Commendation

The Mental Health Medical Policy Committee has asked me to pass along to you their official commendation to you and the entire staff at Faribault State Hospital for the most impressive job you have done in improving the hospital program, as evidenced by the film on Dakota Building which they viewed on December 17, 1969, together with their visit to the hospital on October 24, 1969. I am very pleased to join them in these congratulations.

I hope you will convey to your staff the good wish and myself for this splendid performance.

Keep up the good work
