**HOW TO ORDER**

Contact the NARC Christmas Card Division in Everett, Massachusetts.

Remember to include local or state unit number on all orders. Have this information stamped on all your forms before distributing them to potential customers. This is the only way to ensure proper credit and proper handling.

In the few cases where there is no unit number, please be sure that name of unit and address are clearly indicated.

Enclose checks or money orders with all orders, clearly indicating the amount of "additional donation" and to whom it is to be credited—i.e., your unit or NARC.

DO NOT order through NARC by phone or written form. It slows up orders.

DO NOT call NARC about your order, it slows up orders.

TYRANNY OF THE IQ

DR. GUNNAR DYNBIAD of Brandeis
University said at a recent
staff development conference in Denmark: "Most people are mis-
led by hearing that a person has a mental age of 6. They do
not keep in mind that this is the result of a mathematical av-
eraging of a large number of tests. From this, they move on
to an insidious misconception: That this man of 20 is like
a child of 6 and therefore should therefore be treated like
a child.

"This is utter nonsense. There are no 6-year-old chil-
dren who are 6 feet tall and weigh 180 pounds, have had 20
years of life experience, have the strength to stand for sev-
eral hours lifting logs onto a truck. Mentally retarded per-
sons are not 'eternal children.' To refer to them as such is
an insult to their dignity as human beings."

ALLERGIES ROOT OF SOME NEUROLOGICAL PROBLEMS

Some "brain-injured" children may simply have an allergy.

DR. MARSHALL MANDELL, Assistant Professor of Allergy at New York Medical College, has found that allergies to foods and substances in air and water can cause behavioral and mental symptoms that mask as emotional problems or even retardation.

At a recent meeting of the American College of Allergists in Washington, D.C., DR. MANDELL described cerebral allergy as a "widespread form of human misery." Cerebral allergy is the descriptive term for mental and behavioral symptoms that develop on exposure to certain allergens. Unfortunately, these symptoms are often mistakenly diagnosed as indications of psychiatric trouble. DR. MANDELL's clinical experience leads him to believe that a good many mentally hospital patients could be treated for allergies and sent home.

DR. MANDELL states he has eliminated debilitating symptoms in many patients by pinpointing allergens and eliminating them from the patients' diets or environments.

Recently, FRANK OLSON, Direc-

tempting to teach MR. EDWIN HULL how to take the bus to the

workshop. (MR. HULL has been a resident of Beatrice State Home

for 43 years.) The first day, FRANK told MR. HULL that they

would be taking the #7 bus. MR. HULL objected saying, "It's

the #9 bus." FRANK said, "No, it's the #7 bus." They got on

WE NEED MORE PEOPLE WHO CARE

No matter where people work or what they do, whenever someone doesn't care enough to do a good job, the other fellow gets stuck.

Things have to be that way, because today, more than at any other time in the history of mankind, we are all dependent upon one another.

Because there are too many people who don't care, our lives are fouled up with products that don't work, and service that shouldn't even be called by that name.

This is a time of new automobiles that have to go back to the dealer two or three times before everything works right; of expensive appliances with loose knobs; of sales clerks who act as if they wish you hadn't come in; of waiters who keep you waiting; of first class mail that gets second rate delivery; of repairmen who need two or three tries to get something fixed... a time of too many people who just don't care.

And that is strange, because the opportunities for people who do care—who believe in doing their best—have never been greater.

Quite probably, pride.

If... you are proud of your work, of your product or service, of your company, of giving customers their money's worth... YOU CARE...

HONEY SUNDAY

FAST APPROACHING
Sunday, November 21st, is the target date for the annual statewide fund raising campaign called HONEY SUNDAY. This drive is sponsored by the state Jaycees and the Nebraska Association for Retarded Children. All proceeds statewide go to benefit the mentally retarded in Nebraska. BUY HONEY ON HONEY SUNDAY!!!

MEN'S HOSTEL MOVES
November 12 to their new facility on 3646 Burt Street. The Burt Street Hostel has been completely refurbished, repainted, and redecorated and should be quite a "showplace." The Behavior Shaping Unit is scheduled to move into the California Hostel on Saturday, November 13.

