SUBJECT: Medical staffing

I have been asked by the MARC to go over with them our present situation and future plans regarding the medical staff problems and in programs of the various institutions for the mentally retarded. I want to be sure that my information is up to date and therefore would appreciate from you a brief but complete report about your medical staff, both active and consulting.

- 1) Names and Civil Service designations of your present medical staff and their working title at the institution.
- 2) Medical staff vacancies now existing under the present table of organization.
- 3) Additional staff positions called for in the Governor's budget request.
- 4) A list of your medical consulting staff and the time (hours per week) spent with you.
- 5) Any additional information which might be of interest.
