided under the plan in accordance with such program, and (C) records of the characteristics of each applicant will be kept, specifying, as to those individuals who apply for services under this title and are determined not to be eligible therefor, the reasons for such determinations in such detail as required by the Commissioner in order for him to analyze and evaluate annually the reasons for and numbers of such ineligibility determinations as part of his responsibilities under section 13, and that the State agency will at least annually categorize and analyze such reasons and numbers and report this information to the Commissioner and will, not later than 12 months after each such determination, review each such ineligibility determination in accordance with the criteria set forth in section 102;

(10) provide that the State agency will make such reports in such form, containing such information (including the data described in subclause (C) of clause (9) of this subsection, periodic estimates of the population of handicapped individuals eligible for services under this Act in such State, specifications of the number of such individuals who will be served with funds provided under this Act and the outcomes and service goals to be achieved for such individuals in each priority category specified in accordance with clause (5) of this subsection, and the service costs for each such category), and at such time as the Commissioner may require to carry out his functions under this title, and comply with such provisions as he may find necessary to assure the correctness and verification of such reports;

(13) (A) provide that vocational rehabilitation services provided under the State plan shall be available to any civil employee of the United States disabled while in the performance of his duty on the same terms and conditions as apply to other persons, and

(B) provide that special consideration will be given to the rehabilitation under this Act of a handicapped individual whose handicapping condition arises from a disability sustained in the line of duty while such individual was performing as a public safety officer and the proximate cause of such disability was a criminal act, apparent criminal act, or hazardous condition resulting directly from the officer's performance of duties in direct connection with the enforcement, execution, and administration of law or fire prevention, firefighting, or related public safety activities;

(C) there shall be compliance with regulations the Commissioner shall prescribe designed to assure that no State will reduce its efforts in providing other vocational rehabilitation services (other than for the establishment of rehabilitation facilities) because its plan includes such provisions for construction;

(18) provide satisfactory assurances to the Commissioner that the State agency designated pursuant to clause (1) (or each State agency if two are so designated) and any sole local agency administering the plan in a political subdivision of the State will take into account, in connection with matters of general policy arising in the administration of the plan, the views of individuals and groups thereof who are recipients of vocational rehabilitation services (or, in appropriate cases,

their parents or guardians), personnel working in the field of vocational rehabilitation, and providers of vocational rehabilitation services;

(19) provide satisfactory assurances to the Commissioner that the continuing studies required under clause (15) of this subsection, as well as an annual **evaluation** of the effectiveness of the program in meeting the goals and priorities set forth in the plan, will form the basis for the submission, from time to time as the Commissioner may require, of appropriate amendments to the plan;

(20) provide satisfactory assurances to the Commissioner that, except as otherwise provided in section 130, the State shall provide vocational rehabilitation services to handicapped American Indians residing in the State to the same extent as the State provides such services to other significant segments of the population of handicapped individuals residing in the State;

(21) provide that the State agency has the authority **to** enter into contracts with profitmaking organizations for the purpose of providing on-the-job training and related programs for handicapped individuals under part B of title VI upon a determination by such agency that such profitmaking organizations are better qualified to provide such rehabilitation services than nonprofit agencies and organizations; and

(22) provide for the establishment and maintenance of information and referral programs (the staff of which shall include, to the maximum extent feasible, interpreters for the deaf) in sufficient numbers to assure that handicapped individuals within the State are afforded accurate **vocational** rehabilitation information and appropriate referrals to other Federal and State programs and activities which would benefit them.

(B) in the administration of the plan there is a failure to comply substantially with any provision of such plan.

the Commissioner shall **notify** such State agency that no further payments will be made to the State under this title (or, in his discretion, that such further payments will be reduced; in accordance with regulations the Commissioner shall prescribe, or that further payments will not be made to the State only for the projects under the parts of the State plan affected by such failure), until he is satisfied there is no longer any **such failure**. Until he is so satisfied, the Commissioner shall make no further payments to such State under this title (or shall limit payments to projects under those parts of the State plan in which there is no such failure).

(2) The Commissioner may, in accordance with regulations the Secretary shall prescribe, disburse any funds withheld from a State under paragraph (1) to any public or nonprofit private organization or agency within such State or to any political subdivision of such State submitting a plan meeting the requirements of subsection (a). The Commissioner may not make any payment under this paragraph unless the entity to which such payment is made has provided assurances to the Commissioner that such entity will contribute, for purposes of carrying out such plan, the same amount as the State would have been obligated to contribute if the State received such payment.

(d)(1) Any State which is dissatisfied with a final determination of the Commissioner under subsection (b) or (c) may file a petition for judicial review of such determination in the United States Court of Appeals for the circuit in which the State is located. Such a petition may be filed only within the thirty-day period beginning on the date notice of such final determination was received by the State. In accordance with section 2112 of title 28, United States Code, the Commissioner shall file with the court a record of the proceeding on which he based the determination being appealed by the State. Until a record is so filed, the Commissioner may modify or set aside any determination made under such proceedings.

(2) If, in an action under this subsection to review a final determination of the Commissioner under subsection (b) or (c), the petitioner or the Commissioner applies to the court for leave to have additional oral submissions or written presentations made respecting such determination, the court may, for good cause shown, order the Commissioner to provide within thirty days an additional opportunity to make such submissions and presentations. Within such period, the Commissioner may revise any findings of fact, modify or set aside the determination being reviewed, or make a new determination by reason of the additional submissions and presentations, and shall file such modified or new determination, and any revised findings of fact, with the return of such submissions and presentations. The court shall thereafter review such new or modified determination.

(3)(A) Upon the filing of a petition under paragraph (1) for judicial review of a determination, the court shall have jurisdiction (i) to grant appropriate relief as provided in chapter 7 of title 5, United States Code, except for interim relief with respect to a determination under subsection (c), and (ii) except as otherwise provided in subparagraph (B), to review such determination in accordance with chapter 7 of title 5, United States Code.

INDIVIDUALIZED WRITTEN REHABILITATION PROGRAM

Sec. 102. (a) The Commissioner shall insure that the individualized written rehabilitation program, or the specification of reasons for a determination of ineligibility prior to initiation of such program based on preliminary diagnosis, required by section 101(a)(9) in the case of each handicapped individual is developed jointly by the vocational rehabilitation counselor or coordinator and the handicapped individual (or, in appropriate cases, his parents or guardians), and that such program meets the requirements set forth in subsection (b) of this section. Such written program shall set forth the terms and conditions, as well as the rights and remedies, under which goods and services will be provided to the individual, and, as appropriate, such specification of reasons for such an ineligibility determination shall set forth the rights and remedies, including recourse to the process set forth in subsection (b)(5) of this section, available to the individual in question.

Such program shall include, but not be limited to (1) a statement of long-range rehabilitation goals for the individual and intermediate rehabilitation objectives related to the attainment of such goals, (2) a statement of the specific vocational rehabilitation services to be provided, (3) the projected date for the initiation and the anticipated duration of each such service, (4) objective criteria and an evaluation procedure and schedule for determining whether such objectives and goals are being achieved, and (5) where appropriate, a detailed explanation of the availability of a client assistance project established in such area pursuant to section 112.

