Purpose of EPPAS

Biennial reporting of program efficacy is intended to evidence to the Board of Teaching and public that licensure programs are compliant to established standards and produce graduates who have mastered the competencies needed to be effective beginning teachers.

The components of the required report are aligned to adopted Board of Teaching standards. To receive Board of Teaching continuing approval, the unit must provide evidence that program data has been monitored and evaluated, and supports the attestation that the program is effective and warrants continued approval.

PELSB Process

1. The RIPA application will be audited by PELSB staff for technical and rule issues to be addressed.

Must submit by August 31, one year prior to proposed start date.

2. The RIPA application will be sent to external reviewers (experts in instruction of the content area) for review. They may either recommend approval to the Board or recommend a review by the Program Review Panel if any issues are of concern.

This process can take 1-5 months.

3. The Program Review Panel** will request additional information from the institution then meet to make a recommendation to the board regarding the program.

The Program Review Panel meets in February and April of each year.

4. If approved, the program can start after the Board meeting's official approval of the program.
5. The program may be active for two years before submitting a PERCA renewal.*

***To renew a RIPA, follow the "EPPAS: PERCA Renewal" video and manual.**

****For more information on the Program Review Panel and Continuous Improvement, see the "Program Renewal Process" video and accompanying documents.**
