

2023-2024 Licensure Assignment Table

The Licensure Assignment table is organized by licensure field/ code. The purpose of this table is to assist in determining the assignments a licensed educator can fill. This table contains a list of all current and legacy licenses.

Current licensure fields are a size larger and in bold print. When completing Tier 1 and Tier 2 licenses or Out-of-Field Permissions, please use the current licensure field areas only.

Important Links:

[Career and Technical Education \(CTE\)](https://education.mn.gov/MDE/dse/cte/lic/) (<https://education.mn.gov/MDE/dse/cte/lic/>)

[Minnesota Administrative Rules Chapter 8710](https://www.revisor.mn.gov/rules/8710/): Teacher and Other School Professional Licensing (<https://www.revisor.mn.gov/rules/8710/>)

[Minnesota Administrative Rules Chapter 3512](https://www.revisor.mn.gov/rules/3512/): Licensure of School Personnel (<https://www.revisor.mn.gov/rules/3512/>)

Important Terminology:

Administrative License – In Minnesota there are four administrative licenses: superintendent, principal, special education director, and community education director. This table also contains legacy administrative licenses. Administrative licenses fall under the authority of Board of School Administrators (BOSA), but are processed through the licensing executives of Professional Educator Licensing and Standards Board (PELSB). The rules regarding administrative personnel can be found in Chapter 3512 rules.

CTE license – A teacher must hold a Career and Technical Education (CTE) license to provide instruction in for programs receiving CTE funding. Use the Career and Technical Education link under Important Links to locate Table C for a list of CTE programs. These are teacher licenses and their rules can be found under Chapter 8710 rules: Teachers of Career and Technical Education 8710.8010 – 8710.8080.

Current License – Current licensure field that can be issued with a new license or a permission.

Legacy License – Old licensure field that cannot be issued with a new license or permission and can only be renewed.

Scope of License – The teacher is authorized to teach only within the grade levels or age spans listed on the individual’s license.

Teacher License – Licenses allowing an individual to be Teacher of Record. Teacher licensure rules can be found under Chapter 8710 rules: Teacher Standards 8710.3000 – 8710.5850.

Teacher of Record – The Teacher of Record is an individual responsible for the planning, instruction, and assessment of students in a classroom and authorized to grant credit (Minnesota Administrative Rules 8710.0310).

Related Services License – In Minnesota, an individual must hold a related services license to serve as a Speech-Language Pathologist, School Nurse, School Psychologist, School Social Worker, and School Counselor. These rules can be found under Chapter 8710 rules: Other School Professionals 8710.5900 – 8710.6400.

Vocational License – Legacy licensure field that focuses on career and technical education.

Important Notes:

- Any questions regarding licensure requirements for specific courses can be send to STAR staff at star.pelsb@state.mn.us.
 - Please include the following information on the email:
 - A list of job duties
 - Program information (Project Lead the Way, ALEKS, etc.), including any web links when possible
 - Funding information (ADSI, Title 1, Perkins, etc.)
- All assignments must be within the scope and content of license. This means, educators can only work within the grade levels listed on the individual's license within the content area it is listed.
- For example, a teacher holding 150000 Social Studies with scope of 5-8 (grades 5-8) can only teach social studies courses for grades 5-8. They cannot teach it for 4th grade nor can they teach general education for 5th grade.
- If the same teacher also holds a 130200 Life Science with scope of 9-12, they can teach life science and biology classes in high school. They cannot teach it for grades 5-8 without obtaining a permission.
- If an assignment falls within the content area of an educator's license, but not within the grade level, a permission is required.
- If an assignment falls within the grade level of the license, but not the content area, a permission is required.
- **There are many non-instructional and a few instructional assignments that accept any educator license or any teacher license. These assignment codes will not be listed here. Please see the Assignment Licensure Table for assignments you cannot find on this table.**