(c) The Commissioner shall also insure that (1) in making any determination of ineligibility referred to in subsection (a) of this section, or in developing and carrying out the individualized written rehabilitation program required by section 101 in the case of each handicapped individual, primary emphasis is placed upon the determination and achievement of a vocational goal for such individual, (2) a decision that such an individual is not capable of achieving such a goal and thus not eligible for vocational rehabilitation services provided with assistance under this part, is made only in full consultation with such individual (or, in appropriate cases, his parents or guardians), and only upon the certification, as an amendment to such written program, or as a part of the specification of reasons for an ineligibility determination, as appropriate, that the preliminary diagnosis or evaluation of rehabilitation potential, as appropriate, has demonstrated beyond any reasonable doubt that such individual is not then capable of achieving such a goal, and (3) any such decision, as an amendment to such written program, shall be reviewed at least annually in accordance with the procedure and criteria established in this section.

(d)(1) The Director of any designated State unit shall establish procedures for the review of determinations made by the rehabilitation counselor or coordinator under this section, upon the request of a handicapped individual (or, in appropriate cases, his parents or guard-

ians). Such procedures shall include a requirement that the final decision concerning the review of any such determination be made in writing by the Director. The Director may not delegate his responsibility to make any such final decision to any other officer or employee of the designated State unit.

(2) Any handicapped individual (or, in appropriate cases, his parent or guardian) who is not satisfied with the final decision made under paragraph (1) by the Director of the designated State unit may request the Secretary to review such decision. Upon such request the Secretary shall conduct such a review and shall make recommendations to the Director as to the appropriate disposition of the matter. The Secretary may not delegate his responsibilities under this paragraph to any officer of the Department of Health, Education, and Welfare who is employed at a position below that of an Assistant Secretary.

(b)(1) If the payment to a State under section 111(a) for a fiscal year is less than the total payments such State received under section 2 of the Vocational Rehabilitation Act for the fiscal year ending June 30, 1973, such State shall be entitled to an additional payment (subject

to the same terms and conditions applicable to other payments under this part) equal to the difference between such payment under section 111(a) and the amount so received by it.

(2) If a State receives as its Federal share under section 111(a) for any fiscal year, as a result of the maintenance of effort provisions of such section, less than 80 percent of the expenditure of such State for vocational rehabilitation services under the plan for such State approved under section 101 (including any amount expended by such State for the administration of the State plan but excluding any amount expended by such State from non-Federal sources for construction under such plan), such State shall be entitled to an additional payment for such fiscal year, subject to the same terms and conditions applicable to other payments under this part, equal to the difference between such payment under section 111(a) and an amount equal to 80 percent of such expenditure for vocational rehabilitation services.

(3) Any payment attributable to the additional payment to a State under this subsection shall be made only from appropriations specifically made to carry out this subsection, and such additional appropriations are hereby authorized.

(c) Whenever the Commissioner determines, after reasonable opportunity for the submission to him of comments by the State agency administering or supervising the program established under this title, that any payment of an allotment to a State under section 111(a) for any fiscal year will not be utilized by such State in carrying out the purposes of this title, he shall make such amount available for carrying out the purposes of this title to one or more other States to the extent he determines such other State will be able to use such additional amount during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purposes of this part, be regarded as an increase of such State's allotment (as determined under the preceding provisions of this section) for such year.

PAYMENTS TO STATES

SEC. 111. (a) From each State's allotment under this part for any fiscal year (including any additional payment to it under section 110 (b)), the Commissioner shall pay to such State an amount equal to the Federal share of the cost of vocational rehabilitation services under the plan for such State approved under section 101, including expenditures for the administration of the State plan, except that the total of such payments to such State for such fiscal year may not exceed its allotment under subsection (a) (and its additional payment under subsection (b), if any) of section 110 for such year and such payments shall not be made in an amount which would result in a violation of the provisions of the State plan required by clause (17) of section 101(a), and except that the amount otherwise payable to such State for such year under this section shall be reduced by the amount (if any) by which expenditures from non-Federal sources during such year under this title are less than expenditures under the State plan for the fiscal year ending June 30, 1972, under the Vocational Rehabilitation Act.

(b) The method of computing and paying amounts pursuant to subsection (a) shall be as follows:

(1) The Commissioner shall, prior to the beginning of each calendar quarter or other period prescribed by him, estimate the amount to be paid to each State under the provisions of such subsection for such period, such estimate to be based on such records of the State and information furnished by it, and such other investigation, as the Commissioner may find necessary.

(2) The Commissioner shall pay, from the allotment available therefor, the amount so estimated by him for such period, reduced or increased, as the case may be, by any sum (not previously adjusted under this paragraph) by which he finds, that his estimate of the amount to be paid the State for any prior period under such subsection was greater or less than the amount which should have been paid to the State for such prior period under such subsection. Such payment shall be made prior to audit or settlement by the General Accounting Office, shall be made through the disbursing facilities of the Treasury Department, and shall be made in such installments as the Commissioner may determine.

CLIENT ASSISTANCE

SEC. 112. (a) From funds appropriated under section 310 for special projects and demonstrations in excess of \$11,860,000 the Commissioner shall set aside no less than \$3,500,000 for the fiscal year ending September 30, 1979, and for each of the three succeeding fiscal years, to establish in geographically dispersed regions client assistance pilot projects (hereinafter in this section referred to as "projects") to provide counselors to inform and advise all clients and client applicants in the project area of all available benefits under this Act and, upon request of such client or client applicant, to assist such clients or applicants in their relationships with projects, programs, and facilities providing services to them under this Act, including assistance in pursuing legal, administrative, or other appropriate remedies to insure the protection of the rights of such individuals under this Act. In the event that funds so appropriated under section 310 do not exceed \$11,860,000 in any fiscal year, the Commissioner is authorized to utilize such funds to carry out this section.

(b) The Commissioner shall prescribe regulations which shall include the following requirements:

(1) No employees of such projects shall be presently serving as staff or consultants or receiving benefits of any kind directly or indirectly from any rehabilitation project, program, or facility receiving assistance under this Act in the project area.

(2) Each project shall be afforded reasonable access to policymaking and administrative personnel in State and local rehabilitation programs, projects, and facilities.

(3) The project shall submit an annual report, through the State agency designated pursuant to section 101, to the Commissioner on the operation of the project during the previous year, including a summary of the work done and a uniform statistical tabulation of all cases handled by such project. A copy of each such report shall be submitted to the appropriate committees of the Congress by the Commissioner, to

gether with a summary of such reports and his evaluation of such projects, including appropriate recommendations.

No compensation with funds appropriated under this Act shall be provided to such students.

(5) Reasonable assurance shall be given by the appropriate State agency that all clients or client applicants within the project area shall have the opportunity to receive adequate service under the project and shall not be pressured against or otherwise discouraged from availing themselves of the services available under such project.

