Minnesota's Commitment to Diversity and Inclusion

The State of Minnesota is committed to diversity and inclusion in its public procurement process. The goal is to ensure that those providing goods and services to the State are representative of our Minnesota communities and include businesses owned by minorities, women, veterans, and those with substantial physical disabilities. Creating broader opportunities for historically under-represented groups provides for additional options and greater competition in the marketplace, creates stronger relationships and engagement within our communities, and fosters economic development and equality.

To further this commitment, the Department of Administration operates a program for Minnesota-based small businesses owned by minorities, women, veterans, and those with substantial physical disabilities. For additional information on this program, or to determine eligibility, please call 651-296-2600 or go to [the Office of Equity in Procurement home page, at www.mn.gov/admin/oep](https://www.mn.gov/admin/oep).

SPECIAL NOTICE: This is a request for proposal. It does not obligate the State of Minnesota to award a contract or complete the proposed program, and the State reserves the right to cancel this solicitation if it is considered in its best interest.

SECTION 2 – SUMMARY OF SCOPE

1. Solicitation Overview and Goals.

Research shows that adults and children with disabilities are at a higher risk for maltreatment (abuse and neglect) than the general population, and that allegations of maltreatment in this population are underreported¹. The target audience for this RFP is people with disabilities and their families, the general public, tribes and counties, and services providers. This RFP aims to expand public awareness of the identification and prevention of abuse and neglect of people with disabilities in all Home and Community Based Waiver service settings (HCBS). The use of Minnesota's state-only *Money Follows the Person*² rebalancing demonstration project funds has been approved by the Minnesota State Legislature ([Minnesota Statutes, section 256B.04, subdivision 20](#)). The Minnesota Department of Human Services has approved this public awareness campaign and determined that the Minnesota Department of Administration through the Governor's Council on Developmental Disabilities should administer the competitive solicitation and contract. The campaign meets the Money Follows the Person (MFP) program goal of placing procedures in place to ensure quality assurance and improve home and community based services.

By increasing awareness of the occurrence of abuse and neglect and associated risk factors there is an improved likelihood that abuse and neglect is avoided or identified early and reported. Increasing awareness may also improve the quality of life for people with disabilities who live, learn, work and enjoy life in the most integrated setting.

In 2019, the State, through the Office of the Ombudsman for Mental Health and Developmental Disabilities contracted for the development and launching of a prevention of maltreatment public awareness campaign. The campaign is named the *Treat People Like People* campaign. The Minnesota Department of Administration through the Governor's Council on Developmental Disabilities (GCDD), requests proposals to expand and manage the *Treat People Like People* public awareness campaign. This includes making the campaign messaging accessible to people with disabilities from racial and ethnic communities who received HCBS in waiver settings.

2. Sample Tasks and Deliverables.

The successful Responder/contractor (Contractor) will further develop the capacity of the existing *Treat People Like People* web site (<https://treatpeoplelikepeople.org/>) to effectively deliver key messages on how to prevent abuse and neglect of people with disabilities.

Contractor will coordinate its campaign messages with Minnesota Governor's Council on Developmental Disabilities and engage efforts with the several state agencies (including but not limited to the Olmstead Implementation Office, Adult Protection Unit of the Aging and Adult Services Division, and the Ombudsman for Mental Health and Developmental Disabilities) and other partners through or with the Contractor in order to have a cohesive campaign to increase the public's awareness of the prevalence, severity, and contributing factors of abuse and neglect experiences by people with disabilities who use waiver services.

¹ For more information, review the 2018 report "[Comprehensive Plan for Prevention of Abuse and Neglect of People with Disabilities](#)" prepared by the Olmstead Prevention of Abuse and Neglect Specialty Committee for the Olmstead Subcabinet.

² The Money Follows the Person (MFP) demonstration supports state efforts for rebalancing their long-term services and supports system so that individuals have a choice of where they live and receive services. From the start of the program in 2008 through the end of 2020, states have transitioned over 107,000 people to community living under MFP. The U.S. Department of Health and Human Services announced awards to thirteen states, including Minnesota, to receive *Money Follows the Person* Demonstration Program Grants. Minnesota calls its program "Moving Home Minnesota." The program grants are intended to help the Minnesota Department of Human Services continue 1) to rebalance its long-term care system away from dependence on institutional care to achieve a sustainable balance of institutional and community-based services and, 2) to provide more individualized care for some of Minnesota's most vulnerable residents.

Contractor will create and launch campaign messages for the target groups below, including diverse racial, ethnic, and cultural communities. This includes coordinating with the Adult Protection Unit of the Aging and Adult Services Division in messaging on state policy about reporting suspected abuse, neglect, and financial exploitation for these target groups:

1. People with disabilities
2. Families of people with disabilities
3. Providers and lead agencies that serve people with disabilities

For each target group, there are primary campaign messages that can be expected.

The primary messages for people with disabilities focus on dignity and respect because they are at higher risk for abuse, neglect, and financial exploitation. People with disabilities have strengths and resiliency which can mitigate risk if properly supported with home and community-based services. This campaign can also help people with disabilities receive the necessary knowledge, skills, and opportunities to exercise choice in order to live a life of inclusion.

For families, the primary messages focus on family-centered services and supports to minimize devaluation of a family member, increasing independence, reducing stress to mitigate risk of family abuse, and teaching families to become life-long advocates.

The primary messages for providers and lead agencies focus on the high level of abuse and neglect that meet the legal definition, as well as the even higher levels of emotional abuse that do not meet that legal definition. Providers and lead agencies can learn the signs of abuse, neglect, and trauma and in turn, can take action to recognize and support informed decision-making.

