SY2026-27 LICENSURE ASSIGNMENT TABLE

Licensure compliance always focuses on what the license holder is doing. A license or permission must align to the content area and grade scope of the assignment.

The *Licensure Assignment Table* has been significantly reorganized from previous iterations. The Table of Contents helps to quickly navigate this document.

Use this document when the license held is known and the information being sought is what are the allowable assignments. The *Assignment Licensure Table* is the inverse. Non-instructional assignments and those which may be completed with any number of allowed licenses are found in the *Assignment Licensure Table*.

Unless otherwise noted, assignments are arranged in alphabetical order within the section. **Additions or changes that went into effect for SY2026-27 are distinguished narratively by a written designation, and visually by use of bold accent orange.**

Questions related specifically to this resource, or licensure compliance in general, may be submitted to:

Key Information: District Superintendent as Community Education Director

KEY INFORMATION

If the district's *residential* population is less than 6,000, an employee who holds a valid superintendent license may serve as Community Education Director (MINN. STAT. 124D.19, subd. 3c). Time spent should be reported under the District Superintendent assignment and not a separate Community Education Director assignment.

Districts with Community Education programs, located within a residential population over 6,000, must employ a licensed Community Education Director.

A District Superintendent may delegate day-to-day operations of a community education program to a Program Coordinator. However, it is the District Superintendent who is *solely* responsible for administrative functions like budgeting and all required reporting to MDE.

Principal

- **Only a person holding a Principal license should be referred to as a Principal.**
- If an administrator is also a program coordinator, report assignment with one (1) to five (5) periods per week. Report remainder of administrative assignment as 25 to 29 periods per week.

LFC 933000

REQUIREMENT

A person who serves or performs the duties of a principal must hold a license appropriate to that position. This person has demonstrated competence in the core areas of leadership; organizational management; equitable and culturally responsive leadership; policy and law; communication; community relations; curriculum, instruction, assessment; human resource management; values and ethics of leadership; judgment and problem analysis; and safety and security.

TEACHING LICENSES, INSTRUCTIONAL

Career and Technical Education

The Minnesota Department of Education (MDE) is responsible for approving CTE programs. Since CTE programs can leverage certain federal funds, these programs may have additional federal requirements that affect which licenses are required of the teachers participating in the programs. PELSB recommends district staff to consult with the appropriate MDE department for all questions related to program and funding requirements.

There are three (3) licenses fields that able to provide instruction in both general education and career and technical education classrooms: Agricultural Education, Business, and Family and Consumer Sciences (FACS). To make it easier for district staff to select the appropriate code for an assignment the CTE-specific codes are included in this section. General education codes are included in the respective General Education sections.

General Education

Adult Basic Education

A school board shall not be prohibited from employing a teacher who holds a teaching license, but who is not licensed as a teacher of adult basic education to teach adult basic education.

A license under this part does not qualify a teacher to provide instruction leading to a high school diploma.

State law provides an exception to the licensure requirement in the case of English as a Second Language (ESL) ABE classes. Individuals who hold a bachelor's or higher degree in ESL, applied linguistics, or bilingual education may teach an ESL ABE class, even if they do not hold a teaching license. Please note that while licensure may not be required, individuals with a bachelor's or master's degree may qualify for a Tier 1 or Tier 2 license. These situations are reported in the NA or Non-Licensed Files (classification code 999969). Reference: Minnesota Statutes 2025, section 124D.52, subd. 4.

Library Media Specialist

Licensed Library Media Specialists (LMS) are incredibly versatile professionals. Their training has prepared them to provide instruction related to computer education and computer science; to be a teacher of record in their own right; to create or co-create learning at the request of licensed classroom teachers; to provide technology-related support to their peers; and to complete the administrative tasks related to management of a school library or school library media center. Effective SY2026-27, there have been updates to assignments codes for this license. Library Media Specialists continue to be able to teach and complete all the same instruction, peer support, and media center administration. The only change is how districts report assignments.

DISTRICT NOTES ABOUT SPED LICENSES and MODE of TEACHING

A special education teacher can provide services to students outside of their categorical area if they are a part of a Multidisciplinary or Multidisability Team. In this model at least one of the teachers on an IEP team must hold the appropriate license for the special education category of the student being served, but any licensed special education teacher or related service provider on the team can provide services to the student as determined by the team.

ABOUT SPED ASSIGNMENTS

The *categorical* assignment is used to account for duties which are a regular part of special education teaching duties:

- Performs IEP Management.
- Assigned to a resource or supplemental classroom, not main class for core content.
- Provides IEP services and support through a pull-out situation.
- Provides support and services to students within the mainstream classroom, a push-in model.
- Teaches a Life Skills or Study Skills class for Special Education students.
- Assisting or team teaching with a mainstream teacher in the mainstream classroom.

Substitute Licenses

- Specific to the annual Staff Automated Report (STAR), a person holding a short-call sub license, of any kind, is only included in a district's submission if the person is acting as a Building Reserve Substitute. That is, expected to report for duty every day. People who serve as a sub intermittently are not reported.
- A short-call substitute cannot teach for 20 days, take one (1) day off, and then return to the same position for another 20 days. When a Teacher of Record is absent from an assignment for more than 20 consecutive school days or a vacancy remains unfilled for more than 20 consecutive school days, the assignment must be filled with a long-term substitute who holds the appropriate license.
    - **A class that does not meet on consecutive days of the week**. If a class meets on Monday, Wednesday, and Friday this is considered three consecutive days. The days the class does not meet does not count when calculating the 20 days. Weekends and non-school days are also not counted. If the teacher has taught 19 consecutive days before a weeklong school vacation, then they can only return to the assignment for one day.
    - **A class that meets irregularly**.