PART C—INNOVATION AND EXPANSION GRANTS

STATE ALLOTMENTS

SEC. 120. (a)(1) From the sums available pursuant to section 100 (b)(2) for any fiscal year for grants to States to assist them in meeting the costs described in section 121, each State shall be entitled to an allotment of an amount bearing the same ratio to such sums as the population of the State bears to the population of all the States. The allotment to any State under the preceding sentence for any fiscal year which is less than \$50,000 shall be increased to that amount, and for the fiscal year ending June 30, 1974, no State shall receive less than the amount necessary to cover up to 90 per centum of the cost of continuing projects assisted under section 4(a)(2)(A) of the Vocational Rehabilitation Act, except that no such project may receive financial assistance under both the Vocational Rehabilitation Act and this Act for a total period of time in excess of five years. The total of the increase required by the preceding sentence shall be derived by proportionately reducing the allotments to each of the remaining States under the first sentence of this section, but with such adjustments as may be necessary to prevent the allotment of any of such remaining States from thereby being reduced to less than \$50,000.

(b) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this section, he shall make such amount available for carrying out the purposes of this section to one or more other States which he determines will be able to use additional amounts during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for purposes of this part, be regarded as an increase of such State's allotment (as determined under the preceding provisions of this section) for such year.

PAYMENTS TO STATES

SEC. 121. (a) From each State's allotment under this part for any fiscal year, the Commissioner shall pay to such State or, at the option of the State agency designated pursuant to section 101(a)(1), to a public

or nonprofit organization or agency, a portion of the cost of planning, preparing for, and initiating special programs under the State plan approved pursuant to section 101 to expand vocational rehabilitation services, including programs to initiate or expand such services to individuals with the most severe handicaps, or of special programs under such State plan to initiate or expand services to classes of handicapped individuals who have unusual and difficult problems in connection with their rehabilitation, particularly handicapped individuals who are poor, and responsibility for whose treatment, education, and rehabilitation is shared by the State agency designated in section 101 with other agencies. Payments may also be made under this section for the costs of the construction of facilities to be used in providing services under such State plan if provision for such construction is included in such State plan. The Commissioner may require that any portion of a State's allotment under this section, but not more than 50 per centum of such allotment, may be expended in connection with only such projects as have first been approved by the Commissioner. Any grant of funds under this section which will be used for direct services to handicapped individuals or for establishing or maintaining facilities which will render direct services to such individuals must have the prior approval of the appropriate State agency designated pursuant to section 101.

(b) Payments under this section with respect to any project may be made for a period of not to exceed three years beginning with the commencement of the project as approved, and sums appropriated for grants under this section shall remain available for such grants through the fiscal year ending September 30, 1982. Payments with respect to any project may not exceed 90 per centum of the cost of such project. The non-Federal share of the cost of a project may be in cash or in kind and may include funds spent for project purposes by a cooperating public or nonprofit agency provided that it is not included as a cost in any other federally financed program.

(c) Payments under this section may be made in advance or by way of reimbursement for services performed and purchases made, as may be determined by the Commissioner, and shall be made on such conditions as the Commissioner finds necessary to carry out the purposes of this section.

VOCATIONAL TRAINING SERVICES FOR HANDICAPPED INDIVIDUALS

Sec. 302. (a) For the purpose of making grants and entering into contracts under this section, there are authorized to be appropriated such sums as may be necessary for each fiscal year ending before October 1, 1982.

(b)(1) The Commissioner is authorized to make grants to States and public or nonprofit organizations and agencies to pay up to 90 per centum of the cost of projects for providing vocational training services to handicapped individuals, especially those with the most severe handicaps, in public or nonprofit rehabilitation facilities.

(2)(A) Vocational training services for purposes of this subsection shall include training with a view toward career advancement; training in occupational skills; related services, including work evaluation, work testing, provision of occupational tools and equipment required by the individual to engage in such training, and job tryouts; and payment of weekly allowances to individual receiving such training and related services.

(B) Such allowances may not be paid to any individual for any period in excess of two years, and such allowances for any week shall not exceed \$30 plus \$10 for each of the individual's dependents, or \$70, whichever is less. In determining the amount of such allowances for any individual, consideration shall be given to the individual's need for such an allowance, including any expenses reasonably attributable to receipt of training services, the extent to which such an allowance will help assure entry into and satisfactory completion of training, and such other factors, specified by the Commissioner, as will promote such individual's capacity to engage in gainful and suitable employment.

(3) The Commissioner may make a grant for a project pursuant to this subsection only on his determination that (A) the purpose of such project is to prepare handicapped individuals, especially those with the most severe handicaps, for gainful and suitable employment; (B) the individuals to receive training services under such project will include only those who have been determined to be suitable for and in need of such training services by the State agency or agencies designated as provided in section 101(a)(1) of the State in which the rehabilitation facility is located; (C) the full range of training services will be made available to each such individual, to the extent of his

need for such services; and (D) the project, including the participating rehabilitation facility and the training services provided, meet such other requirements as he may prescribe in regulations for carrying out the purposes of this subsection.

(c)(1) The Commissioner is authorized to make grants to public or nonprofit rehabilitation facilities, or to an organization or combination of such facilities, to pay the Federal share of the cost of projects to analyze, improve, and increase their professional services to handicapped individuals, their management effectiveness, or any other part of their operations affecting their capacity to provide employment and services for such individuals.

(2) No part of any grant made pursuant to this subsection may be used to pay costs of acquiring, constructing, expanding, remodeling, or altering any building.

LOAN GUARANTEES FOR REHABILITATION FACILITIES

SEC. 303. (a) It is the purpose of this section to assist and encourage the provision of needed facilities for programs for handicapped individuals primarily served by State rehabilitation programs.

(b) The Commissioner may, in accordance with this section and subject to section 306, guarantee the payment of principal and interest on loans made to nonprofit private entities by non-Federal lenders and by the Federal Financing Bank for the construction of rehabilitation facilities, including equipment used in their operation.

(c) In the case of a guarantee of any loan to a nonprofit private entity under this section, the Commissioner shall pay, to the holder of such loan and for and on behalf of the project for which the loan was made, amounts sufficient to reduce by 2 percent per annum the net effective interest rate otherwise payable on such loan. Each holder of a loan which is guaranteed under this section shall have a contractual right to receive from the United States interest payments required by the preceding sentence.

(d) The cumulative total of the principal of the loans outstanding at any time with respect to which guarantees have been issued, or which have been directly made, may not exceed \$100,000,000.

(e)(1) The Commissioner may not approve a loan guarantee for a project under this section unless he determines that (A) the terms, conditions, security (if any), and schedule and amount of repayments with respect to the loan are sufficient to protect the financial interests of the United States and are otherwise reasonable, including a determination that the rate of interest does not exceed such per centum per annum on the principal obligation outstanding as the Commissioner determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the United States, and (B) the loan would not be available on reasonable terms and conditions without the guarantee under this section.

