

MINUTES OF STUDENT COUNCIL MEETING
March 6, 1954

Members present:

[REDACTED]

Before the meeting opened, we discussed the characteristics of a good council member. It was felt by members of the student council that since the council is a new project, we would have meetings twice a month for the first few months. Student members and buildings will be notified of the time and place of the next meeting.

New Business Carried; Student council members decided to wait for a few meetings before deciding on election of officers.

Dorm I, Sunnyside, suggested that each member be limited to present only two suggestions at each meeting.

Grandview, asked that the dormitory movies be kept on a definite time schedule.

Ivy D E F, asked if we could have an occasional non-denominational religious movie and if we would discontinue pirate pictures.

New Business Pending: The Springdale representative, suggested that a list of recreational equipment be posted in each dormitory so students would know what is available for them. It was also discussed by the group that a room be made available on either division or building level for storage of recreational equipment that the students could use in their leisure hours,

Dairy, asked that a pool table be installed at the Dairy for the use of the Dairy boys.

Elm asked if we could have more outside dances and if the infirm patients could be allowed to come and watch.

Iris, suggested that the evening dances run fifteen minutes longer. The dances now are scheduled for one hour and the girls feel that they have just arrived when it is time for them to return to the dorm.

Springdale, asked that more evening activities be made available for the working boys of Springdale.

Walcott, asked if the Walcott boys could be allowed to come to the movies on Sunday afternoon.