The selected Contractor will:

- Conduct listening and discussion sessions to expand the campaign to engage diverse racial, ethnic and cultural communities currently receiving Home and Community Based Waiver Services. This process will include people with disabilities, families, waiver providers, and DHS lead agencies in both rural and metro Minnesota. This will provide significantly deeper insights regarding these communities, therefore ensuring the campaign will be relevant and impactful statewide and throughout all key demographics.
- Develop a strategic plan encompassing perception/issue awareness identification, key messaging, and outreach methodology for each target group identified. This will provide a roadmap for campaign messaging and outreach that is embedded in critical insights and optimizes the best ways to reach each target group.
- Develop and implement the campaign content, including video products, social media graphics, online and offline advertising, posters, buttons, and brochures. Impactful visuals and messaging will cohesively reach all audiences statewide.
- Develop partnerships with up to four associations or organizations representing the target groups to share campaign messaging and materials throughout their constituencies.
- Conduct weekly website maintenance and content updates resulting in a functional, high-performing website 'home' for more in-depth information on this important subject.
- Collect and curate success stories. Track monthly and quarterly analytics of campaign reach and engagement. This will document campaign results utilizing authenticated third-party tools, accompanied by recommendations for continuous improvement. This task will be performed by an objective third-party consultant retained by the Contractor.

- 1.1 Prompt Payment. The State will pay the Contractor pursuant to Minn. Stat. § 16A.124, which requires payment within 30 days following receipt of an undisputed invoice, or merchandise or service, whichever is later. Terms requesting payment in less than 30 days will be changed to read “Net 30 days.” Notwithstanding the foregoing, the State may pay the Contractor in advance for purchases as allowed pursuant to Minn. Stat. §16A.065.

The payment for each order will only be made for goods received or services actually performed that have been accepted by the ordering entity, and meet all terms, conditions, and specifications of the Contract and the ordering document.

2. Assignment, Amendments, Waiver, and Contract Complete.

- 2.1 Assignment. The Contractor may neither assign nor transfer any rights or obligations under this Contract without the prior consent of the State and a fully executed assignment agreement, executed and approved by the authorized parties or their successors.
- 2.2 Amendments. Any amendment to this Contract must be in writing and will not be effective until it has been executed and approved by the authorized parties or their successors.
- 2.3 Waiver. If the State fails to enforce any provision of this Contract, that failure does not waive the provision or its right to enforce it.
- 2.4 Contract Complete. This Contract contains all negotiations and agreements between the State and the Contractor. No other understanding regarding this Contract, whether written or oral, may be used to bind either party.

3. Termination.

- 3.1 Termination for Convenience. The State or Commissioner of Administration may cancel this Contract at any time, with or without cause, upon 30 days’ written notice to the Contractor. Upon termination for convenience, the Contractor will be entitled to payment, determined on a pro rata basis, for services or goods satisfactorily performed or delivered.
- 3.2 Termination for Breach. The State may terminate this Contract, with cause, upon 30 days’ written notice to Contractor of the alleged breach and opportunity to cure. If after 30 days, the alleged breach has not been remedied, the State may immediately terminate the Contract.
- 3.3 Termination for Insufficient Funding. The State may immediately terminate this Contract if it does not obtain funding from the Minnesota Legislature, or other funding source; or if funding cannot be continued at a level sufficient to allow for the payment of the services addressed within this Contract. Termination must be by written notice to the Contractor. The State is not obligated to pay for any services that are provided after notice and effective date of termination. However, the Contractor will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed to the extent that dedicated funds are available. The State will not be assessed any penalty if the Contract is terminated because of the decision of the Minnesota Legislature, or other funding source, not to appropriate funds. The State must provide the Contractor notice of the lack of funding. This notice will be provided within a reasonable time of the State’s receiving notice.

4. Force Majeure.

Neither party shall be responsible to the other or considered in default of its obligations within this Contract to the extent that performance of any such obligations is prevented or delayed by acts of God, war, riot, disruption of government, or other catastrophes beyond the reasonable control of the party unless the act or occurrence could have been reasonably foreseen and reasonable action could have been taken to prevent the delay or failure to perform. A party relying on this provision to excuse performance must provide the other party prompt written notice of the inability to perform and take all necessary steps to bring about performance as soon as practicable.

5. Indemnification.

5.1 In the performance of this Contract, the Indemnifying Party must indemnify, save, and hold harmless the State, its agents, and employees, from any claims or causes of action, including attorney's fees incurred by the State, to the extent caused by Indemnifying Party's:

- Intentional, willful, or negligent acts or omissions; or
- Actions that give rise to strict liability; or
- Breach of contract or warranty.

The Indemnifying Party is defined to include the Contractor, Contractor's reseller, any third party that has a business relationship with the Contractor, or Contractor's agents or employees, and to the fullest extent permitted by law. The indemnification obligations of this section do not apply in the event the claim or cause of action is the result of the State's sole negligence. This clause will not be construed to bar any legal remedies the Indemnifying Party may have for the State's failure to fulfill its obligation under this Contract.

5.2 Nothing within this Contract, whether express or implied, shall be deemed to create an obligation on the part of the State to indemnify, defend, hold harmless or release the Indemnifying Party. This shall extend to all agreements related to the subject matter of this Contract, and to all terms subsequently added, without regard to order of precedence.

6. Governing Law, Jurisdiction, and Venue.

Minnesota law, without regard to its choice-of-law provisions, governs this Contract. Venue for all legal proceedings out of this Contract, or its breach, must be in the appropriate state or federal court with competent jurisdiction in Ramsey County, Minnesota.

7. Subcontracting and Subcontract Payment.

7.1 Subcontracting Allowed. A subcontractor is a person or company that has been awarded a portion of the Contract by Contractor. Only subcontractors that have been approved by the State's Authorized Representative can be used for this Contract.