(2)(A) The United States shall be entitled to recover from the applicant for a loan guarantee under this section the amount of any payment made pursuant to such guarantee, unless the Commissioner for good cause waives such right of recovery. Upon making any such payment, the United States shall be subrogated to all of the rights of

the recipient of the payments with respect to which the guarantee was made.

(B) To the extent permitted by subparagraph (C), any terms and conditions applicable to a loan guarantee under this section (including terms and conditions imposed under paragraph (1)) may be modified by the Commissioner to the extent he considers consistent with the interests of the United States.

(C) Any loan guarantee made by the Commissioner under this section shall be incontestable (i) in the hands of an applicant on whose behalf such guarantee is made unless the applicant engaged in fraud or misrepresentation in securing such guarantee and (ii) as to any person (or his successor in interest) who makes or contracts to make a loan to such applicant in reliance thereon unless such person (or his successor in interest) engaged in fraud or misrepresentation in making or contracting to make such loan.

(D) Guarantees of loans under this section shall be subject to such further terms and conditions as the Commissioner considers necessary to assure that the purposes of this section will be achieved.

(f)(1) There is established in the Treasury a loan guarantee fund (hereinafter in this subsection referred to as the "fund") which shall be available to the Commissioner without fiscal year limitation, in such amounts as may be specified from time to time in appropriation Acts—

(A) to enable him to discharge his responsibilities under loan guarantees issued by him under this section; and

(B) for payment of interest under subsection (c) on loans guaranteed under this section.

There are authorized to be appropriated such amounts as may be necessary to provide the sums required for the fund. There shall also be deposited in the fund amounts received by the Commissioner in connection with loan guarantees under this section and other property or assets derived by him from his operations respecting such loan guarantees, including any money derived from the sale of assets.

(2)(A) If at any time the sums in the fund are insufficient to enable the Commissioner—

(i) to make payments of interest under subsection (c); or

(ii) to otherwise comply with guarantees under this section of loans to nonprofit private entities;

he is authorized to issue to the Secretary of the Treasury notes or other obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Commissioner with the approval of the Secretary of the Treasury.

(B) Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations.

(C) The Secretary of the Treasury shall purchase any notes and other obligations issued under this paragraph, and for that purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act. The purposes for which securities may be issued under that Act are extended to include any purchase of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations

acquired by him under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as a public debt transaction of the United States.

(D) Sums borrowed under this paragraph shall be deposited in the fund and redemption of such notes and obligations shall be made by the Commissioner from the fund.

TRAINING

SEC. 304. (a) The Commissioner may make grants to and contracts with States and public or nonprofit agencies and organizations, including institutions of higher education, to pay part of the cost of projects for training, traineeships, and related activities designed to assist in increasing the numbers of personnel trained in providing vocational, medical, social, and psychological rehabilitation services to handicapped individuals, including personnel specially trained in providing employment assistance to handicapped individuals through job development and job placement services and personnel trained in performing other functions necessary to the development of such services.

(b) In making such grants or contracts, funds made available for any year will be utilized to provide a balanced program of assistance to meet the medical, vocational, and other personnel training needs of both public and private rehabilitation programs and institutions, to include projects in rehabilitation medicine, rehabilitation nursing, rehabilitation counseling, rehabilitation social work, rehabilitation psychiatry, rehabilitation psychology, physical therapy, occupational therapy, speech pathology and audiology, workshop and facility administration, prosthetics and orthotics, specialized personnel in providing services to blind and deaf individuals, specialized personnel in providing job development and job placement services for handicapped individuals, recreation for ill and handicapped individuals, and other fields contributing to the rehabilitation of handicapped individuals, including homebound and institutionalized individuals and handicapped individuals with limited English-speaking ability. No grant shall be made under this section for furnishing to an individual any one course of study extending for a period in excess of four years.

(c) The Commissioner shall evaluate the impact of the training programs conducted under this section, shall determine training needs for personnel necessary to provide services to handicapped individuals, and shall develop a long-term rehabilitation manpower plan designed to target resources on areas of personnel shortage.

(d)(1) For the purpose of training a sufficient number of interpreters to meet the communications needs of deaf individuals, the Secretary, through the Office of Information and Resources for the Handicapped, may award grants under this section to any public or private nonprofit agency or organization to establish interpreter training programs or to provide financial assistance for ongoing interpreter training programs. Not more than twelve programs shall be established or assisted by grants under this section. The Secretary shall award grants for programs in such geographic areas throughout the United States as the Secretary considers appropriate to best carry out the purpose of this section. Priority shall be given to public or private

nonprofit agencies or organizations with existing programs that have demonstrated their capacity for providing interpreter training services.

(2) No grant shall be awarded under this section unless the applicant has submitted an application to the Secretary in such form, and in accordance with such procedures, as the Secretary may require. Any such application shall —

(A) describe the manner in which an interpreter training program would be developed and operated during the five-year period following the award of any grant under this section;

(B) demonstrate the applicant's capacity or potential for providing training for interpreters for deaf individuals;

(C) provide assurances that any interpreter trained or retrained under such program shall meet such minimum standards of competency as the Secretary may establish for purposes of this section;

(D) provide assurances that (i) to the extent appropriate, the applicant shall provide for the training or retraining (including short-term and in-service training) of teachers who are involved in providing instruction to deaf individuals but who are not certified as teachers of deaf individuals, and (ii) funds for such in-service training shall be provided under this section only through funds appropriated under the Education for All Handicapped Children Act; and

(E) contain such other information as the Secretary may require.

(d) There are authorized to be appropriated to carry out this section \$34,000,000 for the fiscal year ending September 30, 1979, \$40,000,000 for the fiscal year ending September 30, 1980, \$45,000,000 for the fiscal year ending September 30, 1981, and \$50,000,000 for the fiscal year ending September 30, 1982. There are further authorized to be appropriated for each such fiscal year such additional sums as the Congress may determine to be necessary to carry out this section.

COMPREHENSIVE REHABILITATION CENTERS

SEC. 305. (a)(1) In order to provide a focal point in communities for the development and delivery of services designed primarily for handicapped persons, the Commissioner may make grants to any designated State unit to establish and operate comprehensive rehabilitation centers. The centers shall be established in order to provide a broad range of services to handicapped individuals, including information and referral services, counseling services, and job placement, health, educational, social, and recreational services, as well as to provide facilities for recreational activities.

(2) To the maximum extent practicable, such centers shall provide, upon request, to local governmental units and other public and private nonprofit entities located in the area such information and technical assistance (including support personnel such as interpreters for the deaf) as may be necessary to assist those entities in complying with this Act, particularly the requirements of section 504.

(b) No grant may be made under this section unless an application therefor has been submitted to and approved by the Commissioner.

The Commissioner may not approve an application for a grant unless the application—

(1) contains assurances that the designated State unit will use funds provided by such grant in accordance with subsections (c) and (d); and

(2) contains such other information, and is submitted in such form and in accordance with such procedures, as the Commissioner may require.

