

Three Coverage Options

Medical Assistance

Minnesota's Medicaid program that covers many low-income people, especially children and pregnant women. No monthly premium.

MinnesotaCare

Covers lower income Minnesotans who don't have access to affordable employer health care coverage. The maximum premium is \$50/month per person.

Qualified Health Plan

Tax credits are available to many individuals and families, many of whom do not have access to affordable health care coverage. To qualify, private coverage must be purchased through MNsure. The tax credit amount depends on your income and the cost of insurance in your area.

A photograph of a family of three outdoors. A man is holding a baby, and a woman is kissing the baby on the cheek. They are all smiling and looking at each other. The background is a soft-focus green landscape.

Get affordable
health coverage
through MNsure

Shop and Compare

MNSure is a marketplace where Minnesotans can shop, compare and choose health insurance coverage that meets their needs.

All MNSure plans include coverage for essential health benefits such as hospitalizations, emergency services, maternity and newborn care, prescription drugs, prevention and wellness visits, mental health and pediatric vision care.

MNSure plans also come with consumer protections. You cannot be denied coverage because of a pre-existing condition, nor can you be charged a higher premium because of your medical history. There is no annual or lifetime dollar limit on coverage.

Get Financial Help

MNSure is the only place you can qualify for financial help that can lower the cost of your monthly insurance premium.

Depending on household size and income, most Minnesotans qualify for a public insurance program like Medical Assistance or MinnesotaCare, or a low-cost plan from a private insurance company.

Financial help is only available through MNSure.
