

August 4, 1960

Faribault State School & Hospital

Dr. David J. Vail, Medical Director
Department of Public Welfare

Dr. E. J. Engberg, Superintendent

We are enclosing herewith two copies of the data for the staffing of our buildings for male and female patients prepared in the manner you had requested from the institutions for the mentally ill, patterned after that presented by the Willmar State Hospital at the Superintendents' Meeting last week. We wish to call attention to the staffing for Mohawk building and for rose building. A longer experience will be necessary to determine whether the staffing for these two buildings should not be as for those in Group A rather than B.

A copy of the staffing patterns enclosed is being sent to each receiving copies of this memo.