(c) (1) The designated State unit may—

(A) in accordance with subsection (e) make grants to units of general purpose local government or to other public or nonprofit private agencies or organizations and may make contracts with any agency or organization to pay not to exceed 80 percent of the cost of—

(i) leasing facilities to serve as comprehensive rehabilitation centers;

(ii) expanding, remodeling, or altering facilities to the extent necessary to adapt them to serve as comprehensive rehabilitation centers;

(iii) operating such centers; or

(iv) carrying out any combination of the activities specified in this subparagraph; and

(B) directly carry out the activities described in subparagraph (A), except that not more than 80 percent of the costs of providing any comprehensive rehabilitation center may be provided from funds under this section.

(3) Funds made available to any designated State unit under this section for the purpose of assisting in the operation of a comprehensive rehabilitation center may be used to compensate professional and technical personnel required to operate the center and to deliver services in the center, and to provide equipment for the center.

(d) (1) The designated State unit may approve a grant or enter into a contract under subsection (c) only if the application for such grant or contract meets the requirements specified in paragraphs (1), (2), (4), and (5) of section 306(b) and if the application contains assurances that any facility assisted by such grant or contract shall be in reasonably close proximity to the majority of individuals eligible to use the comprehensive rehabilitation center.

(2) Any designated State unit which directly provides for comprehensive rehabilitation centers under subsection (c) (1) (B) shall use funds under this section in the same manner as any other grant recipient is required to use such funds.

(e) If within 20 years after the completion of any construction project for which funds have been paid under this section—

(1) the owner of the facility ceases to be a public or nonprofit private agency or organization, or

(2) the facility ceases to be used for the purposes for which it was leased or constructed (unless the Commissioner determines, in accordance with regulations, that there is good cause for releasing the applicant or other owner from the obligation to do so), the United States shall be entitled to recover from the grant recipient or other owner of the facility an amount which bears the same ratio to the value of the facility (or so much thereof as constituted an

approved project or projects) at the time the United States seeks recovery as the amount of such Federal funds bore to the cost of renovating the facility under subsection (c) (1) (A) (ii). Such value shall be determined by agreement of the parties or by action brought in the United States district court for the district in which such facility is situated.

(f) The requirements of section 306 shall not apply to funds allotted under this section, except that subsections (g) and (h) of such section shall be applicable with respect to such funds.

(g) There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal year ending September 30, 1979, and for the three succeeding fiscal years.

GENERAL GRANT AND CONTRACT REQUIREMENTS

SEC. 306. (a) The provisions of this section shall apply to all projects approved and assisted under this title, except as otherwise provided in section 305(g). The Commissioner shall insure compliance with this section prior to making any grant or entering into any contract or agreement under this title, except projects authorized under section 302.

(b) To be approved, an application for assistance for a construction project, or for a project which involves construction, under this title must—

(1) contain or be supported by reasonable assurances that (A) for a period of not less than twenty years after completion of construction of the project it will be used as a public or nonprofit facility, (B) sufficient funds will be available to meet the non-Federal share of the cost of construction of the project, and (C) sufficient funds will be available, when construction of the project is completed, for its effective use for its intended purpose;

(2) provide that Federal funds provided to any agency or organization under this title will be used only for the purposes for which provided and in accordance with the applicable provisions of this section and the section under which such funds are provided;

(3) provide that the agency or organization receiving Federal funds under this title will make an annual report to the Commissioner, which the Commissioner shall submit to the Secretary for inclusion (in summarized form) in the annual report submitted to the Congress under section 13;

(4) be accompanied or supplemented by plans and specifications which have been approved by the Board established by section 502, in which due consideration shall be given to excellence of architecture and design, and to the inclusion of works of art (not representing more than 1 per centum of the cost of the project), and which comply with regulations prescribed by the Commissioner related to minimum standards of construction and equipment (promulgated with particular emphasis on securing compliance with the requirements of the Architectural Barriers Act of 1968 (Public Law 90480)), and with regulations of the Secretary of Labor relating to occupational health and safety standards for rehabilitation facilities; and

(5) contain or be supported by reasonable assurance that any laborer or mechanic employed by any contractor or subcontractor in the performance of work on any construction aided by payments pursuant to any grant under this section will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5) ; and the Secretary of Labor shall have, with respect to the labor standards specified in this paragraph, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176) and section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c).

(c) Upon approval of any application for a grant or contract for a project under this title, the Commissioner shall reserve, from any appropriation available therefore, the amount of such grant or contract determined under this title. In case an amendment to an approved application is approved, or the estimated cost of a project is revised upward, any additional payment with respect thereto may be made from the appropriation from which the original reservation was made or the appropriation for the fiscal year in which such amendment or revision is approved.

(d) If, within twenty years after completion of any construction project for which funds have been paid under this title, the facility shall cease to be a public or nonprofit facility, the United States shall be entitled to recover from the applicant or other owner of the facility the amount bearing the same ratio to the then value (as determined by agreement of the parties or by action brought in the United States district court for the district in which such facility is situated) of the facility, as the amount of the Federal participation bore to the cost of construction of such facility.

(e) Payment of assistance or reservation of funds made pursuant to this title may be made (after necessary adjustment on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments and on such conditions, as the Commissioner may determine.

(f) A project for construction of a rehabilitation facility which is primarily a workshop may, where approved by the Commissioner as necessary to the effective operation of the facility, include such construction as may be necessary to provide residential accommodations for use in connection with the rehabilitation of handicapped individuals.

(g) No funds provided under this title may be used to assist in the construction of any facility which is or will be used for religious worship or any sectarian activity.

(h) When in any State, funds provided under this title will be used for providing direct services to handicapped individuals or for establishing facilities which will provide such services, such services must be carried out in a manner not inconsistent with the State plan approved pursuant to section 101.

(i) Prior to making any grant or entering into any contract under this title, the Commissioner shall afford reasonable opportunity to the appropriate State agency or agencies designated pursuant to section 101 to comment on such grant or contract.

There is further authorized to be appropriated for each such fiscal year such additional amount as may be necessary to equal, when added to the amount made available for the purpose of making grants under section 312, an amount of \$5,000,000 for each such fiscal year.

Maintenance payments under this section shall be consistent with any maintenance payments made to other handicapped individuals in the State under this Act. (c) Any agency or organization desiring to enter into such agreement shall submit a proposal therefor at such time, in such manner, and containing such information as may be prescribed in regulations by the Secretary. In considering such proposals the Secretary shall give preference to proposals which (1) give promise of maximum effectiveness in the organization and operation of the Helen Keller National Center, and (2) give promise of offering the most substantial skill, experience, and capability in providing a broad program of service, research, training, and related activities in the field of rehabilitation of deaf-blind individuals.

Funds may also be used for the purchase or rental of equipment necessary to provide assistance or services to deaf individuals.

Such agreements may include provisions consistent with subsection (c) for the payment of the costs of projects developed by such organizations and agencies in cooperation with the Secretary. No payment shall be made by the Secretary toward the cost of any such project unless the Secretary determines that:

(A) Such project will provide employment only for eligible individuals, except that if eligible individuals are not available to serve as technical, administrative, or supervisory personnel for a project then such personnel may be recruited from among other individuals.