After the effective date of the Contract, the Contractor shall not, without prior written approval of the State's Authorized Representative, subcontract for the performance of any of the Contractor's obligations that were not already approved for subcontracting when the Contract was awarded. During this Contract, if an approved subcontractor is determined to be performing unsatisfactorily by the State's Authorized Representative, the Contractor will receive written notification that the subcontractor can no longer be used for this Contract.

The provisions of the Contract shall apply with equal force and effect to all approved subcontractors engaged by the Contractor. Notwithstanding approval by the State, no subcontract shall serve to terminate or in any way affect the primary legal responsibility of the Contractor for timely and satisfactory performances of the obligations contemplated by the Contract.

7.2 Subcontractor Payment. Contractor must pay any subcontractor in accordance with Minn. Stat. § 16A.1245.

8. Data Disclosure.

Under Minn. Stat. § 270C.65, subd. 3 and other applicable law, the Contractor consents to disclosure of its social security number, federal employer tax identification number, and Minnesota tax identification number, already provided to the State, to federal and state agencies, and state personnel involved in the payment of state obligations. These identification numbers may be used in the enforcement of federal and state laws which could result in action requiring the Contractor to file state tax returns, pay delinquent state tax liabilities, if any, or pay other state liabilities.

9. Government Data Practices.

The Contractor and State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (or, if the State contracting party is part of the Judicial Branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the State under this Contract, and as it applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contractor under this Contract. The civil remedies of Minn. Stat. § 13.08 apply to the release of the data governed by the Minnesota Government Practices Act, Minn. Stat. Ch. 13, by either the Contractor or the State.

If the Contractor receives a request to release the data referred to in this clause, the Contractor must immediately notify and consult with the State's Authorized Representative as to how the Contractor should respond to the request. The Contractor's response to the request shall comply with applicable law.

10. Intellectual Property Rights.

10.1 Definitions. For the purpose of this Section, the following words and phrases have the assigned definitions:

10.1.1 "Documents" are the originals of any databases, computer programs, reports, notes, studies, photographs, negatives, designs, drawings, specifications, materials, tapes, disks, or other materials, whether in tangible or electronic forms, prepared by the Contractor, its employees, agents, or subcontractors, in the performance of this Contract.

10.1.2 "Pre-Existing Intellectual Property" means intellectual property developed prior to or outside the scope of this Contract, and any derivatives of that intellectual property.

10.1.3 "Works" means all inventions, improvements, discoveries (whether or not patentable), databases, computer programs, reports, notes, studies, photographs, negatives, designs, drawings, specifications, materials, tapes, and disks conceived, reduced to practice, created or originated by the Contractor, its employees, agents, and subcontractors, either individually or jointly with others in the performance of this Contract. "Works" includes Documents.

10.2 Ownership. The State owns all rights, title, and interest in all of the intellectual property rights, including copyrights, patents, trade secrets, trademarks, and service marks in the Works and Documents created and paid for under this Contract. The Documents shall be the exclusive property of the State and all such Documents must be immediately returned to the State by the Contractor upon completion or cancellation of this Contract. To the extent possible, those Works eligible for copyright protection under the United States Copyright Act will be deemed to be "works made for hire." The Contractor assigns all right, title, and interest it may have in the Works and the Documents to the State. The Contractor must, at the request of the State, execute all papers and perform all other acts necessary to transfer or record the State's ownership interest in the Works and Documents.

10.3 Pre-existing Intellectual Property. Each Party shall retain ownership of its respective Pre-Existing Intellectual Property. The Contractor grants the State a perpetual, irrevocable, non-exclusive, royalty free license for

Contractor's Pre-Existing Intellectual Property that are incorporated in the products, materials, equipment, deliverables, or services that are purchased through the Contract.

10.4 Obligations.

10.4.1 Notification. Whenever any invention, improvement, or discovery (whether or not patentable) is made or conceived for the first time or actually or constructively reduced to practice by the Contractor, including its employees and subcontractors, in the performance of this Contract, the Contractor will immediately give the State's Authorized Representative written notice thereof, and must promptly furnish the State's Authorized Representative with complete information and/or disclosure thereon.

10.4.2 Representation. The Contractor must perform all acts, and take all steps necessary to ensure that all intellectual property rights in the Works and Documents are the sole property of the State, and that neither Contractor nor its employees, agents, or subcontractors retain any interest in and to the Works and Documents. The Contractor represents and warrants that the Works and Documents do not and will not infringe upon any intellectual property rights of other persons or entities.

10.4.3 Indemnification. Notwithstanding any other indemnification obligations addressed within this Contract, the Contractor will indemnify; defend, to the extent permitted by the Attorney General; and hold harmless the State, at the Contractor's expense, from any action or claim brought against the State to the extent that it is based on a claim that all or part of the Works or Documents infringe upon the intellectual property rights of others. The Contractor will be responsible for payment of any and all such claims, demands, obligations, liabilities, costs, and damages, including but not limited to, attorney fees. If such a claim or action arises, or in the Contractor's or the State's opinion is likely to arise, the Contractor must, at the State's discretion, either procure for the State the right or license to use the intellectual property rights at issue or replace or modify the allegedly infringing works or documents as necessary and appropriate to obviate the infringement claim. This remedy of the State will be in addition to and not exclusive of other remedies provided by law.

11. Copyright.

The Contractor shall save and hold harmless the State of Minnesota, its officers, agents, servants and employees, from liability of any kind or nature, arising from the use of any copyrighted or noncopyrighted compositions, secret process, patented or nonpatented invention, article or appliance furnished or used in the performance of the Contract.