BELEYUE VOC RECEIVES NEW CONTRACTS
The Bellevue Vocational Services Center has acquired two new contracts. The clients are rolling and sealing calendars for UF Calendar, and assembling invoices for inventory vickers under a contract with Omaha Printing Company.

ENCOR DEVELOPMENTAL CENTERS RECEIVE DONATIONS
A television set has been donated to the South Developmental Center by the Downtown Khuris Club. The Sarpy Developmental Center received a gift of Dutch toys from Dr. and Mrs. Frank Menolancing. Benson Developmental Center received a monetary donation from Mrs. Robert Parker to be used for purchasing equipment at the center. We extend our many thanks for these generous donations.
ENCOR welcomes Jonnie Zsolcsak as our new full-time bus driver, effective November 8. Paul Evans has been hired as a trainer at the Benson Vocational Services Center, and Marilyn Chatfield is working as a psychologist part-time for Supportive Services.

AND FAREWELLS

Chance Developmental Center bids farewell to secretary Jeanette Jones.

BEHAVIOR SHAPING UNIT

TAKING SHAPE

The new ENCOR Behavior Shaping Unit is beginning to take shape and will soon be in full operation. The unit will be housed in the California Hostel located at 5015 California and will officially open on November 23rd. The unit will be working with children, teaching self-help skills, fine and gross motor coordination, social skills, speech and language skills, and other basic skills necessary for children to enter existing developmental programs or possibly return home. This will also include working with parents to help them acquire certain skills such as accelerating, decelerating, and maintaining specified behaviors in their children. Newly hired staff members for the unit include: Leonard Dougherty, Arly Drain, Jeane Harris, Steven Lee, Raymond Levendusky, Barbara Nebrigigh, Margaret Schneppe, and Clavin Gorman.

BITS & PIECES

Parent classes have begun at the South and Benson Developmental Centers. Meetings are held weekly and will run for six to eight weeks. South Developmental students are participating in swimming classes every week at Christ Child, and soon will begin a bowling program. The annual Science reunion will be held on Wednesday, November 24 at the YWCA from 4:30 to 6:30 p.m. On Wednesday morning, November 10, the Chance Developmental Center gave a slide presentation at the Central Office. This presentation had previously been shown at the National Association for the Education of Young Children Conference which was held in St. Paul earlier this month.

ENCOR INVITATIONAL TOURNAMENT RESULTS

The first annual ENCOR Invitational Bowling Tournament was held on October 28 at the Ames Bowl. Clients from the Vocational Services Centers were eligible to enter and the results are as follows: Fremont, Monette Beuck and Darryl Stricklett; Bellevue, Marilyn Stauder, Maria Luvane, and Bill Hoffman; and Benson, Cindy Fox, Dennis Pirruccelu, and Ron Schultze. The integrated bowling league on Sunday afternoons is on its fifth week of bowling with the Omaha Stars still in first place. Due to the large number of adults participating in bowling at the Ames Bowl, we will soon be dividing into groups. Many of the participants will remain at Ames, while the remaining bowlers will be at another alley.

HE BETS ON HIMSELF

The psychologists have discovered that the human animal does no more than he has to do. In other words, he is lazy. The learned men put it this way: All men exhibit a tendency toward minimum effort. It seems that the average man, working under ordinary conditions, does just enough to get by. Now and then there is an exceptional man who does not like an easy time. Such a man analyzes himself and comes to the conclusion that if he is going to do any real work he must throw a scare into himself. So he does daring things. He borrows money in large gobs. He takes long chances, betting on himself to make good. Fearing the consequences of possible failure, he is able to generate more energy. When it's a case of sink or swim, we find we can swim a long way.

WANTED. . .MR. CLEAN

ENCOR is in need of a full-time maintenance man to do carpentry and plumbing repair, as well as other maintenance duties. If you know of anyone who might be interested, please have them contact Dick Lewis at the Central Office.
There's one wonderful thing about Christmas...it belongs to everyone! You can't buy it...sell it...bribe it...or banish it! Like music, sunshine, and laughter, it belongs to the world...uniting young and old...rich and poor...proud and humble. ENCOR Central Office takes this moment to share Christmas with you, and wish you and yours every happiness throughout the coming year.

Merry Christmas

To All ... and to All a Good Night.