(B) Such project will provide employment for eligible individuals in the community in which such individuals reside, or in nearby communities.

(C) Such project will employ eligible individuals in services related to publicly owned and operated facilities and projects, or projects sponsored by organizations, other than political parties, exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1954, except for projects involving the construction, operation, or maintenance of any facility used or to be used as a place for sectarian religious instruction or worship.

(F) Such project will not employ any eligible individual to perform work which is the same or substantially the same as that performed by any other person who is on layoff from employment with the agency or organization sponsoring such project.

(G) Such project will utilize methods of recruitment and selection (including the listing of job vacancies with the State agency units designated under section 101(a)(2)(A) to administer vocational rehabilitation services under this Act) which will assure that the maximum number of eligible individuals will have an opportunity to participate in the project.

(J) Such project will be established or administered with the advice of (i) persons competent in the field of service in which employment is being provided, and (ii) persons who are knowledgeable with regard to the needs of handicapped individuals.

(K) Such project will pay any reasonable costs for work-related expenses, transportation, and attendant care incurred by eligible

individuals employed under such project in accordance with regulations prescribed by the Secretary.

(L) Such project will provide appropriate placement services for employees under the project to assist them in locating unsubsidized employment when the Federal assistance for the project terminates.

Notwithstanding the preceding sentence, the Secretary may pay all of the costs of any such project which is (A) an emergency or disaster project, or (B) a project located in an economically depressed area, as determined by the Secretary in consultation with the Secretary of Commerce and the Director of the Community Services Administration.

(2) The non-Federal share of any project under this part may be in cash or in kind. In determining the amount of the non-Federal share, the Secretary may attribute fair market value to services and facilities contributed from non-Federal sources.

(d) Payments under this part may be made in advance or by way of reimbursement, and in such installments as the Secretary may determine.

ADMINISTRATION

The total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced. Any amount reallocated to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) for such year.

TITLE VII— COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

PART A—COMPREHENSIVE SERVICES

PURPOSE

SEC. 701. The purpose of this title is to authorize grants (supplementary to grants for vocational rehabilitation services under title I) to assist States in providing comprehensive services for independent living designed to meet the current and future needs of individuals whose disabilities are so severe that they do not presently have the potential for employment but may benefit from vocational rehabilitation services which will enable them to live and function independently.

ELIGIBILITY

SEC. 702. Services may be provided under this title to any individual whose ability to engage or continue in employment, or whose ability to function independently in his family or community, is so limited by the severity of his disability that vocational or comprehensive rehabilitation services appreciably more costly and of appreciably greater duration than those vocational or comprehensive rehabilitation services required for the rehabilitation of a handicapped individual are required to improve significantly either his ability to engage in employment or his ability to function independently in his family or community. Priority of services under this part shall be given to individuals not served by other provisions of this Act.

(b) For purposes of this title, the term "comprehensive services for independent living" means any appropriate vocational rehabilitation service (as defined under title I of this Act) and any other

service that will enhance the ability of a handicapped individual to live independently and function within his family and community and, if appropriate, secure and maintain appropriate employment. Such services may include any of the following: counseling services, including psychological, psychotherapeutic, and related services; housing incidental to the purpose of this section (including appropriate accommodations to and modification of any space to serve handicapped individuals); appropriate job placement services; transportation; attendant care; physical rehabilitation; therapeutic treatment; needed prostheses and other appliances and devices; health maintenance; recreational activities; services for children of preschool age, including physical therapy, development of language and communication skills, and child development services; and appropriate preventive services to decrease the needs of individuals assisted under the program for similar services in the future,

ALLOTMENTS

SEC. 703. (a)(1) From sums made available for each fiscal year for the purposes of allotments under this subpart, each State whose comprehensive services plan has been approved under section 705 shall be entitled to an allotment of an amount bearing the same ratio to such sums as the population of the State bears to the population of all States. Except as provided in paragraph (2), the allotment to any State under the preceding sentence shall be not less than \$200,000 or one-third of 1 percent of the sums made available for the fiscal year for which the allotment is made, whichever is greater, and the allotment of any State under this section for any fiscal year which is less than \$200,000 or one-third of 1 percent of such sums shall be increased to the greater of the two amounts.

(2) For the purposes of this subsection, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands shall not be considered as States and shall each be allotted not less than one-eighth of 1 percent of the amounts made available for purposes of this subpart for the fiscal year for which the allotment is made.

(b) Amounts necessary to increase the allotments of States under paragraph (1) or to provide allotments under paragraph (2) shall be derived by proportionately reducing the allotments of the remaining States under paragraph (1), but with such adjustments as may be necessary to prevent the allotment of any such remaining States from being thereby reduced to less than the greater of \$200,000 or one-third of 1 percent of the sums made available for purposes of this subpart for the fiscal year for which the allotment is made.

(c) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this title, he shall make such amount available for carrying out the purposes of this section to one or more of the States which he determines will be able to use additional amounts during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purposes of this section, be regarded as an increase in the State's allotment (as determined under the preceding provisions of this section) for such year.

PAYMENTS TO STATES FROM ALLOTMENTS

SEC. 704. (a) From each State's allotment for a fiscal year under section 703, the State shall be paid the Federal share of the expenditures incurred during such year under its State plan approved under section 705. Such payments may be made (after necessary adjustments on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments and on such conditions as the Commissioner may determine.

(b)(1) The Federal share with respect to any State for any fiscal year shall be 90 percent of the expenditures incurred by the State during such year under its State plan approved under section 705.

(2) The non-Federal share of the cost of any project assisted by an allotment under this subpart may be provided in kind.

(3) For the purpose of determining the Federal share with respect to any State, expenditures by a political subdivision of such State shall, subject to regulations prescribed by the Commissioner, be regarded as expenditures by such State.

(1) Persons with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities.

(3) The Federal Government and the States both have an obligation to assure that public funds are not provided to any institutional or other residential program for persons with developmental disabilities that—

(A) does not provide treatment, services, and habilitation which is appropriate to the needs of such persons; or

(B) does not meet the following minimum standards;

(1) Provision of a nourishing, well-balanced daily diet for persons with developmental disabilities being served in such program.

(2) Provision of such persons of appropriate and sufficient services.

(iii) Prohibition of the use of physical restraint on such persons unless absolutely necessary and prohibition of the use of such restraint as a punishment or as a substitute for a habilitation program.

(v) Permission for close relatives of such persons to visit them at reasonable hours without prior notice.

(vi) Compliance with adequate fire and safety standards as may be promulgated by the Secretary.