12. Contractor's Documents.

Any licensing and maintenance agreement, or any order-specific agreement or document, including any pre-installation, linked or "click through" agreement that is allowed by, referenced within or incorporated within the Contract whenever the Contract is used for a State procurement, whether directly by the Contractor or through a Contractor's agent, subcontractor or reseller, is agreed to only to the extent the terms within any such agreement or document do not conflict with the Contract or applicable Minnesota or Federal law, and only to the extent that the terms do not modify, diminish or derogate the terms of the Contract or create an additional financial obligation to the State. Any such agreement or document must not be construed to deprive the State of its sovereign immunity, or of any legal requirements, prohibitions, protections, exclusions or limitations of liability applicable to this Contract or afforded to the State by Minnesota law. A State employee's decision to choose "accept" or an equivalent option associated with a "click-through" agreement does not constitute the State's concurrence or acceptance of terms, if such terms are in conflict with this section.

13. State Audits.

Under Minn. Stat. § 16C.05, subd. 5, the Contractor's books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by the State, the State Auditor, or Legislative Auditor, as appropriate, for a minimum of six years from the expiration or termination of this Contract.

14. Publicity and Endorsement.

14.1 Publicity. Any publicity regarding the subject matter of this Contract must identify the State as the sponsoring agency and must not be released without prior written approval from the State's Authorized Representative. For purposes of this provision, publicity includes notices, informational pamphlets, press releases, information posted on corporate or other websites, research, reports, signs, and similar public notices prepared by or for the Contractor individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

14.2 Endorsement. The Contractor must not claim that the State endorses its products or services.

15. Debarment by State, its Departments, Commissions, Agencies, or Political Subdivisions.

Contractor's certification is a material representation upon which the Contract award was based. Contractor shall provide immediate written notice to the State's Authorized Representative if at any time it learns that this certification was erroneous when submitted or becomes erroneous by reason of changed circumstances.

16. [Delete if no federal funds. If federal funds will or may be used, add any specific terms or requirements to Exhibit E.] Federal Funds.

16.1 Compliance with Federal Requirements. Federal money will be used or may potentially be used to pay for all or part of the goods, construction or services under the Contract. The Contractor is responsible for compliance with all federal requirements imposed on the funds and accepts full financial responsibility for any requirements imposed by the Contractor's failure to comply with federal requirements.

16.2 Certification regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion. Federal money will be used or may potentially be used to pay for all or part of the work under the Contract, therefore Contractor certifies that it is in compliance with federal requirements on debarment, suspension, ineligibility and voluntary exclusion specified in the solicitation document implementing Executive Order 12549. Contractor's certification is a material representation upon which the Contract award was based.

17. Contingency Fees Prohibited.

Pursuant to Minn. Stat. § 10A.06, no person may act as or employ a lobbyist for compensation that is dependent upon the result or outcome of any legislation or administrative action.

18. Certification of Nondiscrimination (in accordance with Minn. Stat. § 16C.053).

If the value of this Contract, including all extensions, is \$50,000 or more, Contractor certifies it does not engage in and has no present plans to engage in discrimination against Israel, or against persons or entities doing business in Israel, when making decisions related to the operation of the vendor's business. For purposes of this section, "discrimination" includes but is not limited to engaging in refusals to deal, terminating business activities, or other actions that are intended to limit commercial relations with Israel, or persons or entities doing business in Israel, when such actions are taken in a manner that in any way discriminates on the basis of nationality or national origin and is not based on a valid business reason.

19. Non-discrimination (in accordance with Minn. Stat. § 181.59).

The Contractor will comply with the provisions of Minn. Stat. § 181.59.

20. E-Verify Certification (in accordance with Minn. Stat. § 16C.075).

For services valued in excess of \$50,000, Contractor certifies that as of the date of services performed on behalf of the State, Contractor and all its subcontractors will have implemented or be in the process of implementing the federal E-

Verify Program for all newly hired employees in the United States who will perform work on behalf of the State. Contractor is responsible for collecting all subcontractor certifications and may do so utilizing the E-Verify Subcontractor Certification Form available at <http://www.mmd.admin.state.mn.us/doc/EverifySubCertForm.doc>. All subcontractor certifications must be kept on file with Contractor and made available to the State upon request.

21. Affirmative Action Requirements

The State intends to carry out its responsibility for requiring affirmative action by its contractors.

21.1 Covered Contracts and Contractors. If the Contract exceeds \$100,000 and the Contractor employed more than 40 full-time employees on a single working day during the previous 12 months in Minnesota or in the state where it has its principal place of business, then the Contractor must comply with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600. A contractor covered by Minn. Stat. § 363A.36 because it employed more than 40 full-time employees in another state and does not have a certificate of compliance, must certify that it is in compliance with federal affirmative action requirements.

21.2 General. Minn. R. 5000.3400-5000.3600 implements Minn. Stat. § 363A.36. These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a contractor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for non-compliance. The specific criteria for approval or rejection of an affirmative action plan are contained in various provisions of Minn. R. 5000.3400-5000.3600 including, but not limited to, Minn. R. 5000.3420-5000.3500 and 5000.3552-5000.3559.

The Contractor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

21.3.3 In the event of the Contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minn. Stat. § 363A.36, and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.

21.3.4 The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Commissioner. Such notices must state the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants for employment, and the rights of applicants and employees.

21.3.5 The Contractor must notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contractor is bound by the terms of

Minn. Stat. § 363A.36, of the Minnesota Human Rights Act and is committed to take affirmative action to employ and advance in employment physically and mentally disabled persons.

21.4 Consequences. The consequences for the Contractor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by the Commissioner, refusal by the Commissioner to approve subsequent plans, and termination of all or part of this Contract by the Commissioner or the State.

21.5 Certification. The Contractor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance.

22. IT Accessibility Standard.

[Instruction: this language applies when you are purchasing products or services that incorporate software applications including web sites, software applications, electronic reports and output documentation, training delivered in electronic formats (including, but not limited to, documents, videos, and webinars), among others.]

