description: I want to know how to request a review of the sentencing guidelines for criminal vehicular homicide. My step-son Josiah Oakley was killed by a drunk driver, going 90 miles an hour in a 30 mile an hour zone and he was sentenced to 48 months, he's only going to serve a little over 2 years. The county attorney offered a settlement before court proceedings happened. We we're told that's the law. How do we change this? People are dying and the people responsible are getting out of jail in less than 4 years? The sentencing Board cannot possibly think this is acceptable. Thank you for your help
