Persons sentenced within the same county in a one-month period are generally counted only once, based on their most serious offense. This data request was prepared by the research staff of MSGC in fulfillment of the Commission's statutory role as a clearinghouse and information center for information on sentencing practices. This is not a policy document. Nothing in this request should be construed as a statement of existing policy or recommendation of future policy on behalf of the Commission itself, or as an authoritative interpretation of the Minnesota Sentencing Guidelines, Minnesota statutes, or case law.

b. **Durational Departures:** when the Court pronounced a sentence duration that is different from the recommended duration provided by the Guidelines; either more or less than the fixed duration for presumptive stays, or outside of the duration range (15% lower and 20% higher) for presumptive commits, provided the minimum sentence is not less than one year and the maximum sentence is not more than the statutory maximum (See section 2.C.1-2).

c. **Non-Prison Sentences:** among non-prison sentences, "None" the pronounced non-prison sentence length from the Court matched the length recommended by the Guidelines; "Agg" an aggravated durational departure for a non-prison sentence when the pronounced non-prison sentence was more than the fixed duration for a presumptive stay or more than 20% higher than the fixed duration for a presumptive commit sentence; "Mit" a mitigated durational departure for a non-prison sentence when the pronounced non-prison sentence was less than the fixed duration for a presumptive stay or more than 15% lower than the fixed duration for a presumptive commit sentence; "Misd/GM" a mitigated durational departure where the Court imposed a misdemeanor or gross misdemeanor sentence for a felony-level conviction, meaning up to 364 days of confinement in a local jail or other non-jail sanctions can be imposed as a condition of probation.

d. **Prison Sentence:** Among prison sentences, "None" the pronounced prison sentence length from the Court matched the length recommended by the Guidelines; "Agg" an aggravated durational departure for a prison sentence when the pronounced prison sentence was more than the fixed duration for a presumptive stay or more than 20% higher than the fixed duration for a presumptive commit sentence; "Mit" a mitigated durational departure for a prison sentence when the pronounced prison sentence was less than the fixed duration for a presumptive stay or more than 15% lower than the fixed duration for a presumptive commit sentence.

The prosecutor agreed to/recommended/ did not object to the departure in 8 (88.9%) cases, objected to the departure in none of the cases, and in 1 (11.1%) case the position of the prosecutor was unknown.

⁶ The total number of defendants that received a prison includes the following: persons who demanded execution of sentence where it was not considered an aggravated dispositional departure, all aggravated dispositional departures among presumptive stays, and non-departures among presumptive commits.

⁷ The court may provide multiple reasons for prison sentences receiving mitigated durational departures; percents may not add up to 100.0%.