Contractor acknowledges and is fully aware that the State of Minnesota (Executive branch state agencies) has developed IT Accessibility Standard effective September 1, 2010. The standard entails, in part, the Web Content Accessibility Guidelines (WCAG) and Section 508 which can be viewed at: <https://mn.gov/mnit/government/policies/accessibility/>.

The Standards apply to web sites, software applications, electronic reports and output documentation, training delivered in electronic formats (including, but not limited to, documents, videos, and webinars), among others. As upgrades are made to the software, products, or subscriptions available through this Contract, the Contractor agrees to develop functionality which supports accessibility. If any issues arise due to nonconformance with the above-mentioned accessibility Standards, the Contractor agrees to provide alternative solutions upon request at no additional charge to the State.

When updates or upgrades are made to the products or services available through this Contract, the Contractor agrees to document how the changes will impact or improve the product's or service's accessibility and usability. This documentation, upon request, must be provided to the State in advance of the change, occurring within an agreed upon timeframe sufficient for the state to review the changes and either approve them or request a remediation plan from the Contractor. Contractor warrants that its Products comply with the above-mentioned accessibility Standards and agrees to indemnify, defend, and hold harmless the State against any claims related to non-compliance of Contractor's Product with the above-mentioned accessibility Standards. If agreed-upon updates fail to improve the product or service's accessibility or usability as planned, the failure to comply with this requirement may be cause for contract cancellation or for the State to consider the Contractor in default.

23. Nonvisual Access Standards.

Pursuant to Minn. Stat. § 16C.145, the Contractor must comply with the following nonvisual technology access standards to the extent required by law:

- That the effective interactive control and use of the technology, including the operating system applications programs, prompts, and format of the data presented, are readily achievable by nonvisual means;
- That the nonvisual access technology must be compatible with information technology used by other individuals with whom the blind or visually impaired individual must interact;
- That nonvisual access technology must be integrated into networks used to share communications among employees, program participants, and the public; and
- That the nonvisual access technology must have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired; and

- Executive branch state agencies subject to Section 16E.03, subdivision 9, are not required to include nonvisual technology access standards developed under this Section in contracts for the procurement of information technology.

These standards do not require the installation of software or peripheral devices used for nonvisual access when the information technology is being used by individuals who are not blind or visually impaired.

24. Survival of Terms.

The following clauses survive the expiration or cancellation of this Contract: Indemnification; State Audits; Government Data Practices; Intellectual Property; Publicity and Endorsement; Governing Law, Jurisdiction, and Venue; and Data Disclosure. Exhibit A, Supplement 1

IT TERMS

1. Supply Chain Security. [For hardware contracts only]

Notwithstanding anything else in this Section, this Section does not and shall not limit any other rights of the State under this Contract, including, but not limited to, warranties, acceptance, and return policy, if any.

1.1 Security Practices and Preventive Controls. The Contractor will use reasonable commercial efforts to ensure that the Contractor and any subcontractors or third parties involved in assembling, manufacturing, packaging, distributing, handling, warehousing, transporting or shipping State goods, including goods intended to be but not yet delivered to the State, meet all applicable security standards and all applicable local, state, federal, and international laws, rules and regulations (hereinafter “supply chain security”).

Contractor must maintain certification/accreditation in an official supply chain security program and comply with that program’s security standards for all orders sourced from the Contract. Official supply chain security program is defined as one of the following: ISO 28000 or 27036 (as applicable), SAE AS5553 or other SAE standard (as applicable), Customs-Trade Partnership Against Terrorism (C-TPAT), Authorized Economic Operator (AEO), or other program accepted in writing by the State, Office of MN.IT Services (f/k/a Office of Enterprise Technology and d/b/a MN.IT or MN.IT Services)(“MN.IT”) and the State, Department of Administration’s Office of State Procurement (“OSP”). To demonstrate certification/accreditation, Contractor must provide to OSP and MN.IT within one month following the effective date of this Contract or amendment adding this Section, whichever is later, a letter verifying its certification/accreditation in an official supply chain security program. Contractor will promptly notify OSP and MN.IT of any change to its certification/accreditation.

Alternatively, if Contractor is not certified/accredited or loses certification/accreditation, Contractor must complete a MN.IT security form to confirm that it complies with supply chain security. The form will require supporting documentation of any responses and must be completed to MN.IT’s satisfaction.

1.2 Notification of Supply Chain Security Breach. Contractor will promptly notify OSP, MN.IT, and the ordering entity, if different from MN.IT, of any breach of supply chain security involving State goods, including goods intended to be but not yet delivered to the State. Breach of supply chain security includes, but is not limited to, cargo theft, tampering, unauthorized access, or other activities that involve suspicious actions or circumstances. Goods received with viruses, malware or similar security deficiencies constitute breach of supply chain security.

1.3 Return/Rejection of Goods. Notwithstanding anything to the contrary, if a breach of supply chain security has occurred or the State in good faith suspects a breach may have occurred, including evidence that packaging or goods were tampered with or damaged, the State may reject delivery of those goods or return any of those goods already delivered. Breach of supply chain security has the meaning described in the preceding Subsection “Notification of Supply Chain Security Breach.” Rejection of delivery or return of goods shall be solely the responsibility and at the cost and expense of the Contractor.

The State may sanitize or destroy components of the goods prior to returning the goods to Contractor or instruct Contractor to promptly sanitize or destroy goods upon their return. Following the completion of any such sanitization or destruction, and upon request by MN.IT, the Contractor shall provide a Certificate of Data Destruction/Sanitization that meets the requirements of the then current version of NIST Special Publication 800-88

or DOD 5220.22-M Supplement. The Certificate of Data Destruction/Sanitization must be provided to MN.IT, if requested, within one month following the return of the goods.

