

Residency Identification Form

For the purpose of grant eligibility and notation for aspiring teachers, preparation providers may want to have their programs labeled as “residency” programs. To receive the designation of a PELSB-approved residency program, providers must provide evidence aligned with the definition set forth in rule (8705.2100, Subp.

2.D(5)(g)):

Minn. Administrative Rule 8705.2100, Subp. 2.D(5)(g) “Residency” defined as a program offered in partnership with a designated school partner that provides a year-long clinical experience integrating learning opportunities and student teaching. A residency program uses a cohort-based model that pairs candidates, often referred to as residents, with cooperating teachers. The residency program must ensure each candidate is placed for a full academic year to co-teach and participate in professional development for at least 80 percent of the contracted school week. The residency program must ensure that each cooperating teacher serves as the teacher of record and receives ongoing professional development in co-teaching, mentoring, and coaching skills. Candidates may receive a stipend, salary, or other form of commensurate financial support during the residency program.
