• Leverage established LE integration technology patterns
• Leverage delivery channel partners
MAARC Reporting Solution Strategy, cont.

- Secure web services using XML-based MAARC report integration technologies such as XML/SOAP/RESTful technology
- Delivered through partner channels to LE RMS/Incident based applications
Work concurrently with Channel Partners and Law Enforcement Agency Partners

**Work with Channel Partners**

- Bureau of Criminal Apprehension (BCA)
- Minnesota Counties Computer Cooperative (MNCCC)
- LE software vendors
- Directly with agencies when desired

**Work with LE Agency Partners to:**

- Conduct LE workshops
- Document LE requirements
- Review and validate LE requirements

Combine channel partner solution with requirements for total solution