(4) All programs for persons with developmental disabilities should meet standards which are designed to assure the most favorable possible outcome for those served, and—

(A) in the case of residential programs serving persons in need of comprehensive health-related, habilitative, or rehabilitative services, which are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded promulgated in regulations of the Secretary on January 17, 1974 (39 Fed. Reg. pt. II), as appropriate when taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(B) in the case of other residential programs for persons with developmental disabilities, which assure that care is appropriate to the needs of the persons being served by such programs, assure that the persons admitted to facilities of such programs are persons whose needs can be met through services provided by such facilities, and assure that the facilities under such programs provide for the humane care of the residents of the facilities, are sanitary, and protect their rights; and

(C) in the case of nonresidential programs, which assure the care provided by such programs is appropriate to the persons served by the programs.

The rights of persons with developmental disabilities described in findings made in this section are in addition to any constitutional or other rights otherwise afforded to all persons.

The plan shall (A) describe how the objectives will be achieved and the barriers that might interfere with the achievement of them, (B) state objective criteria and an evaluation procedure and schedule for determining whether such objectives and goals are being achieved, and (C) provide for a program coordinator who will be responsible for the implementation of the plan.

(4) The plan shall contain a statement (in readily understandable form) of specific habilitation services to be provided, shall identify each agency which will deliver such services, shall describe the personnel (and their qualifications) necessary for the provision of such services, and shall specify the date of the initiation of each service to be provided and the anticipated duration of each such service.

(5) The plan shall specify the role and objectives of all parties to the implementation of the plan.

Such a study shall be carried out in consultation with the State Planning Council for the State in which the facility is located and where the satellite center would be established.

(2) Assessing the need for trained personnel in providing assistance to persons with developmental disabilities;

(3) Provision of service-related training to practitioners providing services to persons with developmental disabilities.

These standards for facilities shall reflect the special needs of persons with developmental disabilities who are of various ages, and shall include performance standards relating to each of the activities described in section 102(10).

(b) No grant may be made under section 121 unless an application therefor is submitted to, and approved by, the Secretary. Such an application shall be submitted in such form and manner, and contain such information, as the Secretary may require. Such an application shall be approved by the Secretary only if the application contains or is supported by reasonable assurances that—

(1) the making of the grant will (A) not result in any decrease in the use of State, local, and other non-Federal funds for services for persons with developmental disabilities and for training of persons to provide such services, which funds would (except for such grant) be made available to the applicant, and (B) be used to supplement and, to the extent practicable, increase the level of such funds; and

(2)(A) the applicant's facility is in full compliance with the standards established under subsection (a), or

(B)(i) the applicant is making substantial progress toward bringing the facility into compliance with such standards, and (ii) the facility will, not later than three years after the date of approval of the initial application or the date standards are promulgated under subsection (a), whichever is later, fully comply with such standards.

(c) The Secretary shall establish such a process for the review of applications for grants under section 121 as will ensure, to the maximum extent feasible, that each Federal agency that provides funds for the direct support of the applicant's facility reviews the application.

✓ PART C—GRANTS FOR PLANNING AND PROVISION OF SERVICES FOR PERSONS WITH DEVELOPMENTAL DISABILITIES

✓ AUTHORIZATION OF APPROPRIATIONS FOR ALLOTMENTS

For allotments under section 132, there are authorized to be appropriated \$40,000,000 for fiscal year 1976, \$50,000,000 for fiscal year 1977, \$60,000,000 for fiscal year 1978, \$55,000,000 for the fiscal year ending September 30, 1979, \$65,000,000 for the fiscal year ending September 30, 1980, and \$75,000,000 for the fiscal year ending September 30, 1981.

✓ STATE ALLOTMENTS

SEC. 132. (a) (1) In each fiscal year, the Secretary shall, in accordance with regulations and, this paragraph, allot the sums appropriated for such year under section 131 among the States on the basis of—

- (A) the population,
- (B) the extent of need for services for persons with developmental disabilities, and
- (C) the financial need,

of the respective States. Sums allotted to the States under this section shall be used in accordance with approved State plans under section 133 for the provision under such plans of services for persons with developmental disabilities.

(2) For any fiscal year, the allotment under paragraph (1)—

(A) to each of American Samoa, Guam, the Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands may not be less than \$100,000, and

(B) to any other State may not be less than the greater of \$250,000, or the amount of the allotment (determined without regard to subsection (d)) received by the State for the fiscal year ending September 30, 1978.

(3) In determining, for purposes of paragraph (1)(B), the extent of need in any State for services for persons with developmental dis-

abilities, the Secretary shall take into account the scope and extent of the services described, pursuant to section 133(b)(2)(B), in the State plan of the State.

(b) Whenever the State plan approved in accordance with section 133 provides for participation of more than one State agency in administering or supervising the administration of designated portions of the State plan, the State may apportion its allotment among such agencies in a manner which, to the satisfaction of the Secretary, is reasonably related to the responsibilities assigned to such agencies in carrying out the purposes of the State plan. Funds so apportioned to State agencies may be combined with other State or Federal funds authorized to be spent for other purposes, provided the purposes of the State plan will receive proportionate benefit from the combination.

(c) Whenever the State plan approved in accordance with section 133 provides for cooperative or joint effort between States or between or among agencies, public or private, in more than one State, portions of funds allotted to one or more such cooperating States may be combined in accordance with the agreements between the agencies involved.

(d) The amount of an allotment to a State for a fiscal year which the Secretary determines will not be required by the State during the period for which it is available for the purpose for which allotted shall be available for reallocation by the Secretary from time to time, on such date or dates as he may fix (but not earlier than thirty days after he has published notice of his intention to make such reallocation in the Federal Register), to other States with respect to which such a determination has not been made, in proportion to the original allotments of such States for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced. Any amount so reallocated to a State for a fiscal year shall be deemed to be a part of its allotment under subsection (a) for such fiscal year.

STATE PLANS

SEC. 133. (a) Any State desiring to take advantage of this part must have a State plan submitted to and approved by the Secretary under this section.

(b) In order to be approved by the Secretary under this section, a State plan for the provision of services for persons with developmental disabilities must meet the following requirements:

State Planning Council and Administration of Plan

(1)(A) The plan must provide for the establishment of a State Planning Council, in accordance with section 137, for the assignment to the Council of personnel in such numbers and with such qualifications as the Secretary determines to be adequate to enable the Council to carry out its duties under that section, and for the identification of the personnel so assigned.

(B) The plan must designate the State agency or agencies which shall administer or supervise the administration of the State plan and, if there is more than one such agency, the portion of such plan which

each will administer (or the portion the administration of which each will supervise).

(C) The plan must provide that each State agency designated under subparagraph (B) will make such reports, in such form and containing such information, as the Secretary may from time to time reasonably require, and will keep such records and afford such access thereto as the Secretary finds necessary to verify such reports.

(D) The plan must provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of and accounting for funds paid to the State under this part.

