

Navigator Communication Key Word List

We send lots of critical information through the Navigator Communication, and even if you read it every week (we hope you do!), we know you cannot possibly remember all the details. We have heard that many assisters move the newsletter to an email folder and search through them for an answer when an issue comes up. We are adding key words to important topics to assist you in searching for information in the future. The key word will appear in the header of the news item.

- **aipolicy** – information on special protections and benefits specific to American Indians
- **appupdate** – updates on changes made to the online application
- **certinfo** – information on timelines and requirements for certification
- **lifeevent** – policies and procedures related to reporting life events
- **mandateexempt** – policy and process information on exemptions from the individual shared responsibility provision
- **mapolicy** – policy information specific to Medical Assistance
- **mcrepolicy** – policy information specific to MinnesotaCare
- **mcreprem** – information related to MinnesotaCare premiums