At no additional expense to the State, Contractor must provide within a reasonable time frame replacement goods for any goods that were rejected at delivery or returned due to a supply chain security breach. Any costs and expenses associated with removal or replacement of the goods, including sanitization and destruction costs and expenses, will be the responsibility of the Contractor.

2. Security and Data Protection. [for cloud contracts only]

[Instructions: Remove paragraph 2.9 if the RFP otherwise includes insurance requirements for Network Security and Privacy Liability. The paragraph 2.16 (Compliance with Data Security Laws) is needed only if the agency wants to or has a reason to include those requirements (such as any potentially applicable federal requirements related to the data that might exist).

Contractor is responsible for the security and protection of State data subject to and related to Cloud Services in this Contract. The terms, conditions, and provisions of this Security and Data Protection section take precedence and will prevail over any other terms, conditions, and provisions of the Contract, if in conflict. This Security and Data Protection section, including its sub-sections, survives the completion, termination, expiration, or cancellation of the Contract.

For the purposes of this Security and Data Protection section, the following terms have the following meanings:

“Cloud Services” includes “cloud computing” as defined by the U.S. Department of Commerce, NIST Special Publication 800-145 (currently available online at: <http://nvlpubs.nist.gov/nistpubs/Legacy/SP/nistspecialpublication800-145.pdf>) and any other software, hardware, hosting service, subscription, or other service or product by which Contractor stores, transmits, processes or otherwise has access to State data.

“State” means the State, or a cooperative purchasing venture (“CPV”) member when the CPV member is the ordering entity (if CPV purchases are permitted under this Contract).

“Data” has the meaning of “government data” in Minn. Stat. § 13.02, subd. 7.

“Not public data” has the meaning in Minn. Stat. § 13.02, subd. 8a.

"Security incident" means any actual, successful or suspected: (1) improper or unauthorized access to, viewing of, obtaining of, acquisition of, use of, disclosure of, modification of, alteration to, loss of, damage to or destruction of State data; (2) interference with an information system; (3) disruption of or to Contractor's service(s); or (4) any similar or related incident.

"Privacy incident" means violation of the Minnesota Government Data Practices Act (Minnesota Statutes chapter 13); violation of federal data disclosure or privacy requirements in federal laws, rules and regulations; or breach of a contractual obligation to protect State data. This includes, but is not limited to, improper or unauthorized access to, viewing of, obtaining of, acquisition of, use of, disclosure of, damage to, loss of, modification of, alteration to or destruction of State data protected by such State or federal laws or by contract.

2.1 Data Ownership. The State solely and exclusively owns and retains all right, title and interest, whether express or implied, in and to any and all State data. Contractor has no and acquires no right, title or interest, whether express or implied, in and to State data.

Contractor will only use State data for the purposes set forth in the Contract. Contractor will only access State data as necessary for performance of this Contract. Contractor will not access State user accounts except to respond to service or technical problems or at the State's specific request.

All State data, including copies, summaries and derivative works thereof, must be remitted, in a mutually agreeable format and media, to the State by the Contractor upon request or upon completion, termination or cancellation of the Contract. The foregoing sentence does not apply if the State Chief Information Security Officer or delegate authorizes in writing the Contractor to sanitize or destroy the data and the Contractor certifies in writing the sanitization or destruction of the data. Within ninety days following any remittance of State data to the State, Contractor shall, unless otherwise instructed by the State in writing, sanitize or destroy any remaining data and certify in writing that the sanitization or destruction of the data has occurred. Any such remittance, sanitization or destruction will be at the Contractor's sole cost and expense.

In the event Contractor receives a request to release any State data, Contractor must immediately notify the State's data practices compliance official. The State will give Contractor instructions concerning the release of the data to the requesting party before the data is released. Contractor must comply with the State's instructions. The civil remedies of Minn. Stat. § 13.08 apply to the release of the data by Contractor.

2.2 Notification of Incidents. If Contractor becomes aware of or has reasonable suspicion of a privacy incident or security incident regarding any State data, Contractor must report such incident to the State and the State Chief Information Security Officer as soon as possible, but no later than twenty-four (24) hours after such incident. The decision to notify the affected data subjects and the form of such notice following report of a privacy incident or security incident are the responsibility of the State. Notwithstanding anything to the contrary in this Contract, Contractor will indemnify, hold harmless and defend the State and its officers, and employees for and against any claims, damages, costs and expenses related to any privacy incident or security incident involving any State data. For purposes of clarification, the foregoing sentence shall in no way limit or diminish Contractor's obligation(s) to indemnify, save, hold harmless, or defend the State under any other term of this Contract. Contractor will reasonably mitigate any harmful effects resulting from any privacy incident or security incident involving any State data.

2.3 Security Program. Contractor will make best efforts to protect and secure the State data related to this Contract. Contractor will establish and maintain an Information Security Program ("Program") that includes an information security policy applicable to any and all Cloud Services ("Policy"). Contractor's Program and Policy must align with appropriate industry security frameworks and standards such as National Institute of Standards and Technology ("NIST") 800-53 Special Publication Revision 4, Federal Information Processing Standards ("FIPS") 199, Federal Risk and Authorization Management Program ("FedRamp"), or Control Objectives for Information and Related Technology ("COBIT").

Upon the State's request, Contractor will make its Policy available to the State on a confidential, need-to-know basis, along with other related information reasonably requested by the State regarding Contractor's security practices and policies. Unless inconsistent with applicable laws, Contractor and the State must treat the Policy and related information on security practices and policies that are specific to the State as confidential information and as not public data pursuant to Minn. Stat. § 13.37.

2.4 Data Management. Contractor will not use State data, including production data, for testing or development purposes unless authorized in writing by the State Chief Information Security Officer or delegate. Contractor will implement and maintain procedures to physically and logically segregate State data, unless otherwise explicitly authorized by the State Chief Information Security Officer or delegate.

