"There should be no child in America that has not the complete
BIRTHRIGHT of a sound mind in a sound body, and that has not
been born under proper conditions."

The White House Conference on Child Health and Protection—1930

February 20, 1947

Dear Sir:

Will you kindly use the enclosed form and self-addressed envelope to send us the indicated information on the sterilization program under your jurisdiction? This courtesy will enable us to issue another annual edition of the enclosed statistical folder which has proved so valuable to teachers and students.

In each of the past three years, responses have come in with increasing promptness and this year we are gratified to have some institutions report without waiting for our request.

Your cooperation in getting the needed information to us as soon as possible will be greatly appreciated.

Respectfully yours,

MSO/emw
encl/3

Marian S. Olden
Executive Secretary

2-19-47: Information sent to Birthright, Inc. indicated that one female only was operated on during 1946.