Description of Objectives and Services

(2) The plan must—

✓ (A) set out the specific objectives to be achieved under the plan and a listing of the programs and resources to be used to meet such objectives;

(B) describe (and provide for the review annually and revision of the description not less often than once every three years)

(i) the extent and scope of services being provided, or to be provided, to persons with developmental disabilities under such other State plans for Federally assisted State programs as the State conducts relating to education for the handicapped, vocational rehabilitation, public assistance, medical assistance, social services, maternal and child health, crippled children's services, and comprehensive health and mental health, and under such other plans as the Secretary may specify, and (ii) how funds allotted to the State in accordance with section 132 will be used to complement and augment rather than duplicate or replace services for persons with developmental disabilities which are eligible for Federal assistance under such other State programs;

✓ (C) for each fiscal year, assess and describe the extent and scope of the priority services (as defined in section 102(8)(B)) being or to be provided under the plan in the fiscal year; and

(D) establish a method for the periodic evaluation of the plans effectiveness in meeting the objectives described in subparagraph (A).

Use of Funds

(3) The plan must contain or be supported by assurances satisfactory to the Secretary that—

(A) the funds paid to the State under section 132 will be used to make a significant contribution toward strengthening services for persons with developmental disabilities through agencies in the various political subdivisions of the State;

(B) part of such funds will be made available by the State to public or nonprofit private entities;

(C) such funds paid to the State under section 132 will be used to supplement and to increase the level of funds that would otherwise be made available for the purposes for which Federal funds are provided and not to supplant such non-Federal funds; and

(D) there will be reasonable State financial participation in the cost of carrying out the State plan.

Provision of Priority Services

(4) (A) The plan must—

(i) provide for the examination not less often than once every three years of the provision, and the need for the provision, in the State of the four different areas of priority services (as defined in section 102(8) (B)); and

(ii) provide for the development, not later than the second year in which funds are provided under the plan after the date of the enactment of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, and the timely review and revision of a comprehensive statewide plan to plan, financially support, coordinate, and otherwise better address, on a statewide and comprehensive basis, unmet needs in the State for the provision of at least one of the areas of priority services, such area or areas to be specified in the plan, and (at the option of the State) for the provision of an additional area of services for the developmentally disabled, such area also to be specified in the plan.

(B) (i) Except as provided in clause (iii), the plan must provide that not less than \$100,000 or 65 percent of the amount available to the State under section 132, whichever is greater, will be expended, as provided in clause (ii), for service activities in the areas of services specified in the plan under subparagraph (A) (ii).

(ii) For any year in which the sums appropriated under section 131 do not exceed—

(I) \$60,000,000, not less than \$100,000 or 65 percent of the amount available to the State under section 132, whichever is greater, must be expended for service activities in no more than two of the areas of services specified in the plan under subparagraph (A) (ii), and

(II) \$90,000,000, not less than \$100,000 or 65 percent of the amount available to the State under section 132, whichever is greater, must be expended for service activities in no more than three of the areas of services specified in the plan under subparagraph (A) (ii).

(iii) A State, in order to comply with clause (i) for a fiscal year beginning before January 1, 1980, is not required to reduce the amount which is available to it under section 132 and which is expended for planning activities below the amount so expended for planning activities in the preceding fiscal year, if substantially the remainder of the amount available to the State, which is expended for other than administration, is expended for service activities in the areas of services specified in the plan under subparagraph (A) (ii). For purposes of this clause, expenditures for planning activities do not include any expenditures for service activities (as defined in clause (iv)).

(iv) For purposes of this subparagraph, the term "service activities" includes, with respect to an area of services, provision of services in the area, model service programs in the area, activities to increase the capacity of institutions and agencies to provide services in the area, coordinating the provision of services in the area with the provision of other services, outreach to individuals for the provision of services in the area, the training of personnel to provide services in

the area, and similar activities designed to expand the use and availability of services in the area.

(C) Notwithstanding subparagraph (B), upon the application of a State, the Secretary, pursuant to regulations which the Secretary shall prescribe, may permit the portion of the funds which must otherwise be expended under the State plan for service activities in a limited number of areas of services to be expended for service activities in additional areas of services if he determines that the expenditures of the State on service activities in the initially specified areas of services has reasonably met the need for those services in the State in comparison to the extent to which the need for such additional area or areas of services has been met in such State. Such additional areas shall, to the maximum extent feasible, be areas within the areas of priority services (as defined in section 102(8)(B)).

(D) The plan must provide that special financial and technical assistance shall be given to agencies or entities providing services for persons with developmental disabilities who are residents of geographical areas designated as urban or rural poverty areas.

Standards for Provision of Services- and Protection of Rights of Recipients of Services

(5) (A) (i) The plan must provide that services furnished, and the facilities in which they furnished, under the plan for persons with developmental disabilities will be in accordance with standards prescribed by the Secretary in regulations.

(ii) The plan must provide satisfactory assurances that buildings used in connection with the delivery of services assisted under the plan will meet standards adopted pursuant to the Act of August 12, 1968 (42 U.S.C. 4151-4157) (known as the Architectural Barriers Act of 1968).

(B) The plan must provide that services are provided in an individualized manner consistent with the requirements of section 112 (relating to habilitation plans).

(C) The plan must contain or be supported by assurances satisfactory to the Secretary that the human rights of all persons with developmental disabilities (especially those persons without familial protection) who are receiving treatment, services, or habilitation under programs assisted under this title will be protected consistent with section 111 (relating to rights of the developmentally disabled).

(D) The plans must provide assurances that the State has undertaken affirmative steps to assure the participation in programs under this title of individuals generally representative of the population of the State, with particular attention to the participation of members of minority groups.

Professional Assessment and Evaluation Systems

(6) The plan must provide for—

(A) an assessment of the adequacy of the skill level of professionals and paraprofessionals serving persons with developmental disabilities in the State and the adequacy of the State programs and plans supporting training of such professionals and parapro-

professionals in maintaining the high quality of services provided to persons with developmental disabilities in the State; and

(B) the planning and implementation of an evaluation system (in accordance with section 110(a)).

Utilization of VISTA Personnel; Effect of Deinstitutionalization

(7) (A) The plan must provide for the maximum utilization of all available community resources including volunteers serving under the Domestic Volunteer Service Act of 1973 (Public Law 93-113) and other appropriate voluntary organizations, except that such volunteer services shall supplement, and shall not be in lieu of, services of paid employees.

(B) The plan must provide for fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) to protect the interests of employees affected by actions under the plan to provide alternative community living arrangement services (as defined in section 102(8)(E)), including arrangements designed to preserve employee rights and benefits and to provide training and retraining of such employees where necessary and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

Additional Information and Assurances Required by Secretary

(8) The plan also must contain such additional information and assurances as the Secretary may find necessary to carry out the provisions and purposes of this part.

(c) The Secretary shall approve any State plan and any modification thereof which complies with the provisions of subsection (b). The Secretary shall not finally disapprove a State plan except after reasonable notice and opportunity for a hearing to the State.

A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary, or any officer designated by him for that purpose. The Secretary thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28, United States Code. Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Secretary may modify or set aside his order. The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or

modified findings of the fact and may modify his previous action, and shall file in the court the record of the further proceedings. The judgment of the court affirming or setting aside, in whole or in part, any action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code. The commencement of proceedings under this section shall not, unless so specifically ordered by the court, operate as a stay of the Secretary's action.