2.5 Data Encryption. Contractor must encrypt all State data at rest and in transit, in compliance with FIPS Publication 140-2 or applicable law, regulation or rule, whichever is a higher standard. All encryption keys must be unique to State data. Contractor will secure and protect all encryption keys to State data. Encryption keys to State data will only be accessed by Contractor as necessary for performance of this Contract.

2.6 Data Storage. Contractor warrants that any and all State data will be stored, processed, and maintained solely on designated servers and that no such data at any time will be processed on or transferred to any portable computing device or any portable storage medium, unless that storage medium is in use as part of the Contractor's designated backup and recovery processes.

2.7 Data Center and Monitoring/Support Locations. During the term of the Contract, Contractor will: (1) locate all production and disaster recovery data centers that store, process or transmit State data only in the continental United States, (2) store, process and transmit State data only in the continental United States, and (3) locate all monitoring and support of all Cloud Services only in the continental United States. The State has the right to on-site visits and reasonable inspection of the data centers upon notice to Contractor of seven calendar days prior to visit.

2.8 Security Audits & Remediation. Contractor will audit the security of the systems and processes used to provide any and all Cloud Services, including those of the data centers used by Contractor to provide any and all Cloud Services to the State. This security audit: (1) will be performed at least once every calendar year beginning with 2016; (2) will be performed according Statement on Standards for Attestation Engagements ("SSAE") 16 Service Organization Control ("SOC") 2, International Organization for Standardization ("ISO") 27001, or FedRAMP; (3) will be performed by third party security professionals at Contractor's election and expense; (4) will result in the generation of an audit report ("Contractor Audit Report"), which will, to the extent permitted by applicable law, be deemed confidential information and as not public data under the Minnesota Government Data Practices Act (Minnesota Statutes chapter 13); and (5) may be performed for other purposes in addition to satisfying this section.

Upon the State's reasonable, advance written request, Contractor will provide to the State a copy of the Contractor Audit Report.

Contractor will make best efforts to remediate any control deficiencies identified in the Contractor Audit Report in a commercially reasonable timeframe.

If the State becomes aware of any other Contractor controls that do not substantially meet the State's requirements, the State may request remediation from Contractor. Contractor will make best efforts to remediate any control deficiencies identified by the State or known by Contractor, in a commercially reasonable timeframe.

2.9 Insurance and Liability. Contractor warrants that it has and will maintain the insurance described below in force and effect throughout the term of the Contract. An Umbrella or Excess Liability insurance policy may be used to supplement the Contractor's policy limits to satisfy the full policy limits required by the Contract provided that Contractor warrants that the minimum coverage requirements below are met.

Professional/Technical, Errors and Omissions, including Network Security and Privacy Liability Insurance (or equivalent Network Security and Privacy Liability coverage endorsed on another form of liability coverage or written as a standalone policy):

This policy must provide coverage for all claims Contractor may become legally obligated to pay resulting from any actual or alleged negligent act, error, or omission related to the Contract, including but not limited to claims which may arise from failure of Contractor's or a subcontractor's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of confidential or private information, transmission of a computer virus or denial of service.

Contractor is required to carry the following minimum limits:

\$2,000,000 – per claim or event
\$2,000,000 – annual aggregate

Any deductible will be the sole responsibility of the Contractor and, unless Contractor maintains an audited net worth of at least \$100 million, the deductible may not exceed \$100,000 without the written approval of the State. If the Contractor desires authority from the State to have a deductible in a higher amount, the Contractor shall so request in writing, specifying the amount of the desired deductible and providing financial documentation by submitting the most current audited financial statements so that the State can ascertain the ability of the Contractor to cover the deductible from its own resources. The retroactive or prior acts date of such coverage shall not be after the effective date of the Contract. Contractor shall maintain such insurance for a period of at least three (3) years following expiration or termination of the Contract. If such insurance is discontinued, extended reporting period coverage must be obtained by Contractor to fulfill this requirement.

Contractor's policy(ies) shall be primary insurance to any other valid and collectible insurance available to the State with respect to any claim arising out of Contractor's performance under this Contract. If Contractor receives a cancellation notice from an insurance carrier affording coverage herein, Contractor will notify the State within five (5) business days with a copy of the cancellation notice, unless Contractor's policy(ies) contain a provision that coverage afforded under the policy(ies) will not be cancelled without at least thirty (30) days advance written notice to the State. Contractor is responsible for payment of Contract related insurance premiums and deductibles. If Contractor is self-insured, a Certificate of Self-Insurance must be provided to the State. Contractor shall obtain insurance policy(ies) from insurance company(ies) having an "AM BEST" rating of A- (minus); Financial Size Category ("FSC") VII or better, and authorized to do business in the State. All insurance policies must be open to inspection by the State, and copies of policies must be submitted to the State's authorized representative upon written request. The State reserves the right to immediately terminate the Contract if the Contractor is not in compliance with the insurance requirements of this sub-section and retains all rights to pursue any legal remedies against the Contractor.

Notwithstanding any limitation of liabilities in the Contract, the Contractor shall be liable for all damages to the extent such damages are within the insurance limit.

2.10 Subcontractors and Third Parties. Contractor warrants that no State data will be transmitted, exchanged or otherwise provided to other parties except as specifically agreed to in writing by the State Chief Information Security Officer or delegate. Contractor must ensure that any contractors, subcontractors, agents and others to whom it provides State data, agree in writing to be bound by the same restrictions and conditions under this Contract that apply to Contractor with respect to such data.

2.11 Compliance with Data Privacy and Security Laws and Standards. Contractor shall comply with all applicable State and federal data privacy and data security laws, rules, and regulations.

