Office Memorandum

DEPARTMENT _____

TO : E.J. Engberg, M.D.
Superintendent
Faribault State School and Hospital

FROM : David J. Vail, M.D. *DJV*
Medical Director

SUBJECT: Avery Food Service Survey

DATE: May 26, 1961

I am sure by now you have had a chance to study the MARC report including the survey of the food system at the Faribault State School and Hospital by Mr. Arthur C. Avery. The report is disturbing. I wonder if you have any comments about it. I think it would be particularly important for you and Mr. Krafve to look into ways and means whereby some of the deficiencies could be corrected by administrative measures which would not involve any financial outlay.

Meanwhile, I understand that Mr. Wangensteen will meet with Conrad Peterson, Mr. Chapado and Ethel Heaberlin to see what might be done further in order to help you out. As I indicated I think it is particularly important in the first instance, to begin correcting those things which can realistically be corrected.

I would very much appreciate a report from you at your earliest convenience.

cc: Mr. Hursh