2.12 Remedies. Contractor acknowledges that the State, because of the unique nature of its data, would suffer irreparable harm in the event that Contractor breaches its obligation under this Security and Data Protection section, and monetary damages may not adequately compensate the State for such a breach. In such circumstances, the State will be entitled, in addition to monetary relief, to injunctive relief or specific performance as may be necessary to restrain any continuing or further breach by Contractor, without showing or proving any actual damages sustained by the State.

2.13 Business Continuity. Contractor shall have written business continuity and disaster recovery plans that define the roles, responsibilities and procedures necessary to ensure that Cloud Services provided under this Contract shall be maintained continuously in the event of a disruption to the Contractor's operations, regardless of the cause of the disruption. Such plans must, at a minimum, define the Contractor's actions to address the impacts of the following key areas likely to cause a disruption to Contractor's operations: loss of key personnel, loss of facility, and loss of information technology. Contractor must conduct testing and review of its business continuity and disaster recovery plan at least annually. Upon State request, Contractor must also participate, at mutually agreed upon times, in State business continuity and disaster recovery testing, training, and exercise activities.

Any term or condition that allows the Contractor to terminate the Contract for any or no reason (i.e., termination for convenience) is null and void. In the event of termination or cancellation of this Contract for any reason, the Contractor shall continue to provide any then-existing Cloud Services for as long as the State needs to transfer its data, software and other assets to an alternate service or service provider. After any such termination or cancellation, the State may purchase the continuing Cloud Services at the pricing in effect prior to such termination or cancellation. The fee for any such purchase shall be prorated for the period of time needed, as determined by the State, and shall be reduced by the amount paid for Cloud Services that were not used prior to such termination or cancellation. The amount of any such fee reduction shall be determined on a pro-rata basis. The Contractor shall refund to the State any unused portion of payments for Cloud Services.

2.14 Background Checks. Contractor represents that it has conducted and will conduct background investigations into all of Contractor's agents, employees, and subcontractors that will provide Cloud Services to the State. Such background investigations must have been or will be conducted by investigating local, state and federal criminal records, local, state and federal civil case records, and employment references.

If any provision of this sub-section is found to violate any applicable laws, rules, or State policies, then the Contractor will be relieved of all obligations arising under such provision. Notwithstanding anything to the contrary in this sub-section, this sub-section is only applicable and effective to extent that it is consistent with applicable laws, rules, and State policies.

2.15 Secure Coding. Contractor warrants that all Cloud Services are free from any and all defects in materials, workmanship, and design. Contractor warrants that all Cloud Services are free from any and all viruses, malware, and other harmful or malicious code. Contractor must scan all source code for vulnerabilities, including before and after any source code changes are made and again before being placed into production, and must promptly remediate any and all vulnerabilities. Contractor must follow best practices for application code review and the most current version of the OWASP top 10.

[Additional language an agency should consider including if the category of data falls in the scope of these requirements. Sub-section "Compliance with Data Privacy and Security Laws and Standards" must be reviewed prior to inclusion in any Contract. Only those applicable should be included.]

Contractor must comply with all requirements, restrictions, and conditions that apply to the Office of MN.IT Services in the July 1, 2015, Amended MNsure Data Sharing Contract, currently available at <https://www.mnsure.org/images/MNIT-MNsuredata-sharing-Contract-2015-07.pdf>, and as amended. This document, as amended, is fully incorporated herein.

Contractor shall comply with the Health Insurance Portability Accountability Act ("HIPAA"), the HITECH Act, and other similar privacy laws. Contractor also shall comply with the HIPAA Privacy Rule, HIPAA Security Rule, and other similar rules, regulations, and laws, including future amendments thereto.

Contractor shall comply with all applicable requirements, restrictions, and conditions set forth in the Criminal Justice Information Services ("CJIS") – Security Policy, Version 5.3, dated 8/4/2014, including, but not limited to, conducting FBI fingerprint background checks on all of Contractor's agents, employees, and subcontractors that have or will have access to Criminal Justice Information ("CJI").

Contractor acknowledges that for the purposes of this Contract when storing, processing, transmitting or otherwise accessing State data subject to the Family Educational Rights and Privacy Act ("FERPA"), it is designated as a "school official" with "legitimate educational interests" in State data and associated metadata, as those terms have been defined under FERPA and its implementing regulations, and Contractor agrees to abide by the limitations and requirements imposed by 34 CFR 99.33(a) on school officials. Contractor shall use State data only for the purpose of fulfilling its duties under the Contract and it will not monitor or share such data with or disclose it to any third party

except as provided for in this Contract, as required by law, or as authorized in writing by the State. By way of illustration and not of limitation, Contractor will not use such data for Contractor's own benefit and, in particular, will not engage in "data mining" of such data or communications, whether through automated or human means, except as necessary to fulfill its duties under this Contract, or as specifically and expressly provided for in this Contract, as required by law, or authorized in writing by the State. Contractor agrees, upon request, to provide the State with a written summary of the procedures Contractor uses to safeguard State data.

All of Contractor's systems and components that process, store, or transmit Cardholder Data shall comply with the most recent version of the Payment Card Industry Data Security Standard ("PCI DSS") promulgated by the PCI Security Standards Council, currently available online at: https://www.pcisecuritystandards.org/document_library. The Contractor shall, upon request, provide the State with Contractor's current Attestation of Compliance signed by a PCI QSA ("Qualified Security Assessor"). For purposes of this sub-section, "Cardholder Data" has the meaning defined by the PCI Security Standards Council, Payment Card Industry (PCI) Data Security Standard (DSS) and Payment Application Data Security Standard (PA-DSS), Glossary of Terms, Abbreviations, and Acronyms, currently available online at: https://www.pcisecuritystandards.org/document_library.
